# IMPORTANT

Please keep your proof of Purchase and User Manual in a safe place as you will require these to make a warranty claim. Prior to making a claim you should read through the trouble shooting section in the manual and contact your supplier via phone. Any warranty claims should be made directly to your supplier.

If, within one (1) year from the date of purchase, the product fails due to a defect in material or workmanship, we will repair if possible or replace it free of charge with a comparable unit which may be new or refurbished. This warranty applies only to the original purchaser and is not transferable. The goods must be returned to the seller with proof of purchase to be assessed at the purchasers cost.

Warranties shall not apply to any defect, failure or damage caused by improper use or improper or inadequate maintenance and care. The manufacturer shall not be obligated under these warranties:

- a) to repair damage resulting from attempts by personnel other than authorised representatives to install, repair or service the product,
- b) to repair damage, malfunction, or degradation of performance resulting from improper use or incompatible solution,
- c) to perform maintenance or cleaning or to repair damage, malfunction, or degradation of performance resulting from failure to perform user maintenance and cleaning as prescribed,
- d) to repair damage, malfunction, or degradation of performance resulting from use of the product in an environment not meeting the operating specifications,

To activate your warranty, please complete the information below and post to your supplier within 14 days of purchase.

# ASSEMBLY INSTRUCTION

**STEP 1**  
Lay rubber floor into position

**STEP 2**  
Place Base on rubber floor

**STEP 3**  
Stack fan units on top  
of the base

**STEP 4**  
Attach metal rails to the  
base and fan units using the  
screws.

**Note:** only loosely screw the  
rails into position, allowing room  
to insert the sides and only tighten  
after the sides are in place.

**STEP 5**  
Complete the tower ensuring  
the top unit is located at the  
top

**STEP 6**  
Insert the sides between the  
units and rails, starting at the  
top, clamping them tightly  
once in position.

**STEP 7**  
Connect the fan unit by the  
cord and attach the foot pedal

# CHANGING THE FILTER

Loosen the screws on all the units and remove the top filter cover first

The filters are disposable and replacement filters are ordered in a 2 pack and recommended to be changed after 100+ sprays.
