Janser

THE FITTING ANSWER

Welcome to the new edition Janser Basics Catalogue

Janser U.K. is pleased to present our new 'Janser Basics' product catalogue, a supplement to our full catalogue.

The concept of this brochure is to present a range of popular core products from our main catalogue in a clear, attractive manner. The range illustrated provides all the key products for the preparation and installation of most flooring materials.

To order from this catalogue simply quote the order number in the orange code boxes next to the product...

CONTENTS

VINYL GROOVING & CUTTING

1-25

- Columbus • Vacuums • Strippers
- Scrapers • Claws • Grind Stones • Aeration Rollers
- Trowels • Protimeter • Moisture Indicators

BLADES, KNIVES & CUTTERS

26-33

- Green box • Titan • Stanley • Knives
- Cutters • Shears • Gripper Shears • Metal Shears
- Cookie Cutters • Syringes • Repair Tools

VINYL GROOVING & CUTTING

34-47

- Auto-Groovers • Hand Groovers
- Leister • Welding • Hand Rollers • Hot-Jet Nozzles
- Spatulas • Mozart • Trimming Tools • Cold Weld
- Scribes • Dividers

RULES & ROLLERS

48-49

- Roll-up Rulers • Door Rulers
- Invisiseamer • T-Rule • Hand-Rollers • Lino Rollers
- Wall Rollers • Tile Cutters

FLOOR TILE CUTTERS

50-51

- Tile Cutters • LVT Cutters

CARPET FITTING

52-64

- Tapes • Disto • Kickers
- Chalk Line & Chalk • Stair Tools • Hammers • Drive Bars
- Kneepads • Irons • Heat Tape • Seam Rollers
- Glu-Guns • Staplers • Spotnailers • Compressors

WOOD & LAMINATE FLOORING

65-72

- Door Trimmers • Jamb Saws
- Hand Saws • Templates • Sharpeners • Fein Multimaster
- Spacers • Shunters • Tapping Blocks • Wax Kits
- Laminate Guillotines • Portanailers • Sanding Abrasives

MISCELLANEOUS PRODUCTS

73-83

- Tapes • Rollers & Frames • Skeleton
- Nails • Drill Bits • Gimps • Tap-its • Rawl Plugs
- Spray Adhesive • Handling & Lifting • Work Clothing
- Tool Boxes • Packaging • Whipping & Cutting

BUFFING & LEVELLING

COLUMBUS single-disc buffing & levelling machine

Mod.135 SH

TECHNICAL SPECIFICATIONS

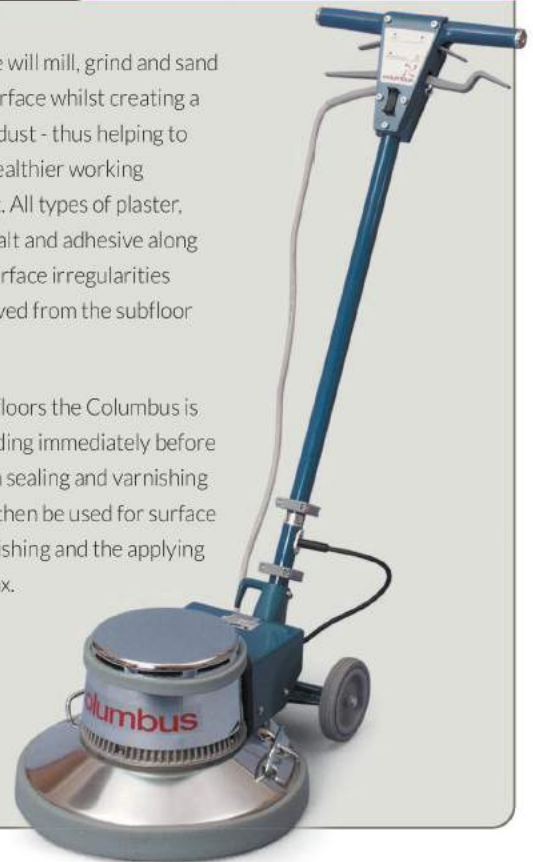

Power supply	230V or 110V
Motor power	1200 Watt (1.5HP)
Working width	Ø375mm (14 7/8")
Speed	140rpm
Weight	42kg (93lbs)

Mod. 135 SH

240V	112 455 000
120V	112 455 600

This machine will mill, grind and sand your floor surface whilst creating a minimum of dust - thus helping to maintain a healthier working environment. All types of plaster, screed, asphalt and adhesive along with small surface irregularities can be removed from the subfloor with ease.

On parquet floors the Columbus is ideal for sanding immediately before and between sealing and varnishing coats. It can then be used for surface cleaning, polishing and the applying of sealing wax.

Dust Extraction Ring

Vacuum not included

Dust extraction ring
113 700 000

Multi Vac III Dust Extraction Ring

Multi-Vac III can remain fixed to machine after installation.

113 722 000

Universal Plate

For accepting sandpaper discs, sanding gauze discs and abrasive pads.
For model 135/145/155

112 334 000

Universal Plate with Distance Ring

For accepting sandpaper discs, sanding gauze discs and abrasive pads.
For model 135/145/155

112 334 100

Many other discs available: Ring for full catalogue

Pot Brush Disc

For removing the metallic layer that builds up between anhydrite and magnesite screed materials. Also for the removal of residual foam backing, plaster splatter, residual paint coatings, adhered underlay, etc.

Ø375mm (14 7/8") Pot Brush

112 322 000

Replacement pot - 1 piece

112 321 003

Conical Stone Disc - 16 Grit

For grinding screed, hard plaster, asphalt and concrete. Good grinding rate due to high area edge width of hollow conical stones. Removes unevenness, soft spots, coatings and residual filling plaster.

Ø375mm (14 7/8") Stone Disc

112 346 000

Replacement stone - 1 piece

112 346 001

Diamond Disc with 5 Segments

With especially designed high quality diamond grinding segments to increase the capacity and efficiency of your Columbus Machine in terms of subfloor preparation.

Main uses:

Grinding of screed, removing sinter surfaces (anhydrite), adhesive residue, levelling compounds, thin coatings and painted surfaces.

Diamond Disc

112 381 000

Spare segment - 1 Piece

112 381 050

BUFFING & LEVELLING

Grinding Plate - Grit 20

With 6 rectangular grinding stones, replaceable 75 x 90mm (3 x 3 1/2")
For grinding of plaster and levelling compound, removal of residual paint and gypsum, smoothing of slight unevenness.
For model 145/155

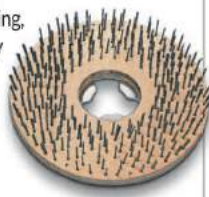

Grinding Plate
112 332 000

Spare Stone
161 515 003

Steel Brush

Wire length 45mm (1 3/4")
For removal of foam backing, adhered residual underlay and carpet backing for industrial floor cleaning.
For model 145/155

112 319 000

Grinding Plate Rubber

Thick rubber based plate for carrying sandpaper, gauzes etc.

Rubber Plate
112 306 000

Fit most levelling machines

Grinding Plate K 6

For residual adhesive/surface finishes.

Ø 400mm disc, with 25 grit inserts

Grinding Plate **112 388 000**

Spare inserts, 25 grit (6 pieces)

Spare inserts **112 388 025**

Sanding Plate S 16

with 16 diamond wings.

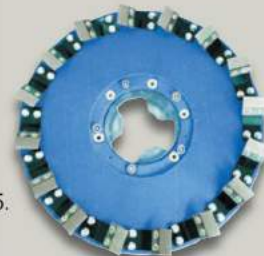

For removing and levelling of spackling compound and screed.

Ø 400 (15 1/4") Grit 25

Sanding Plate **112 389 000**

Spare diamond inserts 16pcs. Grit 25.

Spare inserts **112 389 025**

CLEANING MAINTENANCE PADS

25mm thick. Ø410mm

Pad BLACK

For fixing grinding gauze and cleaning old wax etc. and ceramics

Black

783 000 360

Pad BROWN

For removing stubborn dirt/stains from resilient flooring

Brown

783 000 370

Pad BLUE

For cleaning most surfaces.

Blue

783 000 380

Pad GREEN

For cleaning and polishing (medium) & wet cleaning of tiles.

Green

783 000 350

Pad RED

For cleaning and general maintenance.

Red

783 000 390

Pad WHITE

For polishing and oiling - high gloss.

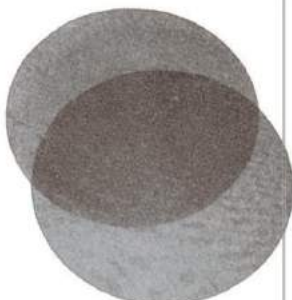

White

783 000 400

GRINDING GAUZE

Ø 410 (16 1/8") for model 135 / 145 / 155

Grit 60	783 000 045
Grit 80	783 000 047
Grit 100	783 000 050
Grit 120	783 000 055
Grit 150	783 000 057
Grit 180	783 000 060
Grit 220	783 000 062
Grit 320	783 000 064

SANDING MATS

Gr. 40 coarse - for sanding wood
Gr. 80 medium - for "between treatment" sanding
Gr. 280 fine - for cutting sealing floor surfaces

For Models 135 / 145 / 155

Grit 40	783 000 140
Grit 80	783 000 180
Grit 280	783 000 280

SPECIAL MAT (not illustrated)

For parquet intermediate sanding and for removing wax residue and oil.

783 000 022

BUFFING & LEVELLING

SANDING MACHINES & ACCESSORIES

Sandpaper, Double-sided

Disc Ø = 375mm 15"

For Columbus Machines

Double-sided diameter of the boring is 40mm

Grit 12	Coarse	112 309 000
Grit 16	Coarse	112 311 000

Grit 80	Fine	112 516 000
Grit 100	Fine	112 517 000
Grit 120	Fine	112 518 000

Disc Ø = 430mm 17"

For Non Columbus Machines

Grit 16	Coarse	112 611 000
Grit 24	Coarse	112 612 000
Grit 30	Medium	112 613 000
Grit 40	Medium	112 614 000
Grit 60	Medium	112 615 000
Grit 80	Fine	112 616 000
Grit 100	Fine	112 617 000
Grit 120	Fine	112 618 000

ABRASIVE DISCS (Double-sided)

A thin steel disc with randomly scattered red hardmetal fragments welded to the surface. For roughing the surface of anhydrite and screed. Also suitable for levelling off surfaces.

Disc Ø = 375mm 15"

For Columbus Machines

Grit 14	Coarse	112 308 000
Grit 24	Medium	112 308 024
Grit 36	Fine	112 308 036

Disc Ø = 400mm 16"

For Non Columbus Machines

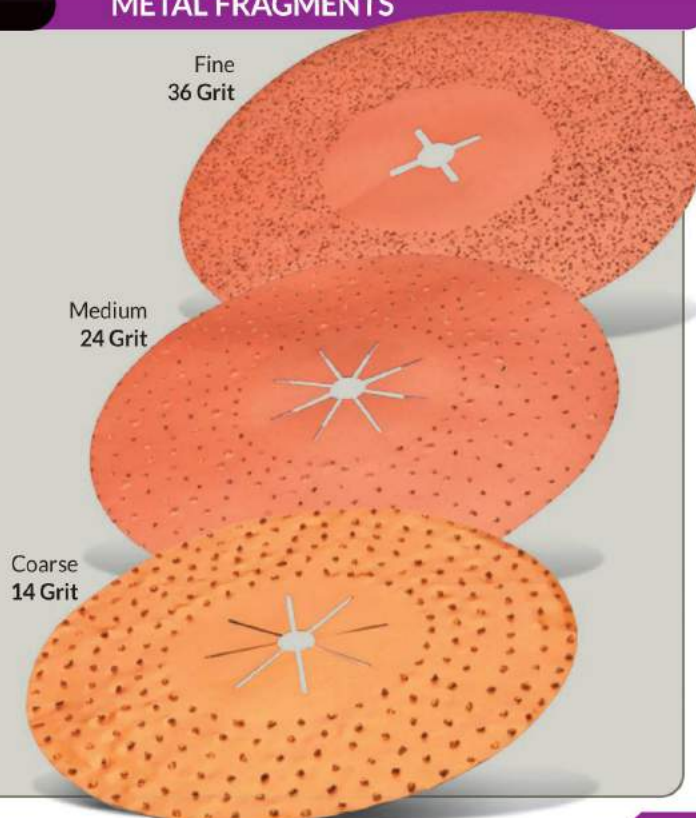

Grit 14	Coarse	112 520 000
Grit 24	Medium	112 520 024
Grit 36	Fine	112 520 036

Disc Ø = 430mm 17"

For Non Columbus Machines

Grit 14	Coarse	112 815 000
Grit 36	Fine	112 815 036

METAL FRAGMENTS

DUST EXTRACTION

COLUMBUS - 3 PLATE STARTER KIT

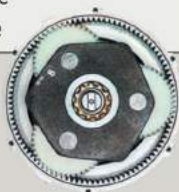

TECHNICAL SPECIFICATIONS

Power supply	230V or 110V
Motor power	1200 Watt (1.5HP)
Working width	Ø375mm (14 3/4")
Speed	140rpm
Weight	42kg (93lbs)

Start-up Kit comprising:

- Columbus machine
- Grinding plate
- 1 x Universal plate
- 1 x Abrasive plate

The 3-gear planetary transmission is designed to cope with the toughest tasks.

Mod. 135 SH - 1200W

240V Columbus Kit	112 455 800
120V Columbus Kit	112 455 900

Completely eliminates all unwanted material adhered to your subfloor!

This machine will mill, grind and sand your floor surface while creating a minimum of dust – thus helping to maintain a healthier working environment.

The robust design and construction of the Columbus ensures long life and good reliability.

By raising and lowering of the lever, the machine glides across the surface in semicircles. All types of plaster, screed, asphalt and adhesive along with small surface irregularities can be removed from the subfloor with ease.

With a wide range of working plate options to suit all types of floor surfaces, the machine is unsurpassed in saving you time and effort. Working plates, discs and brushes can be changed in seconds.

All Columbus-Models are delivered without grinding plate and without dust extractor.

Included in kit

Grinding Plate

Universal Plate

Abrasive Disc - Grit 14

COLUMBUS and JANVAC 1600 H KIT

This machine will mill, grind and sand your floor surface while creating a minimum of dust, helping to maintain a healthier working environment.

The strong design and well-built construction of the Columbus ensures long machine life and good reliability.

By raising and lowering the lever, the machine glides across the surface in semicircles. All types of plaster, screed, asphalt and adhesive along with small surface irregularities can be removed from the subfloor with ease.

The wide range of sanding plates make the Columbus suitable for all types of floor surfaces. The machine is unsurpassed in saving time and effort, with sanding plates, discs and brushes changeable in seconds.

The 3-gear planetary transmission is designed to cope with the toughest tasks.

Included with Model 135

Work in a nearly dust-free environment with the MULTI-VAC dust extractionring and JANVAC 1600 dust extractor.

Start-up Kit comprising:

- Columbus machine 135 SH
- JANVAC 1600 H
- Dust Extraction Ring
- Complete with hoses

Pictured is the Columbus with MULTI-VAC I dust extraction ring and JANVAC 1600-H dust extractor.

With the Dust Extraction System MULTI-VAC in combination with a strong vacuum cleaner like the JANVAC, grinding or sanding can be done in a nearly dust-free environment.

H is the highest category for dust removal.

120V KIT

112 456 000
112 456 900

DUST EXTRACTION

JANVAC 1600-H

Power Dust Extractor

Improved version of our successful model JANVAC 1600-H

Dust extractors are well suited for extracting sanding dust, cleaning building sites and vacuuming tools such as grinding machines and hand grinders. Advantages of all JANVAC models:

- self-cleaning Teflon-coated tube filter
- main filter BIA Dust category M
- micro filter BIA Dust category H14
- continuous high suction
- filter cleans itself during operation
- low noise level
- additional socket for machines with tracking and automatic power on
- trolley frame with large wheels

TECHNICAL SPECIFICATIONS

Power Supply:	120V or 240V
Motor Power:	1100Watt (1.5HP)
Working width:	425mm (1 1/2")
Weight:	15kg (33lbs)

STANDARD ACCESSORIES:

5 m grey suction hose Ø 38 mm (1 3/8")
rolling floor nozzle 45 cm (1 3/4")
suction pipe, suction nozzle for joints

JANVAC 1600-H

120V **115 095 500**

240V **115 095 000**

Dust Collection Bag, synthetic

115 095 260

IMPROVED features

- new 5 m elastic hose
- new 1450W motor with improved vacuum (3100 mm H₂O)
- Purging ring and adapter ring modified for better airflow
- reinforced HEPA filter attachment
- new bayonet coupling
- practical bag holder
- new synthetic collection bag
- Plug for boiler sealing

ACCESSORIES: there are a large range of accessories available, please see page 34 of our main catalogue.

JANVAC Separator

The new JANVAC Separator can be used in all environments where vacuum cleaners are at home.

Connected to a sanding machine, saw, portable machine or simply to the suction tube with floor suction nozzle, the JANVAC Separator increases the suction volume significantly.

High separation efficiency only allows the finest dust particles to be picked up by the dust extractor. You save time and protect the filters!

SPECIAL features

- tried and tested JANVAC quality
- can be used with or without dust bag
- standard connectors for JANVAC dust extractors
- cyclone separator integrated in machine
- your suction volume is significantly increased for longer service life of the dust extraction filters
- connects to all usual dust extractor models
- simple operation

TECHNICAL SPECIFICATIONS

Dimensions:	79 x 43 x 43cm (31 1/8 x 16 7/8 x 16 7/8")
Weight:	only 9kg (20lbs)
Inlet:	Ø 50mm (2")
Volume:	50L
Hose length:	3.5m (10') (including hose couplings)

INCLUDED IN DELIVERY:

1x hose 3.5 m (10') with hose couplings
1x dust bag 50 L incl. cable ties
1x cardboard tube
1x 90° connection adaptor
Earthing feature as standard

Separator showing use with JANVAC

Separator showing use with COLUMBUS and JANVAC

DUST EXTRACTION

JANVAC LP - Series

Single-phase industrial vacuum cleaners, suitable for safe operation in any environment or application where large quantities of dust to be vacuumed. H class filters in series and a fully automatic filter cleaning system, are key arguments.

The disposal of the vacuumed material is facilitated by the use of collection bags that, once sealed, prevent contamination of the work environment during disposal and provide additional safety for the health of the operator.

AUTOMATIC CLEANING OF FILTERS

The cleaning system guarantee constant suction, ensuring the cleanliness of the filters without any intervention from the operator and without interrupting operation as the filters are periodically cleaned by the vibrating action. These models have been designed to meet the requirements of continuous and extended vacuum cleaning, being particularly suitable when they are coupled with machines in operation.

The cleaning system allows an automatic filter cleaning without ever interrupting the vacuum cleaning process ensuring a constant and efficient suction power. Each of the fitted filters is periodically cleaned by the vibrating action.

FILTERING SYSTEM

The external part of the filter is made using conductive material, a property that allows discharge of the electrostatic current generated during vacuum cleaning. The internal part, thanks to the use of the HEPA filter, is able to filter 99.995% of dust with 0.3 µ particles, making the work environment safer and free of dust.

The filters are contained in stainless steel cylinders that serve as protection against sucked materials that might be corrosive or abrasive.

SPECIAL features

- HEPA filter with PTFE membrane
- Patented filter cleaning system
- Filter Cleaning during operation
- Robust metal frame with large wheels for easy transportation and best job site management
- Anti-static discharge set up

Unique (22m) continuous bag system.
Simply cut and seal - the next section is ready for use.
No delay or mess!

STANDARD ACCESSORIES:

- suction hose Ø 38 mm - 5 m (1 3/8" - 16' 5") complete with connectors
- rolling floor nozzle 45 cm (1' 5 3/4"),
- handpipe Ø 38 mm (1 3/8"),
- suction nozzle for joints,
- 1 x longopack 22 m (72')

JANVAC 340 LP

----------------	--------------------

FLEX HF 150P Contract Grinder

For accessing areas which are difficult to reach such as doorways and perimeters.

Suitable for removing:

- irregularities complete with dust extraction
- residual adhesive housing with diamond studded disc
- markings, especially epoxy with or without quartz content
- Laitance from anhydrite screed

Cover can be removed to ensure easy access to edges.

With suction port for dust extractors.

240V KIT **114 106 000**

Complete with case and dust extraction cover (extraction hose and sanding disc not included)

TECHNICAL SPECIFICATIONS

Power supply	240V
Motor power	2000 Watt (2.5HP)
Grinding plate	Ø125mm (4 7/8")
Speed	6500rpm
Weight without case	8kg (17.6lbs)
Weight with case	14kg (30.9lbs)

SPARE / OPTIONAL ACCESSORIES

Diamond Grinding Plate Raptor Ø 125mm (5")

Effective grinding with angled and self sharpening diamond segments. Removes tough coatings on concrete (acrylic resin paint, latex, epoxy resin, epoxy with sand, bitumen).

114 103 000

PCD Grinding Disc Randfix

This very aggressive PCD grinding disc with slightly protruding PCD inserts reaches right up to stop profiles, threshold profiles or walls.

Highly suited for coatings, bitumen, residues, spackling compounds and all other edge milling tasks.

114 101 300

PCD Head Disc

This new PCD head disc can be used with the HF-150 P (with clear plastic dust-cowl) as well as the HF-150 (with metal dust-cowl)

The height of both dust-cowls can be adjusted for best possible dust collection.

COLIBRI Grinding Machine

TECHNICAL SPECIFICATIONS

Mains Supply:	240v
Motor:	2200 watt
Working Width:	300mm
Speed:	2600rpm
Weight:	35kg
Extractor Connection:	50/76 mm

Colibri Grinding Machine **112 979 000**

SPECIAL features

- light machine, only 35kg
- high performance of 2600 rpm
- high torque of 43 Nm
- easy tool change
- high surface performance
- foldable
- competitively priced

Change of grinding discs with quick release closure, no risk of losing spanners

Dust guard for dust free operation

Water level for setting of grinding disc, ensuring even grinding performance on any surface

Double-folding handle for easy transport of machine 10 m special cable for large working radius

Accessories for Colibri

Additional weight 10kg

For increased pressure and additional grinding performance

10kg weight

112 979 900

GRINDING MACHINE - BS-330

1 machine - 2 applications as surface and edge grinding machine

The BS-330 is a robust grinding machine, which finds its application in both, surface and edge treatment.

The powerful motor generates enormous grinding performance on small and medium surfaces.

In addition, the machine can be converted without tools and in seconds to a perfectly matched edging machine.

The grinding head can be adjusted with a clever locking system in both directions. Thus, both the right and the left side of the machine, can be used for edge treatment, simplifying grinding work in the edge region enormously.

Our proven, high-quality diamond grinding tools can be used with this machine.

Machine supplied with Quick Change Base Plate - no grinding segments included - please see below segment options

TECHNICAL SPECIFICATIONS

Power supply	110V / 230 V
Motor power	1500 W (1.6 hp)

MASTER MOBIL II - 230V **111 801 000**
MASTER MOBIL II - 110V **111 801 500**

Impact Design - Lightweight - Great Manoeuvrability

The powerful motor combined with the revised HYDRAULIC-DIRECT-DRIVE system ensures high output with an extremely low noise level.

The MASTER-MOBIL II is self-propelled (forward and reverse) with unparalleled performance due to its high torque German designed electric motor.

Adjustable guide handle in six positions allows ergonomic operation depending on body size or preferred working position.

Weights can be easily removed for transportation, reducing the netweight of the machine.

Blade #101

Self-scoring blade for vinyl, carpet, linoleum, cork and other floors.

152 x 102 x 1.6mm (6 x 4 x 0.062")

111 800 101

Blade #102

Small for hard to remove surfaces eg. epoxy, parquet, tough coatings.

152 x 127 x 1.6mm (6 x 5 x 0.062")

111 700 102

Blade #103

Ultra high quality spring steel for long blade life between sharpening. Works for all glued down floors.

254 x 76 x 1.6mm (10 x 3 x 0.062")

111 800 103

Blade #104

Especially for linoleum.

152 x 102 x 1.6mm (6 x 4 x 0.062")

111 800 104

STRATO-MOBIL III

Angle of the handle is adjustable to six different positions in order to match the individual height of the operator or preferred working position.

Hydraulic driven turning handle control with adjustable comfort grips for easier operation. Increased power through modified hydraulic technology.

Adjustable blade holder which allows to adjust the angle of the blade according to the removal conditions in order to ensure best possible removal rates.

Proven benefits:

- Extremely quiet operation.
- Easy release side weights on the side of the machine to allow a perfect weight balance according to the job condition.
- Rounded front weight which ensures the removed materials slide away smoothly without impeding the machine's forward movement.

Net weight: approx. 115kg
Total weight: approx. 180kg

Pulling Claw

The original **SILVER CLAW**.
The only claw with a lifetime guarantee!

Distinguished by an attractive ergonomic design and made from an almost indestructible aluminium alloy, this pulling claw is an indispensable and unexpectedly powerful aid in the removal of glued down floor-coverings. Clamping action gives a vice-like grip on material to be moved. This device protects the fingertips and nails.

Silver Claw

COLLOMIX - Hand Held Mixers

Collomix® Mixing Technology

Collomix Xo-Series

The Xo machines are attractive to look at due to their revolutionary design. High quality components and materials ensure long-term safe use.

Particular advantages over previous models:

- improved ergonomic handles
- very stable and robust handle construction
- very long life carbon brushes
- significant noise reduction

All Xo-mixers are equipped with the HEXAFIX clutch.

Hand Mixer - Xo1 HF

Compact 1-speed machine for a wide range of mixing jobs with a capacity of up to 40 litres.

Very easy to use, featuring the very latest ergonomic design. Excellent gearbox ratio and electronic speed control.

TECHNICAL SPECIFICATIONS

Power Supply	230V
Motor Power	1010W
Gears	1
Speed	680rpm
Mixing volume	40 litres
Weight	5.3kg

STIRRING

SMART - STIRRING STATION

Uniquely adjustable and apply up to 100kg of screed in one operation!

Weight - 18.5kg

- Suitable for most stirring machines
- The solid front wheels in combination with the castor wheel allows ideal handling
- Unique 100L mixing capacity option
- Easily moved on site
- Robust construction for long life
- Manufactured to exacting standards by Janser
- **Delivered complete with 50L mixing bucket!**

SMART Stirring station

111 215 000

Quick screw for fixing the stirrer.

New! Reinforced lateral holder

Adjustable in height for optimising fixation of the bucket and depth adjustment of the stirrer.

Adjustable to hold 50 or 100 Litre bucket.

PROFESSIONAL STIRRING STATION

Mix and apply up to 75kg of screed in one operation!

The solid construction of the trolley base guarantees a stable and secure stirring. The handle is easily adjusted in height giving you the best possible working position. It can effortlessly be turned or even removed completely when you need to put a stirring station back in your car. The tripod is quickly and without difficulty attached to the edge of the barrel. Its robust construction makes it keep even the most powerful stirring machines steady.

Screed and Adhesive Upright Trowels

This complete upright trowel system allows for quick and efficient application of all types of screeds and adhesives.

iTOOLS upright screed and adhesive trowel kit is ergonomically adjustable, allowing for a correct working posture.

Advantages:

iTOOLS upright screed and adhesive trowel kit gives you the following advantages...

- Much faster spread of screeds and adhesives
- Ergonomically correct posture, facilitating the workload
- The unique, groove-free design of the blade holder makes it easier to clean
- It is possible to use the trowel while standing and without making "whirls"
- The tools are durable and will last many years due to high quality workmanship and materials

Why kneel when you can stand?

This system is seriously fast!

Adhesive fumes kept at a distance at arms length

TROWELS

VERSABLADE® Trowel System

Trowel Red Handle 682-TH

This plastic moulded handle has a 3.8cm (1 1/2") round red cushion grip with large ribs around the length of the grip.

Red Handle

682-TH

Comfortable solid rubber grip handle is made of easy to clean solvent resistant plastic. The handle securely fastens to the blade by simply aligning the slotted openings of the handle with the steel button projections of the blade and tapping trowel edges on the floor until tight and the front button is covered. To remove blade, simply tap trowel on opposite end.

Handles and Blades sold separately.

Trowel Open Handle 684-TH

Made of moulded aluminium and plastic, this sturdy open-end handle has the same feel of a fixed handle trowel.

U.S. Patent
7,694,380 B
8,151,404 B

Open Handle

684-TH

Trowel Blue Handle 683-TH

This plastic moulded handle is 3cm (1 1/4") wide with a flattened top and sides, has a smooth blue cushion grip and is excellent for use in toe space areas.

Blue Handle

683-TH

VERSABLADE® Trowel Blades

U.S. Patent
7,331,081 B2

Medium notch blade **FCA-1**

Fine notch blade **FFA-1**

Produced from premium quality full tempered bright polished spring steel for a long lasting edge. Blades are flexible and measure 11.5 x 29cm (4 1/2 x 11 1/2")

- Blades notched on all four sides
- Other notched profiles available.

Flat trowel for screeds **PC-1**

Deep notch blade **RCA-1**

HYGROMETERS & MOISTURE MEASURES

PROTIMETER - Mini Indicator

- General purpose moisture meter for building surveying, timber inspection and a range of other applications.
- Moisture probe 'cal check' and wood calibration table.
- LED display and carry case.
- Range 6 - 90% WME.
- Simple button operation.
- Colour coded scale shows moisture level at a glance Green/Dry - Yellow/Risk - Red/Wet.

Mini Protimeter DIGITAL

BLD 5702

Mini Protimeter

BLD 2000

PROTIMETER - Aquant Indicator

- Radio frequency measures relative moisture to nominal depth of 10-20mm.
- Non-destructive - no pins, no drilling.
- Ideal for checking concrete, plaster, masonry and fibreglass.
- Digital display that is synchronised with a colour coded LED scale Green/Dry - Yellow/Risk - Red/Wet.
- Simple to use, by holding against surface to be measured.
- Scale 0-1000 - Depth 10-20mm - Weight 150g.

Aquant 2

BLD 5765

PROTIMETER - Surveymaster

- Dual-function combining two pin inspection method (**measure mode**) for surface dampness with a non-destructive radio frequency technique (**search mode**) for below surface dampness.
- Range 70-999 relative (non invasive)
 DRY (GREEN) - 70-169
 AT RISK (YELLOW) - 170-199
 WET (RED) - 200-999
- Non Invasive reading to 19mm, with Pins to 12mm

Surveymaster

BLD 5365

PROTIMETER - HYGROMASTER 2

- Large LCD display at touch of button.
- RH, ambient & dewpoint temperature.
- Hygrosticks can be used to measure the equilibrium RH value in floors & walls.
- May be used as optional surface temperature probe.
- Supplied in case with one **HYGROSTICK**.

Hygromaster with Hygrostick

BLD 7750

Hygromaster with Quickstick

BLD 7751

Optional Accessories

Humidity Sleeves with caps

For use with MMS or Hygromaster - Measures equilibrium RH value (20 Per Packet).

Pack of Sleeves

BLD 4902

Humidity Box

Use with MMS or Hygromaster to measure surface %RH in solid floors. Insert hygrostick into side hole plug.

Humidity Box

BLD 4711

Hygrostick

- Replacement hygrostick for MMS/Hygromaster
- Range 30-100% RH

1 Stick

BLD 8750

Quickstick

- Replacement quickstick for MMS/Hygromaster
- Range 1-100% RH for air quality application

1 Stick

POL 8750

Certified Hygrostick

For MMS/Hygromaster with 3 point calibration certificate.

1 Certified Stick

BLD 4750B

HYGROMETERS & MOISTURE MEASURES

PROTIMETER - MMS2

The complete moisture measurement and diagnosis system for building environments. The very latest Protimeter technology in one 4 in 1 system - search, measure, humidity, surface temperature.

- Instant readings at push of button
- Continuously logs if left on site
- Diagnose the extent of moisture intrusion
- Monitor drying out
- Use deep-wall pin type probes to measure wall moisture, subfloor & surfaces
- Non-destructive and pinless radio frequency measures 19mm below surface
- Measure RH and temperature dewpoint and surface temperature
- Detects mould or fungus growth.

MMS2 Basic - to include:

- Quickstick Short **POL 8751**
- Heavy duty moisture probe **BLD 5060**
- Calcheck device **BLD 5086**
- Operator's instructions
- 9v battery & pouch

Basic Survey Kit

BLD 8800

PROTIMETER

MMS2 Survey Kit - to include:

- Quickstick Short **POL 8751**
- Hygostick **POL 4750**
- Hygostick extension lead **BLD 5802**
- Heavy duty moisture probe **BLD 5060**
- Deep wall probes 5" (127mm) **BLD 5020**
- Calcheck device **BLD 5086**
- Software & download cable **BLD 7758**
- Operator's instructions
- 9v battery & pouch

Complete Survey Kit

BLD 8800-S

Optional Accessories

Hygostick Extension Lead

- Optional extra Hygromaster
- Already supplied with MMS

Extension Lead 800mm

BLD 5802

Hammer Electrode

- Measures sub-surface moisture levels in wood
- Use with Mini MMS & Surveymaster

Hammer Electrode

BLD 5000

Deep Wall Probes

- Measure moisture at depth in walls

HYGROMETERS & MOISTURE METERS

Moisture Indicator - CAISSON V1-D1 (Aucon)

The installer's favourite instant readout meter
Features:

- Designed particularly for concrete, but can also be used on wood
- Non-destructive (no damage to surface or material) with measuring sensor located under the meter
- Immediate digital reading up to 3cm depth
- Complete with carrying case
- Battery operated - simply place on surface to measure

CAISSON V1-D1 with case

110 410 000

ClimaPilot

Digital hygrometer for measurement of relative humidity and ambient temperature with dewpoint indicator.

- Practical device for monitoring room climate
- Digital display with max/min values
- Switch between ambient temperature/dewpoint

ClimaPilot

CP-1

SPECIFICATIONS

Ambient temperature measuring range: 0°C...50°C
Accuracy: ±1°C
Relative air humidity: 20%rH...90%rH
Accuracy: ±5%rH (25%rH...85%rH)
Dewpoint temperature: -28.6°C...47.9°C
Accuracy: ±2°C

HYGROMETERS & MOISTURE MEASURES

Moisture Indicator VI-D4

Non-destructive method of accurately determining moisture content in concrete and cement without using pins.

Sensor type: spring pins, screen memory

7 available scales:

- Concrete (0-6% H₂O)
- Cement screed (0-6% H₂O)
- Cement screed (0-4% CM)
- Anhydrite screed (0-3.5% H₂O)
- Anhydrite screed (0-1.9% CM)
- Caisson scale (0.3-15.3m)
- Relative scale (0-100%)

The measured value can be called up by pressing the tester lightly

The test device works on the principle of capacitive stray field measurement and allows testing of the moisture conditions in the near-surface region.

Complete with carrying case

With DIN-7 connection for the use of sensors

Vi-D4

110 411 000

This method of moisture determination is both quick and easy without any need to drill holes or leave damage. Using a pinless moisture meter is becoming the industry standard due to the ease of use over the older style moisture meters using pins.

With the VI-D4 pinless moisture meter, the sensor are positioned on the back of the moisture meter, allowing the user to use the device to measure moisture in very tight spaces and also being able to view the LCD display at all times.

Accessories

For connection to V1-D4 with DIN-7 plug
compatible with GANN (UNI 2, HB 30, RTU 600)

Air Sensor RFT-38C

For the determination of temperature and humidity

Air sensor

110 411 500

Bullet Probe B-60

For the non-destructive detection of building moisture

Bullet probe

110 411 600

Hydromette Compact -BL-

Electronic moisture meter used for different kinds of wood as well as for soft building materials and insulating materials.

The pins are pressed into the respective material and enable a precise measurement of the moisture content in sawn timber, chipboard, veneer and fibreboard materials up to a maximum thickness of 25 mm as well as normal gypsum or mixed plasters. After measurement the minimum and maximum values can be accessed in the memory storage depending on the building material.

Measuring range

Wood: 6 - 25 % moisture content

Building materials: 0.4 - 6.0 % of dry weight

Fully equipped with battery, extra pins, protective cap and plastic box.

Hydromette -BL-

110 223 000

Hydromette Compact B2 -BL

Electronic building moisture indicator using the high-frequency (dielectric constant) measuring principle.

Features 3-line LCD and versatile ball sensor for the non-destructive detection of moisture in all types of building materials. Also suitable for checking the dispersion of moisture in walls, ceilings and floors. An ideal pre-tester for use with all CM devices.

Measuring range

0 to 199,9 digits (scanning range)

0,3 to 6,0% by weight

0,3 to 4,0 CM%

fully equipped with battery and plastic box

Hygrometer B2-BL

110 270 600

TRAMEX Flooring Inspection EZ Kit

A compact kit for instant and precise moisture testing of concrete and wood flooring. The Tramex CMEX II digital moisture meter allows the user to non-invasively test concrete per ASTM F2659, and the Hygro-i2 Relative Humidity probe for testing relative humidity, temperature and dew point in the environment, or performing BS 5201, 8203, 5325 & ASTM F2170. The Tramex heavy-duty wood pin-probe measures the moisture content of wood. The Flooring Inspection EZ Kit comes in a Tramex Easy-travel case.

FEATURES:

- Instant concrete moisture content test from 0 - 6.9% with CMEX II to ASTM F2659.
- Fastest, most reliable, Hygro-i2 @ RH probe for testing to BS 8201, 8203, 5325 & ASTM F2170.
- Perform multiple tests simultaneously.
- Re-usable Hygro-i2 @ Relative Humidity probes prove to be the lowest cost per BS 8201 & ASTM F2170.
- Test ambient site conditions of Temperature, RH, Dew Point & Mixing Ratio.
- Backlit display for ease of reading in low level lighting.

Warranty:

All Tramex products are built with highest quality components, calibrated by hand, to exceed best industry standard and to give the user many years of service.

We supply a full one year guarantee against defects in parts & workmanship.

Kit Includes -

- CMEX II Concrete Meter
- Hygro-i2 Relative Humidity Probe
- Hole Liners x 6
- Pin Probe for wood

Tramex Flooring Inspection Kit

MULTI-PURPOSE CUTTERS

PERFECT CUTTER

Speciality installation tool that enables perfect edge-cutting of floor coverings.

Perfect cutter including 10 hooked and straight snap-off blades

Perfect cutter
262 020 900

H.D. blades 10 pieces 262 020 100
Hook blades 10 pieces 262 023 100

- Cuts perfectly around curves, posts and irregular walls
- Works great on carpet, vinyl and sisal
- Special installation tool that ensures the perfect edge cutting of floor covering
- Trims flush along walls • Unique design allows for a comfortable firm grip, added pressure and better control, which makes the cutter safer to use
- Easily adjusts for various pile heights • Cuts with less effort because it cuts on a radius • Material being trimmed does not need to be creased • Smooth plastic base easily glides along wall • Durable steel construction • Uses snap-off blades
- Ten straight blades and ten hook blades included.

Base Edge Trimmer - ARASEUR

Trims most floor coverings.

- 60 years of experience in making hot-air tools – brought together in the new TRIAC ST
- The sturdy, professional hot-air tool that weighs less than 1kg/ 2.18lbs
- Functional design: two-component handle grip and optimum centre of gravity ensure ergonomic working
- Quick clean air filters
- Automatic carbon stop (collector protection) and heating element protection

TRIAC ST - Weld Gun

Includes:

- Weld gun
- Standard nozzle
- Carry case

230V Weld Gun

224 828 000

120V Weld Gun

224 828 800

TRIAC ST - Welding Kit (9 items)

Includes:

- Weld gun
- Grooving tool
- Standard adaptor
- Speed-nozzle
- Roller
- Spatula
- Spatula guide/sledge
- Wire cleaning brush
- Plastic case

230V Welding Kit

Automatic Drive Unit - MINIFLOOR

the new automatic welder for resilient floor coverings

The drive machine with integrated holder for your existing welding gun is the smart choice for floor professionals and beginners.

No tools needed to assemble detector.

Ideal for short joints or smaller and medium-sized projects.

Note: Adapter for TRIAC S required.

TECHNICAL SPECIFICATIONS

Power supply	230V or 110V
Driving speed	0.5 - 5 m/min
Dimensions (LxWxH)	310 x 225 x 245mm
Weight	5.3kg

**WELD GUN
NOT INCLUDED**

WELD NOZZLES

Standard Nozzle

224 800 002

Speed Nozzle

4.5mm welding rod.

224 700 100

5 mm Ultra Nozzle

With rounded nose for coves.

224 800 013

Gerflor Speed Nozzle

5mm. Directs airflow directly onto seam preventing scorching. Anti glaze.

224 800 007

Cove Cap Nozzle

5mm Speed Nozzle.

Cove cap nozzle
224 800 006

Standard Nozzle Hot Jet

Hot Jet S - 5mm

224 815 003

Speed Nozzle - Lino

4mm (5/16") welding rod.

224 700 200

Speed Nozzle CA 7mm

7mm nozzle for triangular weld rod.

224 810 026

Special Speed Nozzle

For wall coverings.

224 700 300

Bent Welding Nozzle Tip

150mm (5 7/8") Angled.

Bent welding nozzle tip
224 810 008

Swan-neck Type 1

For pressing cord into edges and internal corner joints.

224 810 040

Swan-neck Type 2

For pressing cord into edges and internal corner joints.

224 810 060

Wide-slot - 20mm

20mm (3/4") For PVC canvas & covers.

224 800 003

Wide-slot - 40mm

40mm (1 1/2") For overlay welding.

224 800 005

FIN Nozzle

The FIN nozzle has to be put onto the adapter. Hot air blows out of the two holes for easy welding in corners and curves.

224 810 050

Hot Air Shaper

For cutting grooves into safety and lino flooring.

224 810 080

Speed Nozzle - 6mm

For sports floors, repair work etc.

224 800 009

Hot Air Shaper

Grooves lino & elastic flooring

"P-Type" blade

224 810 020

Cleaning Brushes

224 800 009

224 400 011

Bullet Finishing/Smoothing Tips

Teflon - easy clean

These "Bullet Tip" finishing nozzles attach to the standard nozzle and are great for smoothing out welds, to give the perfect finish!

They feature a Teflon coated tip so easy to clean in use/ after use.

3-piece set - sizes: 1/2" 3/4" 5/8"

WDD 660T

ROLLERS

Corner Roller

262 615 000

Ø 20mm (¾") top quality,
fitted with brass wheel.

Pressure Roller

224 400 121

Ø 32 x 17mm (1 ¼" x ⅙")
For overlaps up to 20mm (¾")

Silicon Roller

224 400 122

Ø 32 x 40mm (1 ½" x 2")
For overlaps up to 40mm (1 ½")

Teflon - Roller for Lino

225 810 004

Brass Ball - 13mm (½")

224 816 000

For pressing into internal curves
and round joints.

Brass ball - 19mm (¾")

224 817 000

For pressing into internal curves
and round joints.

JANSER Multi-roller

With 4 hard rubber rollers.

JANSER Multi-roller

237 103 000

Steel Roller

224 400 125

Ø 30 x 50mm (1 ¼" x ⅙")
For overlaps up to 45mm (1 ¾")

Pressure Roller

224 400 400

Ball bearing galvanised.
40mm (1 ½")

Pressure Roller

224 400 600

Ball bearing galvanised.
60mm (2 ⅞")

Pressure Roller

262 614 000

For external angles.

Pressure Roller

224 400 123

For inner angles.

Pressure Roller PUR

225 810 200

For the heat welding of
Polyurethane (PU)
coated PVC Floors.

The PUR Pressure
Roller is simply
attached to the
ULTRA Speed Nozzle.

Guarantees solid seam
and no damage to the
PU coating.

SEAM & TILE ROLLERS

Great alongside skirtings.

Widely used for sheet vinyl work, "rolling in"
resilient tile cuts. Useful on all floor and
counter top work.

- Polished steel 50mm wide,
- Comfortable wooden handle.
- Length 11 ½". Great for two handed work.
- Weight 2 lbs.

Steel Roller

1-L

ROUND OUTSIDE EDGE
For overlaps up to 50mm (2")

Steel Roller

3-L

ROUND INSIDE EDGE
For overlaps up to 50mm (2")

Steel Roller

4-L

BOTH SQUARE EDGES
For overlaps up to 50mm (2")

Multi-Roller

With 2 narrow steel rollers

237 104 000

Wall Hand Roller

- Good for stair treads, coving
work & corner fitting.
- No axle projections.
- 5" roller width

222 AR

V300 PRESSURE ROLLER

- Pressure Roller provides
40+PSI non-marking.
- No axle projection
on one end for
flush work.

V300

Long Handle Telescopic Floor Roller

Stand-up
version of popular
wall/floor roller

- 880mm length as standard
- 1480mm when fully extended,
- Useful lightweight roller
for vinyls/LVT
- Easy to transport and
store on van!

262 403 100

ROLLERS / PRESSING TOOLS

Cork Press

Non-marking for pvc & lino

320 x 120 x 25mm (11 3/4" x 4 3/4" x 1")

With rounded corners **262 380 000**

Cork Press

Non-marking for pvc & lino

300 x 137 x 25/40mm (11 3/4" x 5 3/8" x 1 1/2")

With wooden handle **262 381 000**

Pressing Hammer

For smoothing down joins

Pressing hammer **262 378 000**

Stair Tool with Roller

Suitable for various pressure applications.

237 543 000

Triple-Flex-Roller

150mm wide ergonomic, hand roller with "pressure-flex" rollers for even pressure distribution - for vinyls/rubber/lvt

Triple Flex 150

262 396 000

Triple Flex 300

262 397 000

Carpet Presser

Made from beech wood

Working width - 40cm (1' 5 3/4")

Weight approx. - 1.8kg (3.97lbs)

Handle length - 150cm (5' 9")

Squeeze roller **262 406 600**

GLIDA - Dual Purpose

TECHNICAL SPECIFICATIONS

Weight approx. 10kg (22lbs)

Handle length 120cm (3' 11 3/4")

Pressing width 38cm (1' 3")

For use on resilient flooring simply cover roller with carpet.

Tighten carpet by turning wing nuts.

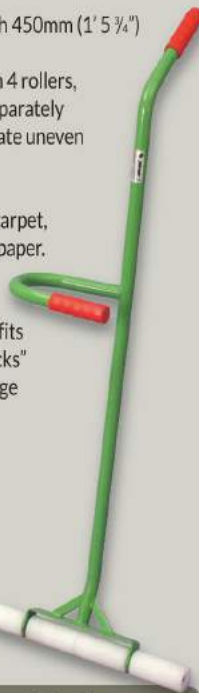

GLIDA

262 406 000

Lightweight Roller

- Working width 450mm (1' 5 3/4")
- Designed with 4 rollers, which float separately to accommodate uneven floors.
- Works on all carpet, vinyl and wallpaper.
- Easy to carry, fits under "toe-kicks" without damage to cabinets.

Lightweight roller

262 401 000

Sand Bag (empty)

size: 47 x 19cm (1' 6 1/2" x 7 1/2")

Empty sand bag **262 405 000**

PRESSURE ROLLER

30Kg (66lbs)

TECHNICAL SPECIFICATIONS

3 Parts
Weight 30kg (66lbs)
Roll Ø 120mm (4 3/4")
Total width 310cm (12 1/4")

262 390 000

50Kg (110lbs)

TECHNICAL SPECIFICATIONS

4 Parts
Weight 50kg (110lbs)
Roll Ø 120mm (4 3/4")
Total width 510cm (20")

262 391 000

80Kg (176lbs)

TECHNICAL SPECIFICATIONS

4 Parts
Weight ca. 80kg
Roll Ø 160mm (4 3/4")
Total width 510cm (20")

262 400 000

Transport Wheels

for 50kg (110lbs)

262 395 000

With detachable handle and galvanised rollers complete with protector caps*

(*only Pressure Rollers 30Kg)

TRIMMING TOOLS

MOZART VINYL TRIMMER

- integrated pre-cut slide
- swing out slide for pre-cut
- flexible blade glides over surface
- trims perfectly flat - no surface damage

Mozart trimmer

262 636 000

Spare blades - 5 pieces

262 636 100

Distance Bracket 0.5mm

262 636 200

Distance Bracket 0.7mm

262 636 300

Leather Pouch for Mozart

262 636 400

Trimming Tool

For coverings with studs.

Trimming tool

262 609 100

Trimming Tool - Slim

- Ideal for confined areas.
- Blade can be swivelled to horizontal position.

Trimming tool slim

262 609 300

Spare blade - 1 piece

262 609 310

Spatula Quarter Moon Knife

Trims excess weld rod. Finest Solingen Steel riveted handle.

262 621 000

Spatula Quarter Moon Knife - Angled

Trims excess weld rod. With angled blade which affords finger clearance enabling blade to run perfectly flush with material, preventing damage to sheet. Finest Solingen Steel riveted handle.

262 623 000

Spatula Guide (Sledge)

Use to trim weld, combined with spatula.

262 625 000

Leather Spatula Pouch

Essential for safety

262 624 000

Seam Plane

With adjustable blade

Trim excess weld rod with ease and accuracy in one operation with this double cutting tool.

Two slightly offset blades - The first trims the seam, the second trims perfectly flush!

Complete with 2 HSS-Blades

262 626 000

Spare blades - 2 (pair)

262 627 000

Trimming Tool RDP

For trimming welding cord in roundings, outside corners as well as for cove-base jobs.

The special blade ensures that the floor covering won't be damaged.

With 2 spare blades

262 635 000

Spare blades - 5 pieces

262 635 100

EXACTO

To trim rods alongside skirtings or cove cap skirting.

Tool

Plastic handle without blade

262 610 009

Pack

2 x E1, E2, E3 and E4 + 1 x Tool

262 610 005

Exacto Tool - Metal

262 610 000

With metal handle and E1 blade. For trimming welded seams on internal & external corners. see spare blades below, 2 per pack

6mm Blade	E1	262 610 001
12mm Blade	E2	262 610 002
Diamond Blade	E3	262 610 003
Stirrup Blade	E4	262 610 004
Mixed Blades (8 pieces)	E8	262 610 008

TRIMMING TOOLS

Hot-Tip Equipment

Splice, Trim, Smooth & Repair

Hot metal tool 120V **WDD 715**

Replacement green teflon blade 1/16" wide
WDD 715R

Replacement green teflon blade for outside corners
WDD 7150C

- Great when installing cove base in corners
- Trim inside corner welds
- Cut coving weld grooves
- Trim coving weld rod flush

Locking nuts complete with blades

WDD 984D

WDD 984C

WDD 984E

WDD 984F

Bevelling Master

- Precise edges in no time 45° bevel on all types of material.
- Bevelling and cutting without interim assembly.
- Easy blade and adjustment change.

complete with 10 blades

262 244 700

Spare blades - 100 pieces

262 110 000

Edge Strip Master

Cut material in situ.

Especially designed for length cuts of large design sheets and tiles in order to fit them nearly flush to the wall.

Fast adjustment 1.8cm-34cm

Can be transformed quickly into a strip cutter for cutting skirting strips accurately.

complete with 20 blades

262 244 500

Spare blades - 100 pieces

262 035 500

PVC Edge Trimmer

For achieving a 25 degree mitre at PVC tile edges and design coverings after cutting.

complete with 6 spare blades

659 100 000

Spare blades - 6 pieces

262 262 001

Lino Edge Trimmer

For pre-cutting factory edges of linoleum

Standard - 12mm cut **262 415 000**

Special - 25mm cut **262 415 500**

Spare blades - 5 pieces **262 415 001**

SEAM CUTTER - Vinyl / LVT

Precise cutting of plastic floor coverings LVT, needle felt etc, providing seamless join. Cutting depth up to 10mm. Possible to cut two layers at once with 2 mounted blades to form a perfect match.

Seam cutter + 10 blades **262 101 000**

Spare blades x 100 pieces **262 110 000**

LINOCUTTER

- Cutting depth and cutting width are infinitely adjustable
- Straight blades for scribing and hook blades for cutting of thin coverings
- Works with standard blade which saves a lot of cost and pays for the tool over time

Linocutter

262 412 500

LINOCUT

Seam-Cutter for PVC, linoleum and needle punch

- Blade adjustment
- For use in both directions
- Cuts from wall to wall
- Cuts the top sheet

Linocut **262 412 000**

Spare blades 57 E - 10 pieces **262 021 000**

Lino and PVC Strip Cutters

For strip widths 0-11cm

262 246 500

For strip widths 3-20cm (1 1/16 - 8")

262 246 000

For strip widths 6-30cm (2 3/8 - 12")

262 247 300

Spares

Spare blades, large and small 5 pairs

262 247 100

Spare Web

Reversion set for blades

262 247 300

LAYING AIDS for VINYL, PVC & LVT materials

INSTALLATION KIT - for LVT design flooring

STARTER KIT

- 26" Stanley tool box
- 8m Tape
- PVC Edge Trimmer
- Chalkline
- 8oz Blue chalk
- 21cm Thriftline trowel c/w A2 blade
- Combi-Scriber Short
- Mitre Shear
- 18" Janser Handscraper
- Multi-roller
- Green knife
- HD Green Box blades (100)
- Concave Green Box blades (100)

All you need for the installation of design flooring in one great kit

LVT Installation kit

HS-VK-3

Wall Corner Template

For precise cutting of inside and outside corners of PVC or linoleum installations. Ensures a perfect result on corners and edges of cove base.

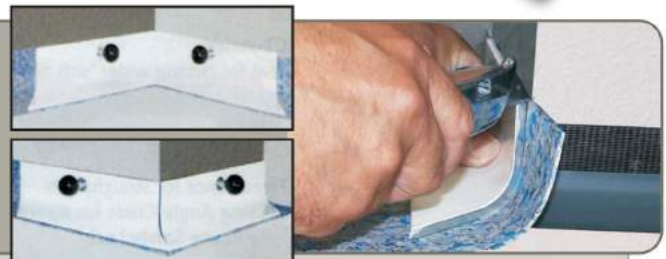

Comes with left & right side template.

For 100mm (4") cove base height

262 148 000

For 60mm (2 3/8") cove base height

262 147 000

Wall Profile & Mitre Templates

Templates for wall profiles

25mm (1") Radius 262 144 000

50mm (2") Radius 262 145 000

Mitre-Template 45°/90°

For 60mm (2 3/8") cove base height

262 146 000

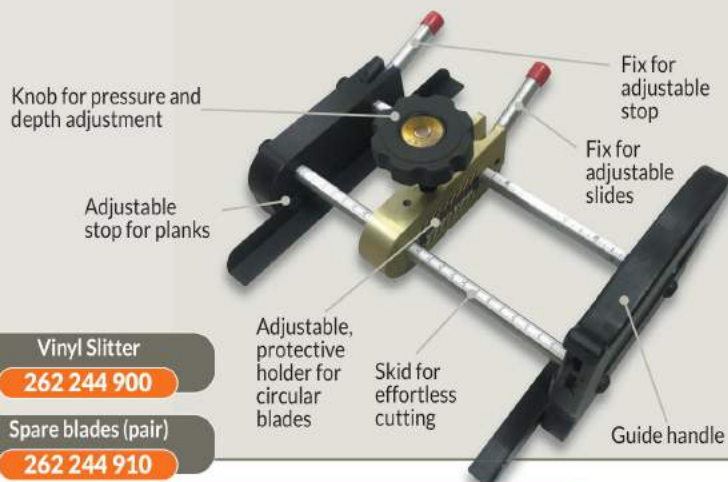

VINYL SLITTER

Cuts strips fast, precisely and safely! Perfect for LVT strips !

LVT planks and tiles can be cut quickly, effortlessly and precisely for use as skirting strips or border work up to 20cm wide.

The movable second fence offers increased precision when cutting planks.

The circular blade can be adjusted in height and fully retracted for protection.

Vinyl Slitter

262 244 900

Spare blades (pair)

262 244 910

LVT HOLE CUTTER

Ideal hand tool to cut lvt for fitting around pipes etc. (4mm to 20mm depth range)

Lvt hole cutter

262 244 200

- Waterproof - long lasting
- No shrinking or peaking at seam joints
- Virtually invisible
- 2 year shelf life

TYPE A

For welding of tight cut PVC seams (Double-cut).

The incorporated metal pin enables the penetration of the welding liquid into the depth of the seam so that the entire seam is welded together.

Contents - Display Box

44g for approx. 20m of seam Box 30.
132g for approx. 49m of seam Box 12.

Tube with 44g
262 650 000

Tube with 132g
262 672 000

Application Bottle

For tight seams on new material

With nozzle Type A
262 659 000

Seal Liquid

For Nozzle Type A

1 Litre
262 662 000

TYPE C

For the welding of PVC-Wall-Coverings or Seam gaps of up to 4mm (repair).

Cover Base and for PVC flooring with seam gaps of up to 4mm (repair).

Contents - Display Box

44g for approx. 15m of seam Box 30.
132g for approx. 45m of seam Box 12.

Tube with 44g
262 651 000

Tube with 132g
262 673 000

Application Bottle

For repair work

With nozzle Type C
262 660 000

Seal Paste

For Nozzle Type C

1 Litre
262 666 000

TYPE T

Tube Type T: PVC Cold Welding Paste

Cold welding formula for long lasting and waterproof seam sealing.

PVC flooring with a polyester-fleece underlay.

- During the process of cold welding, the difference of height between seam borders is levelled out

- Can be guided easily in the seam

- The underlay prevents the product from being soaked up too easily and guarantees optimal sealing

Tube with 44g
262 671 100

Cleaning Bottle

for nozzle type A

262 670 000

Special Masking Tape

30mm x 50m

30mm x 50m (pack of 4 rolls)

262 690 000

PROVINOL Seam Cutter

The perfect seam tool for CV, PVC, rubber, linoleum and felt coverings! Edge cutter, seam cutter, scribe and strip cutter all in one tool. Simple, clean and rapid cutting of production edges, cutting of a seam, double cut or cutting of tarsia strips of 2-27mm.

- Great for double cutting
- Infinitely variable cutting depth
- Variable cutting width
- High quality special blade in Ø 26 and 40mm

Provinol Seam Cutter **642 050 000**
Blades Ø 26mm - x 2 **662 052 600**
Blades Ø 40mm - x 2 **662 054 000**

COLD WELD KITS

THREE STEPS-BOX

Successful sealing of PVC coverings in three steps.

Contents:

- Flipper-knife (ipc with box)
- Straight H/D blades (20 pcs, in dispenser)
- Hooked blades (20 pcs, in dispenser)
- Wallpaper and textile cutter (1 pc)
- Spare blades, circular (5 pcs)
- Seam roller (wide, 1 pc)
- Adhesive tape (1 roll, 30mm x 50m (1 1/8" x 55 yds))
- Cold Weld Type A 1 tube, 44g (50ml)
- Cold Weld Type C 1 tube, 44g (50ml)
- PVC Paste Type C 1 tube, 132g (150ml)

Three steps box **262 653 000**

SCRIBERS

Short Scriber 401 Brass

Scribing tools for hard flooring

Brass. For scribing when covering steps with nosing, maximum working range 56mm, for material thicknesses up to 8mm, overall length 100mm.

Short scriber **401**
Spare needles - 25 pieces **262 132 002**

Scriber with wooden handle Brass

Handle can be attached in three positions for horizontal and vertical scribing.

Same version as No. 401, but with three-way attaching 105mm long wooden handle, screws on both horizontally and vertically. Overall length, including horizontally screwed-on wooden handle 225mm.

Short scriber **262 156 000**
Spare pins - 25 pieces **262 132 002**

Short Recess Scriber Brass

Reverse scribes for hard flooring

Same version as No. 401, but with curved guide, overall length 110mm.

Reverse scriber **262 127 000**
Spare needles - 25 pieces **262 132 002**

Seam Scriber with Handle

Seam scriber with handle **262 125 000**
Spare pins - 20 pieces **262 126 000**

Double Scriber

Especially for laying PVC stair edges.

Double scriber **262 128 000**
Spare pins - 20 pieces **262 126 000**

Seam Scriber - Standard

Pins or blades can be used with this scriber.

Seam scriber - standard **262 139 900**
Pins & Blades - 5 of each **262 139 901**

Short Seam Scriber (Armstrong)

Armstrong seam scriber **262 135 000**
Spare pins - 5 pieces **262 126 002**

Stair Scriber

For marking the rear edge.

Stair scriber **262 129 000**
Spare pins - 20 pieces **262 132 002**

Wall Scriber

With the use of a pencil, it enables you to trace along the wall. Ideal to lay PVC or linolium skirtings or finishing strips.

Length: 21cm
Max height: 20cm

Wall scriber **222 430 000**

COMBINATION & BAR SCRIBERS

Combination Bar Scriber - Cutting Scriber

Long version with adjustable cutter blades holder.

Combination bar scriber **262 132 000**
Spare blades - 6 pieces **262 132 001**
Spare needles - 25 pieces **262 132 002**

Combi Scriber - Short

Turning lower guide rail allows use as standard or recess scriber. Range of 385mm. Wheel passed over wall contour transfers to floor covering to depth of 410mm.

Combi scriber - short **262 130 000**
Spare blades - 5 pieces **262 415 001**
Spare needles - 20 pieces **262 126 000**

Seam & Threshold Scriber

Handy seam scriber for seam and threshold work.

Seam & Threshold Scriber **262 124 000**

Spare Pins (20) **262 126 000**

PICA Green Pen

With replaceable speciality leads, marks and writes on all surfaces. Also suitable for dusty, raw, oily, wet and dark surfaces

Green Pen **262 485 000**
Spare refills kit with 10 graphite leads **262 485 100**

Spare refills kit with 8 special leads
4 x graphite leads
2 x coloured leads, red
2 x coloured leads, yellow

Spare refills kit **262 485 200**

Wall Line Scriber

For transferring the wall line onto the flooring. Distance from the wall can be set from 2 - 35cm.

Wall line scriber **262 139 000**
Spare pins - 20 pieces **262 137 000**

AIRWAY Scribers

These tools feature the original famous Airway quality design and construction - a heavy die cast housing, with a sturdy precision fitting plated steel bar.

The No. 11A Scriber has an extra needle hole in the housing to circle scribing and inlaying feature strips in a solid field. (Takes 21-N scriber needles)

6" Airway bar scriber **111-A**

8" Airway bar scriber **11-A**

PERFECT BUTT™

Includes:

- 1 x Pencil
- 1 x Body
- 1 x 29mm Ø Wheel
- 1 x 50mm Ø Wheel
- 1 x 70mm Ø Wheel
- 1 x 90mm Ø Wheel

The World's fastest professional worktop scribe tool. It completes traditional scribing chores with precision, speed and ease.

- Quick and easy to use by remaining stable whilst scribing directly onto work-surfaces, flooring, shelves etc
- It works by running a wheeled scribe unit along an irregular feature
- The sprung pencil in its centre will accurately copy the profile directly onto the work-piece to be installed
- It can then be cut and fitted to the surface resulting in a perfect butt!
- Four sizes of quick fit track wheels to cope with a variety of situations

Design Reg. 3014605

PB1

MULTISCRIBE

The Multiscribe is a profile matching tool used to transfer contours from one shape to another and mark on to various materials.

- 15 functions including parallel scribe, convex scribe, contour profile scribing and line block
- Multi-function tool for a variety of marking out applications
- For use by all trades, carpenters, joiners, builders etc
- Built in spirit level and pencil sharpener
- Steel blade with 5mm & 1/4" graduations for profiling

COMPASS

The drawing of circles with various diameters

PROFILE SCRIBE

The drawing of an equidistant line parallel to a chosen edge

45° MITRE

Makes a 45° to a given straight or flat surface

Patent No. GB2380164
Design Reg. 3021163

Multiscribe Professional

262 131 000

EASI-SCRIBE

Scribe flooring easily with flat base.

Easi-Scribe

ES 1

- Scribes architraves, skirtings, doors, panels etc
- Easy one hand adjustment 1 - 40mm
- 0.5 guide plate with up to 50mm projection
- Runs parallel line along material
- Flat base ensures consistent scribe

DIVIDERS

Dividers - Straight Legs

200mm. Available with or without pencil holder

8"/200mm with straight legs

262 152 000

Dividers - Bent Leg Section

150mm. Forged polished steel with one point slightly curved.

150mm with bent leg section

262 150 000

Dividers - 4"

Fits in palm of user's hand, fixed bent leg and removable straight leg for pencil scribing.

4" Dividers

382

FLOOR TILE CUTTERS

H76 ALL PURPOSE TILE CUTTERS - 12"

Cuts clean edges on all types of resilient floor tile - even solid vinyl tile, a material too tough for the other cutters. Also cuts asphalt (without preheating), vinyl composition, rubber, cork, linoleum, felt-backed vinyl, marble translucent vinyl and marble chip epoxy tiles. Expertly designed to give the trade the fastest, most convenient and the most durable cutter available.

Tile cutter with castors

H76

TECHNICAL SPECIFICATIONS

Capacity	¾" thick, 12 ¼" wide
Weight	20lbs with castors & gauge
Overall size	18" w x 18 ½" l x 8" h
Construction	Steel & Aluminium alloy castings

REPLACEMENT PARTS

Upper blade	H-76-3
Lower blade	H-76-4
Castors (x3) + screws	H-76-5
Adjustable gauge	H-76-6

comes with 1 guage

1 Lock nuts hold the thumb screws in position thereby preventing annoying and time consuming changes in the shear angle adjustment.

2 Tough tool steel blades, precision ground, specially heat treated and razor sharp - hand honed for best available cutting performance. Easily replaceable after years of service.

3 Upper blade holding bar adjusts quickly to the proper shear angle and depth of cut for the various types of tiles. Easy to follow instructions packed with each cutter.

4 Only a minimum amount of motion required to operate this spring returned handle. Cutting line stays in full view.

5 Hand carrying hole is shaped and positioned for better balance and more comfort than other brands.

6 Precision diecast gauge for accurate 45 degree and 90 degree cuts. Can be adjusted in only seconds to the desired setting. Notch at rear acts as a wrench for the shear angle thumb screw lock nuts - another convenient exclusive Gundlach feature.

7 Longer table features both an inch and a metric scale. Gauge can be set for all sizes of lateral cuts - from maximum to absolute minimum.

8 Located within each upright housing are graphite treated steel (not soft die cast metal) slide bearings. They provide for minimum wear and positive retention of blade alignment for easier and cleaner cutting of tough to cut solid vinyl tiles.

9 3 1" ball type castors are optionally available for smooth and easy moving on the job. Castors leave no marks and move instantly in any direction. Without castors the tile cutter rests on 3 raised and beveled spots that eliminate bumping and chipping of uneven tiles.

10 Exclusive offset table design permits holding the tile throughout the entire cutting operation. Eliminates time loss and aggravation from picking up cut tile from a flat table with worn fingernails.

H24 TILE CUTTER - 24"

Makes precise cuts on large tiles with ease.

- Eliminates time consuming utility knife cuts and gives a perfectly straight and square edge.
- Use on rubber, vinyl composition or solid vinyl tile for straight cuts on 18", 50cm or 24" tile, or up to full diagonal cuts on 12" tile.
- Equipped with two adjustable gauges, one for 45° and 90° cuts and the other for 90° cuts only.
- Dual measuring scale graduated every ½" and 1cm.
- Equipped with 4 ball type castors for ease of movement.
- Long wearing alloy steel blades - precision ground for accuracy.

REPLACEMENT PARTS

Upper blade	262 249 501
Lower blade	262 249 502
Castors (x4) + screws	H-24-5
Adjustable combination straight/45° gauge (for 12" diagonal half cuts)	H-2445
Adjustable straight gauge 9 ½"	H-2490

H24 Tile cutter **262 249 500**

TECHNICAL SPECIFICATIONS

Capacity	¾" thick, 12 ¼" wide
Weight	57 ½ lbs with castors & gauge
Overall size	29" w x 27 ¼" l x 8 ½" h
Construction	Steel & Aluminium alloy castings

comes with 2 guages

SEAM WEIGHT

The Seam Weight has a perforated white plastic base with an air space between the base and steel weight to allow heat and moisture to quickly dissipate. It performs better than a tool box tray because it exerts uniform pressure without discolouration caused by heat retention or by a rusty tool box tray. The white plastic base glides smoothly over the carpet and won't snag like a plywood tool box tray can.

Measures: 6" wide x 12" long x 3 1/4" high. Weighs 16 lbs. 612 SW

Carpet Edge Sealing Tips

These special glue gun tips allow carpet edges to be sealed with any hot melt glue compatible with carpet backings. Edges are sealed better and faster. Also, unlike other sealing methods, no time is lost waiting for the sealer to dry. The unique design of these tips assures excess glue is directed onto the backing of the carpet, and not into the pile.

Carpet edges can even be sealed from a standing position without looking directly at the cut edge. All three tips function the same as the Plenum Area fills with pressurised glue, which is then forced onto the carpet edge. The Relief Area allows excess glue to vent to the carpet backing.

Tip orientation for proper edge sealing - excess glue is directed onto the back

Use adapter valve with glue guns to give perfect adhesive application

Hot Glue 2® Seaming Kit - 110V

For edge sealing and seaming commercial direct glue and double glue carpet installations.

The Hot Glue 2 Seaming Kit applies hot melt glue simultaneously to both edges of a commercial carpet seam to both seal and cut edges and seam the carpet in a single pass over a 2" wide fibreglass mesh tape. The specially modified glue gun applies hot melt through the patented, die cast zinc applicator tip which prevents glue from rising above the base of the

carpet pile. The applicator tip also applies glue to the carpet backing of both sides by directing glue to the underside to complete the seam.

Not designed for use in residential (stretch-in) carpet installations or on commercial carpet with attached cushion or pile height exceeding 1/4".

HG2 Kit - 110V

DOOR TRIMMERS

Door BOSS by JANSER UK

The Door Boss enables doors to be trimmed in situ, in a precise and efficient manner.

The machine features simple thumbscrew adjustments for both height and depth of cut. Changing of the blades is also easy, with the use of the allen key provided. The well proven design of the unit offers the user a comfortable working position, giving maximum control during operation.

The motor is double insulated and a sliding guard ensures user safety. The unit is suitable for AC supply only 220 - 240V.

The machine is supplied with:

A tungsten carbide blade and comes complete with a robust, lockable, metal carrying case.

TOOLS FOR WOOD & LAMINATE FLOORS

SPACER AV2

For laying parquet, laminated and panel flooring without any wedges

- Quickly and infinitely adjustable for wall distances of 5 to 20mm
- Spacer for floating laminate and parquet flooring installations
- Wide contact and support area for avoiding pressure points on floorboards and plaster
- Easy to remove by simply turning wheel
- Very light and compact
- Do not fall or collapse like basic wedges

TECHNICAL SPECIFICATIONS

Opening	20mm
Adjusting range	5-20mm
Material	Polyamide
Weight	0.05kg

Spacer AV2
4 pieces in box

464 055 400

For laying medium room sizes a minimum of 16pcs are required

12 x 4 pieces in Counter Display Box

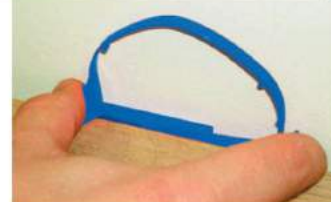

464 055 450

Floor Wedges

Floor wedges make it easy to ensure the correct distance between the wall and floorboards.

Advantages of the iTOOLS floor wedges are:

- Easily adjusts from 8-15mm
- Keeps its setting
- Greatly facilitates the laying of the initial boards
- Can be used for all types of floorboards
- Easy to detach the floor wedge using the uniquely designed strap
- Can easily be taken apart and then quickly be deployed again

TAPES

Jantac

silicone-treated paper
acrylic adhesive
PSTR-fibre net
acrylic adhesive

The No 1 Impact Tape

Lab proven unrivalled adhesion level

Jantac is a double sided acrylic tape.

The pure acrylic adhesive has viscoelastic qualities, doesn't dry out nor does it become brittle.

Jantac is used for fitting carpet skirting boards or any other material which can no longer be fixed with conventional transfer adhesive.

Fitting of skirting boards

Dry adhesive is used in many areas of the floor laying industry. It has no drying time and there is no need to ventilate the room you are working in. It can also be removed very easily

Tape widths of:

25mm (1"), 40mm (1 1/2"), 45mm (1 3/4"), 50mm (2"),
55mm (2 1/8"), 70mm (2 3/4"), 85mm (3 1/2")

MULTI-GRIP® Anti-Slip for Rugs!

To efficiently prevent rugs slipping on carpet and hard surfaces, you need two different products, one for carpets and a separate product for hard floors:

Multigrip for Hard Floors is a beige rubberised polyester mesh, which prevents rugs slipping on tiles, slate, wood and laminate floors. It will leave no residue or staining. It can be washed and re-used time after time.

Multigrip for Carpets prevents rugs slipping on carpets and is a beige polyester felt coated both sides in a light resin. It will leave no residue, can be washed but its effectiveness will reduce over time. Vacuum carpet well prior to laying.

Multigrip for CARPETS

60cm x 120cm	Non-Slip for carpets	MH2
90cm x 150cm	Non-Slip for carpets	MH3
120cm x 180cm	Non-Slip for carpets	MH4
150cm x 240cm	Non-Slip for carpets	MH5

Multigrip for HARDFLOORS

60cm x 120cm	Non-Slip for hardfloors	MT2
90cm x 150cm	Non-Slip for hardfloors	MT3
120cm x 180cm	Non-Slip for hardfloors	MT4
150cm x 240cm	Non-Slip for hardfloors	MT5

Multigrip Spray

Can be used for Carpets and on Hardfloors

Anti-Slip Spray to be used on Carpets and H/Floors - Permanent coating for back of Rugs and Mats etc.

Multigrip spray - 400ml

Linoleum Dollies

These popular dollies help solve sheet vinyl handling problems.

They are sturdily constructed to give many years of maintenance free service. They feature non-marking rubber wheels with a 480lb load capacity, and the end frame members are made from sturdy aluminium alloy castings. Both ends have a hand hole for carrying. The rollers are supported on both ends by bar bearings, and are made from heavy gauge steel tubing to resist denting. Both models will accommodate rolls up to 16" in diameter. Rollers have a black powder coat finish. Fixed wheels - non swivel. Suitable for moving/storing roll up mats and carpets in sports halls, ballrooms, schools community centres, etc.

MY ORDERS

[illegible]

CONDITIONS OF SALE

Quotations by the Company are invitations to treat. A contract only arises on the Company's written acceptance of an order. No subsequent variation shall bind the Company unless confirmed in writing.

The Company may without notice make such adjustments of contract price as it shall consider appropriate having regard to changes in cost of production, overheads, transportation and insurance. Goods will be charged at prices ruling at date of despatch.

Goods invoiced at £200.00 or over will be despatched carriage paid within the United Kingdom. Carriage on orders less than £200.00 will be payable by the buyer at cost.

The Company will not accept responsibility for any damage to goods or shortage in quantity of goods unless reported to the Company and to the Carriers in writing within 3 days of delivery, nor for non-delivery unless reported in writing to the Company within 10 days of date of invoice. If these conditions are not fulfilled the carriers may repudiate liability and the Company cannot enquire into the complaint and will look to the Purchaser for payment in full.

Until the Buyer has paid the price in full, the property in the goods shall not pass to the Buyer and the Buyer shall be obliged to store the goods in such a way as to enable them to be identified as the property of the Company. So long as the property in the goods remains in use and if payment of the price or any part thereof shall be overdue, without prejudice to any other remedies we shall be entitled to at any time to recover and resell the same and for these purposes to enter upon any premises of the Buyer and to retake possession of the goods.

Where the property in the goods has not passed to the Buyer, the Buyer shall be entitled to sell the same, but any such sale shall be deemed to be for our account and any proceeds thereof shall be held by the Buyer as Trustee for the Company until the price is paid in full. Upon notice from the Company, the Buyer shall be obliged to assign all rights that he has against his customers.

No responsibility is accepted for goods returned without the Company's prior written authority. Return freight and a handling charge of 10% of net billing price will be charged unless the Company is at fault. The Buyer shall insure the goods for the period covering the return to the Company's works.

TERMS OF SETTLEMENT

Payment by Account Holders strictly 30 days from date of Invoice

Interest is payable on any account becoming overdue in accordance with the stated settlement terms, and will be calculated at the rate of 2% per calendar month.

Value Added Tax will be charged on the total invoice value at the standard rate.

All JANSER products are of the finest quality and workmanship and are warranted to be free from manufacturing defects, and faulty material of which the Company receives written notice within six month from delivery will be replaced. No other guarantee is given and any other express or implied warranty or condition, statutory or otherwise, is hereby excluded.

All contracts shall be governed by and construed in accordance with English Law.
