

SPIRIT 550

The Spirit 550 is designed specially for large modern homes that need warm air circulating through a number of rooms. This sophisticated fire takes its design cues from the top European styles, with curved sides over the traditional square fire box.

With options of stainless steel or black sides to fit the surrounding décor, Spirit is the perfect wood fire when looks and performance need to go hand-in-hand.

Specifications

Estimated Peak Heat Output	19Kw
Max. Average Heat Output	10.2Kw
Weight	143kg
Colour	Black
Height	910mm
Width	605mm
Depth	530mm
Max Log Length	350mm
Min. to Combustible Walls (A)	230mm
Min. to Combustible walls (B)	245mm
Min. Ash Hearth (C)	300mm
Min. Door Opening to Edge of Ash Hearth (D)	200mm
Min. to Combustible Walls (E)	140mm
Flue Centre to Rear Wall (F)	351mm
Flue Centre to Side Wall (G)	549mm
Flue Centre to Corner Walls (H)	396mm
Emissions g/kg	0.9
Efficiency	69%
