STRIPES

design by Ferruccio Laviani

Stripes è una famiglia di contenitori con ante decorate con profili triangolari in massello applicati singolarmente. Le geometrie che si creano rendono la struttura di Stripes preziosa e i giochi di luce che attraversano questo susseguirsi di linee e incroci conferiscono al mobile una grande forza.

Stripes is a furniture collection with decorated doors, with triangular solid wood profiles, applied one by one. The geometries thus created make the structure of Stripes precious, and the light effects which pass through all the lines and the intersections give to the furniture item a sense of great strength.
