CLEANING TIPS

PRO TIPS

Do not use abrasive cleaning products as they will scratch the magnet.

Wait for your planner to be completely dry before writing with liquid chalk or whiteboard markers.

To avoid liquid chalk dissolving too fast, don't spray liquid directly onto the planner. Instead spray onto a cloth and then wipe the planner clean.

Keep your planner flat, don't fold and keep away from excessive heat to avoid damage.

Be sure to wipe any dust of the back of the planner and the fridge as a tiny speck can create a large bump.

To flatten any bumps in your planner, place it in a warm sunny spot to soften then place it on the fridge and smooth the surface with your hands.

Whiteboard markers will not work on dark coloured planner backgrounds e.g. classic black range

TESTIMONIALS

Great product!

The product is great for my partner and I to organise and plan our week ahead!

Exactly what we've needed!

Elizabeth

Beautiful & effective!

I love this planner and have several others (monthly planner and kids routine) all on our fridge. Simple but beautiful design and has really helped our family stay on top of things.

Love these products!

Anna
