- Do not attempt to disassemble or repair the unit. opening unit may void warranty
- This product contains no user-serviceable parts.
- Contact Canopy Support if the unit malfunctions or is damaged.
- Opening the unit may void your warranty.

How it Works

Air enters through the sides of the unit and passes through a multi-stage filtration system that helps captures airborne particles.

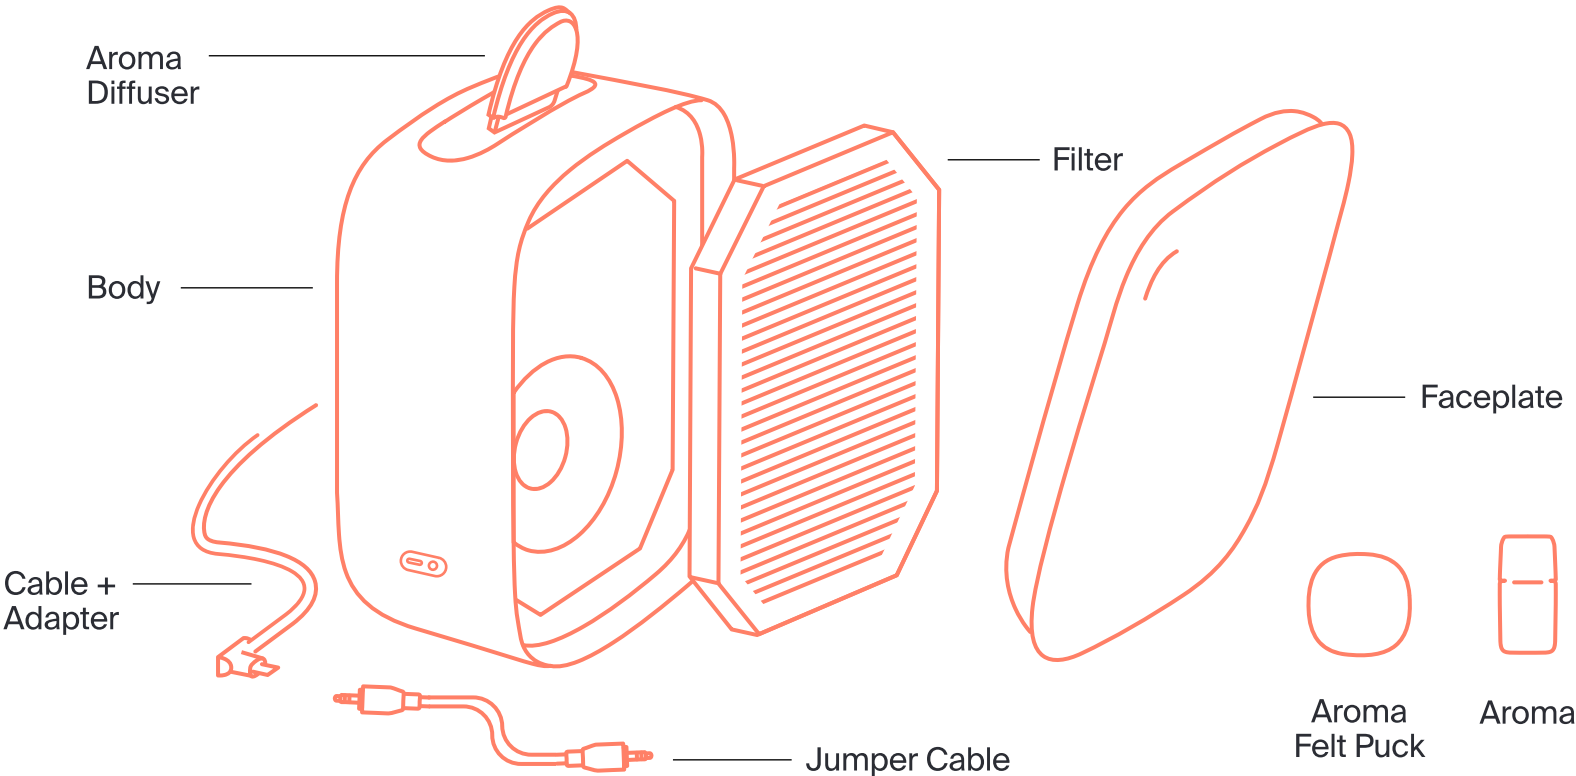

Depending on the devices position, clean air is released upward or sideways. A built-in aroma puck diffuses Canopy's signature scents, turning clean air into a full-sensory experience.

A light sensor auto-adjusts fan speed between day and night, while a soft backlight adds a calming, sleep-friendly glow.

NOTE FOR SAFE USE

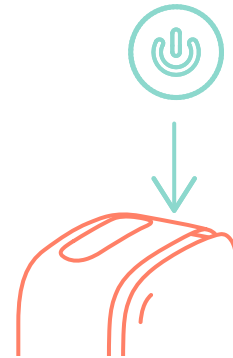

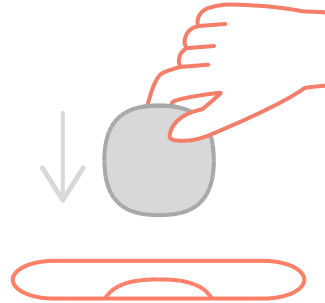

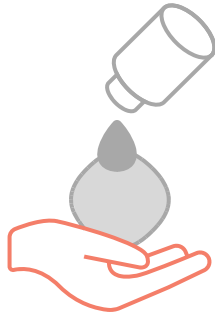

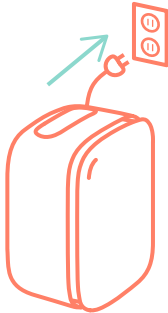

This product is intended for use by adults. Children or individuals with reduced physical, sensory, or mental capabilities should only use this product under supervision and with proper instruction. Always keep out of reach of young children when not in use.

Your Air Purifier is made up of these parts:

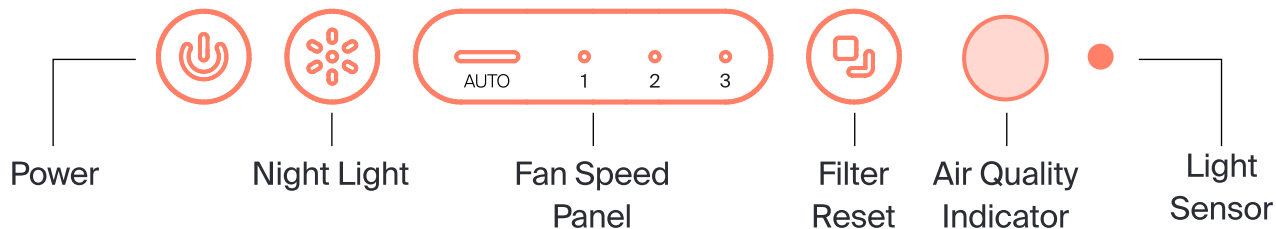

Setup & Placement

- 1 Choose a spot at least 6" from walls or furniture.
- 2 Place on a firm, flat surface near a power outlet. The Air Purifier can be positioned flat or upright.
- 3 Plug in the included power adapter
- 4 Add 10-15 drops of essential oil to aroma puck & place in aroma compartment.
- 5 Tap the power button to turn on.

Controls

Power Button

Hold for 3s: Activate/
Deactivate Child Lock

Night Light

Cycle between Red White and Off
Hold to dim/brighten

Air Quality Indicator

Green: Good ($PM_{2.5} \leq 35$)
Orange: Moderate (PM_{36-85})
Red: Poor (PM_{86+})

Filter Reset

Hold for 3s to Reset

Fan Speed Controls

Tap each number to select speed
Sleep-safe auto mode adjusts speeds throughout the day based on air quality - Keeps constant throughout the night to avoid disturbances

Flexible Placement & Power

Whether it's in a nursery, bedroom, or tucked into a corner, The Canopy Air Purifier keeps your air fresh and your space feeling clean without taking up space.

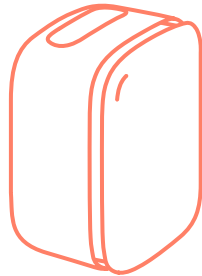

Face-Up (Horizontal)

Best for low shelves, under-bed setups, or minimalist surfaces

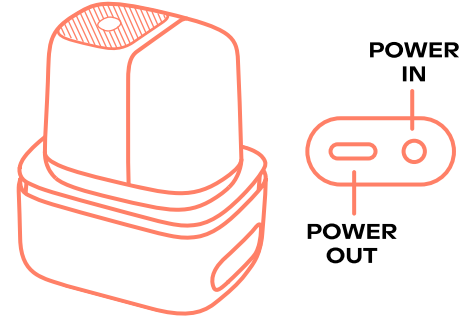

Upright (Vertical)

Ideal for nightstands, dressers, or corners

One Port Power

Power both your Canopy Air Purifier and Humidifier from the same outlet using the built-in USB-C output.

How to:

1. Plug the air purifier into a standard wall outlet using the included adapter.
2. Connect the purifier's USB-C OUT to the humidifier's USB-C IN using a compatible cable.
3. Both devices will power on through a single outlet with no bulky power strips needed.

Maintenance

Top Rack Dishwasher Safe

Faceplate

Aroma Diffuser

Not Dishwasher Safe

Body

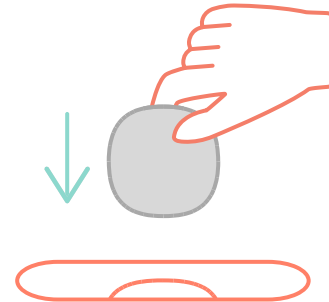

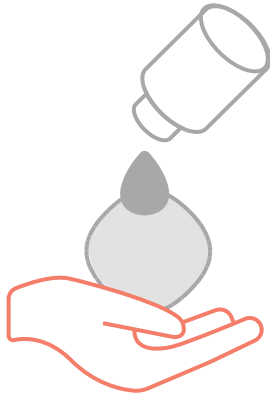

Filter

- Unplug the unit.
- Remove the faceplate (dishwasher safe – top rack only).
- Wipe interior and fan vents with a damp cloth.
- Clean aroma area with a dry cloth.

DO NOT SUBMERGE OR SPRAY THE UNIT DIRECTLY.
DO NOT PLACE THE BODY OR FILTER IN THE DISHWASHER.

Diffusing Aromas

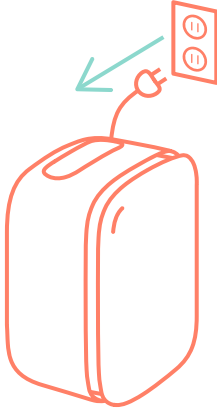

- Add 10-15 drops of Canopy aroma oil onto the felt aroma puck.
- Place the felt aroma puck into the aroma tray under the faceplate.
- Replace puck every 1-2 weeks depending on frequency of use.

Filter Replacement

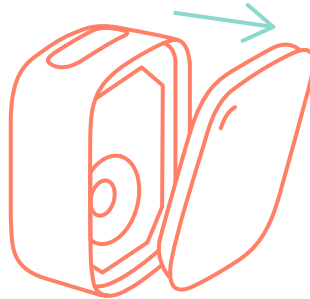

1. Turn Off and Unplug

Ensure the Air Purifier is turned off and unplugged from the electrical outlet.

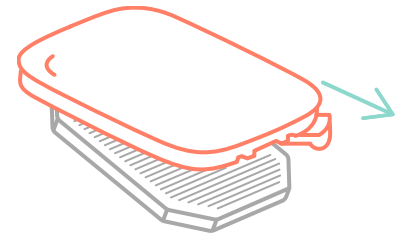

2. Open Unit

Remove the Faceplate and pull slider button to release filter.

3. Remove Used Filter

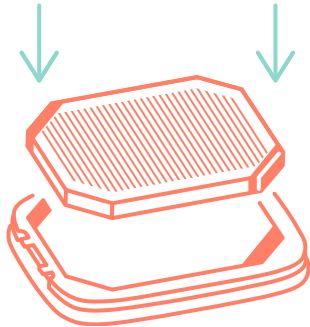

Carefully remove the used filter. Seal it in a disposable bag and follow your local guidelines for safe disposal.

Filter Replacement

4. Replace Filter

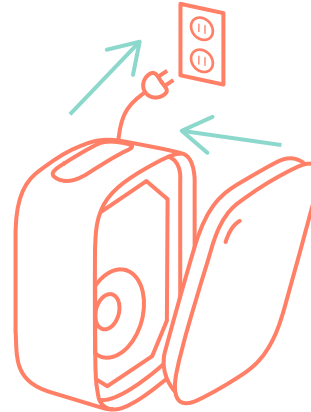

Place new Filter into Faceplate, ensuring it's properly seated.

5. Replace Faceplate

Replace Faceplate. Plug in.

Reset Filter Light: Hold Filter Reset Button for 3 Seconds.

FAQ

Q: How quiet is the Air Purifier?

A: Under 25 dB on low—perfect for nurseries, bedrooms, and nighttime use.

Q: Can I turn off the nightlight completely?

A: Yes. Tap the light button until it cycles to OFF.

Q: Will the nightlight shut off after a certain amount of time?

A: No. To turn it off, tap the light button until it reaches OFF mode.

Q: How often should I replace the Air Purifier Filter?

A: For optimal performance, we recommend replacing your Canopy Air Purifier filter every 6 months (approximately 720 hours of use). This interval is based on average home air quality and daily use.

However, replacement timing may vary depending on your environment:

Your device's filter indicator light will illuminate when it's time for a change. After replacing the filter, press and hold the reset button for 3 seconds to restart the timer.

Q: Where can I buy replacement filters or aroma felt pucks?

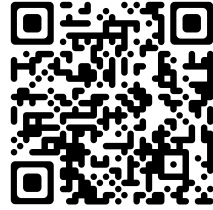

A: Visit getcanopy.co

Q: Can I vacuum the filter instead of replacing it?

A: No. The Canopy Air Purifier uses a multi-stage filter designed to capture fine particles – it's not meant to be cleaned or reused. Vacuuming or rinsing can damage the delicate filtration layers – reducing performance and potentially releasing trapped particles back into the air.

Q: What room size is the Canopy Air Purifier best for?

A: The Canopy Air Purifier is optimized for small to medium-sized rooms, like bedrooms, nurseries, and home offices.
