

# INSTRUCTIONS CHART

**High Performance** Bond building with over 90% naturally derived ingredients.

#### **OPTION 1: STANDALONE SALON SERVICE**

- APPLY Smart Purifying Shampoo Pro and rinse.
- MIX 3 oz/90 ml of water with 3 pumps (8.10 ml / ~0.3 oz) of Smart Bond Protection and Strengthening Concentrate. Apply on damp hair.
- 3 PROCESS 3-5 minutes (do not rinse)
- 4 APPLY Smart Bond Builder and Repair Treatment. Comb for even distribution. Process for 5 minutes and rinse.
- 5 Gently REMOVE excess water from the hair with a soft fabric towel.
- 6 Add one or two dime sized amount of Blacklight Smart Oil on the palm of your hands. Rub your hands together and distribute product on lengths and ends.

#### **OPTION 2: LIGHTENER APPLICATION**

- MIX1 pump (2.70 ml / ~0.1 oz)\* of Smart Bond Protection and Strengthening Concentrate for every 1 oz (30 ml) of lightener. Add developer as per lightener instructions
- Once processing time is completed, RINSE hair thoroughly with lukewarm water.
- APPLY Smart Purifying Shampoo Pro. If shampoo lather turns pinkish, rinse the hair thoroughly and gently repeat shampoo application. Rinse.
- APPLY Smart Bond Builder and Repair Treatment and comb the hair with a wide tooth comb for even distribution. Leave on for 5 minutes and rinse.
- 5 Gently REMOVE excess water from the hair with a soft fabric towel.
- Add one or two dime sized amount of Blacklight Smart Oil<sup>†</sup> on the palm of your hands. Rub your hands together and distribute product on lengths and ends.

\* For very porous hair, use 2 pumps (5.40 ml / ~0.2 oz) of Smart Bond Protection and Strengthening Concentrate for every 1 oz (30ml) of lightener. Use caution and proper judgment when dealing with very porous hair.

\*\*Do not use more than a 20 volume for on-scalp application.

### **OPTION 3: HAIR COLOUR APPLICATION**

- MIX1 pump (2.70 ml / ~0.1 oz) of Smart Bond Protection and Strengthening Concentrate for every 1 oz (30 ml) of hair colour. Add developer as per hair colour instructions. Process colour.
- 2 APPLY Smart Purifying Shampoo Pro. If shampoo lather turns pinkish, rinse the hair with abundant water until water runs clean. Do not repeat shampoo application.
- 3 FOR HEALTHY HAIR: Apply Smart Repair Conditioner and process for 3-5 minutes and rinse. FOR POROUS HAIR: Apply **Smart Bond Builder and Repair Treatment** and comb for even distribution. Process for 5 minutes and rinse.
- 4 Gently REMOVE excess water from the hair with a soft fabric towel.
- Add one or two dime sized amount of Blacklight Smart Oil on the palm of your hands. Rub your hands together and distribute product on lengths and ends.

- Use Smart Purifying Shampoo and Smart Repair Conditioner once a week.
- Replace Smart Repair Conditioner by Smart Bond Builder and Repair Treatment\* once every two weeks or when needed
- Blacklight Smart Oil† can be used on damp hair after each washing routine.

\*When processing Smart Bond Repair Treatment, mild heat can be used if desired.

†For curly hair, add one or two dime sized amount of Blacklight Smart Oil on the palm of your hands. Rub your hands together and gently massage the product on your hair lengths and ends then use your finger (raking) to aid in distribute and separate your curls.
