

DIMPLE LIGHT

Dimple explores the idea of dependency and support in both an emotional and physical sense, represented in this piece by the inherent material qualities of glass, metal and marble. While the glass is still hot and in the hand blowing stage, an impression is made in the glass oviform, allowing the carved marble sphere to nestle in the resulting dimple. The assemblage rests on a brass cube with a hand antiqued finish.

Materials

Glass
Steel
Pink Portuguese Marble

Standard Finishes
