CADDY 001 Bar trolley

design GORDON GUILLAUMIER

DESCRIPTION

Bar trolley for outdoor use.

STRUCTURE

TEAK: Teak wood contains a natural oily resin which makes it extremely resistant to weather, temperature, parasite attacks and insects. The exposure outdoor creates a 1/2 mm-thick oxidation patina on the wood surface which favors its discoloration to a silver-grey color; this change does not affect its original characteristics in any way. The grey patina can be avoided or removed with the correct maintenance.

TOP

ISI 316 stainless steel. Stainless steel owes its excellent resistance to corrosion to its ability to passivate, that means to oxidize without rusting.

WEIGHT

6 kg

STORAGE COVER

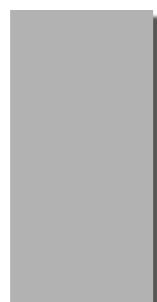

Available

STRUCTURE

TEAK

TOP

STAINLESS STEEL
