

The MeatStick®

Achieve Meat Perfection Every Time

WIRELESS MEAT THERMOMETER

Achieve Meat PERFECTION

The MeatStick is the first smart wireless meat thermometer engineered with versatility and durability in mind to withstand almost all ways of cooking.

Our MeatStick enables you to easily monitor your **meat's temperatures** during the cook, providing real-time data on your phone to **achieve steakhouse quality at home.**

True Wireless

Highly Durable

Real-Time Monitoring

Dishwasher & Sous-Vide Safe.

HOW IT WORKS

1. Insert The MeatStick

2. Start a New Cook

3. Monitor Your Meat

X Charger with Built-In Xtender

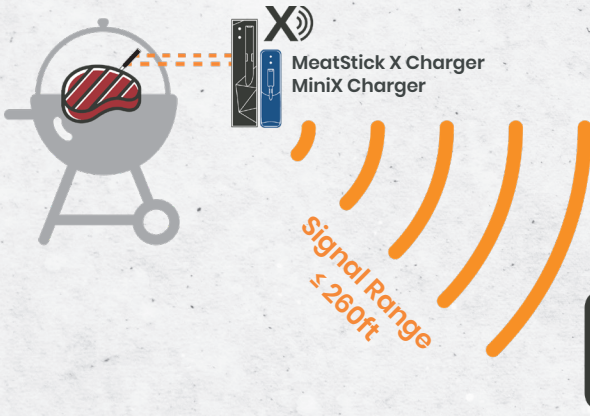

Our X Chargers (**MeatStick X** and **MiniX**) include a built-in Xtender to extend the Stick's Bluetooth range up to **100ft indoors** or **260ft outdoors**. Any X Charger works perfectly with up to any 8 Sticks for range usability.

WiFi Bridge for Unlimited Range

Our WiFi Bridge connects to your WiFi Network and links up to any 8 Sticks to our cloud, allowing you to **access real-time temperatures anywhere with Internet**. It's powered by Micro-USB through your power adapter or power bank.

HOW IT WORKS

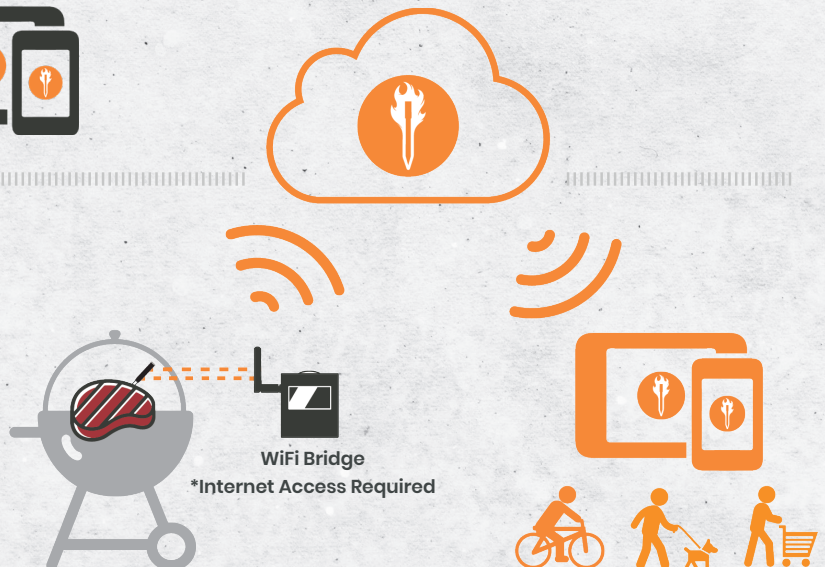

Range Up to 260ft/80m

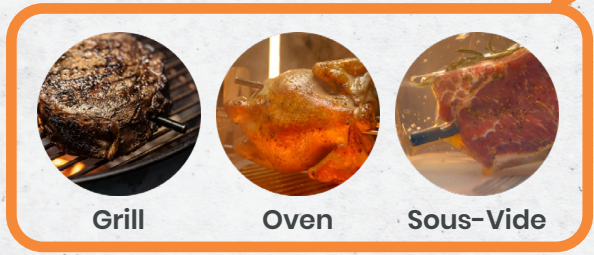

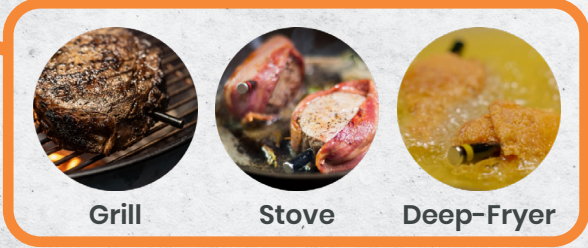

MeatStick X / MiniX Charger can extend the Stick's signal range up to 260ft to reach your mobile device(s).

Unlimited Range

The WiFi Bridge uploads your temperatures to the cloud, so you can access them anywhere via the internet while jogging, walking your dog, shopping and so on.

HOW DO I CHOOSE MY PERFECT MEATSTICK?

PRODUCT FAMILY

All our products can mix and match to work together for range usability: any X Charger or WiFi Bridge works perfectly with up to any 8 Sticks.
