HIDDENWIDE	R (RECESSED)	NST6 (NST6.IP-LN)	2.0m	W (White)	1.0

Dimensions (mm)
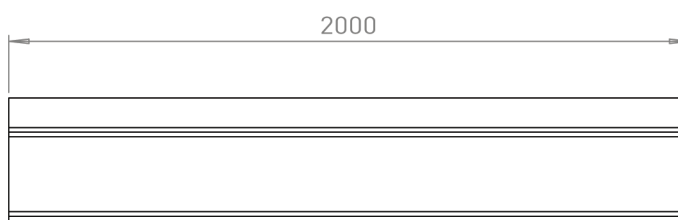

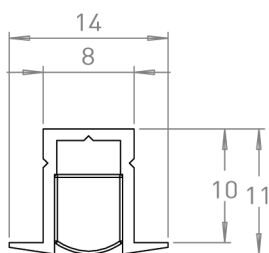

## Installation - Recessed

Step 1

Cut the Channel down to size.

Step 2
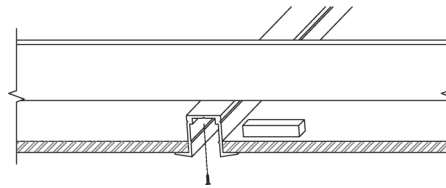

Using a 8mm Router Bit, cut a 8mm wide slot and 10mm deep slot into 10mm plaster board or 10mm into joinery.

Step 3

Remote mount and connect the driver to the mains power cable in line with the Australian Standards. Ensure the low voltage cable is routed through the hole cut.

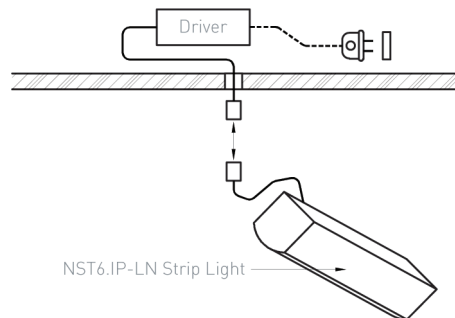

Step 4

Insert the Channel into the slot and fix it to the joists using the screw provided.

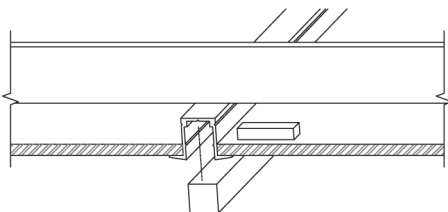

Cutline A

NST6.IP-LN Strip Light

Cutline A

Step 5

Cut the strip light to length that matches the channel length.

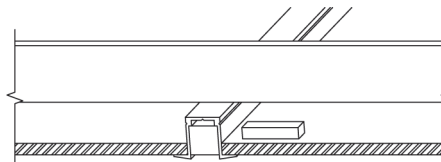

Driver

NST6.IP-LN Strip Light

Step 6

Wire the NST6.IP-LN Striplight into the driver (sold separately) using the wire crimps.

Step 7

Snap the NST6.IP-LN Striplight into the channel.

Step 8

Installation Complete.
