**Product code**

MXQ4: High recessed linear Minimal profile for Ledstrip Top RGB versions - L=2000

Technical description

Rigid aluminium profile designed for fully recessed installation, insertable in 12.5 mm thick false ceilings. Ideal for minimal lines of lighting flush with the ceiling without borders (after filling and finishing). The shape of the profile allows application of all RGB Ledstrips with front emission LEDs, available in standard version (with adhesive) or tube version (with outer sheath). The profile may be completed with a diffuser screen available with two finishes: opal and translucent. The raised section of the profile, coupled with the opal diffuser screen, eliminates the pinpoint effect typical of strips.

Installation

recessed in milled parts; profile fixed on false ceiling using screws (not included); filling, finishing and painting are required for a smooth, even profile opening onto the ceiling. Accessory closing end caps (code MXQ8 - kit 4 pcs).

Colour

Indeterminate (00) | Aluminium (12)

Weight (Kg)

0.61

Mounting

wall recessed|ceiling recessed|ceiling surface

Wiring

Carefully read the Ledstrip instructions sheet

Notes

Carefully read the Ledstrip instructions sheet

Complies with EN60598-1 and pertinent regulations
