ORSON 008 Sunlounger

design GORDON GUILLAUMIER

DESCRIPTION

Sunlounger for outdoor use.

STRUCTURE

TEAK: Teak wood contains a natural oily resin which makes it extremely resistant to weather, temperature, parasite attacks and insects. The exposure outdoor creates a 1/2 mm-thick oxidation patina on the wood surface which favors its discoloration to a silver-grey color; this change does not affect its original characteristics in any way. The grey patina can be avoided or removed with the correct maintenance.

CUSHIONS

Standard or hydro draining

WEIGHT

Structure: 28 kg

Cushion: 5 kg

STORAGE COVER

Available
