

CARBON
_NANO

CARBON

Electrical with personality. The power of texture.

ZETR CARBON has evolved from conversations with designers and architects on the need for bold, contrasting electrical. We have been exploring ways to refine our range of CARBON finishes, experimenting with modern and traditional coating and finishing techniques. What resulted are two ranges made and assembled in Australia in collaboration with our local partners and in-house production team.

ALEXANDER AND CO X ZETR

CARBON HAND FINISHES

CARBON consists entirely of natural, honest materials that mature and age with personality over time. CARBON finishes develop a unique patina depending on the climate, exposure, handling, cleaning, and waxing routine of each finish.

NATURAL BRASS

NB0

Brushed fine-line textured brass

AGED BRASS

AB1

Medium patinated brass with fine circular texture

BRONZE

BZ3

Deep patinated brass with fine circular texture

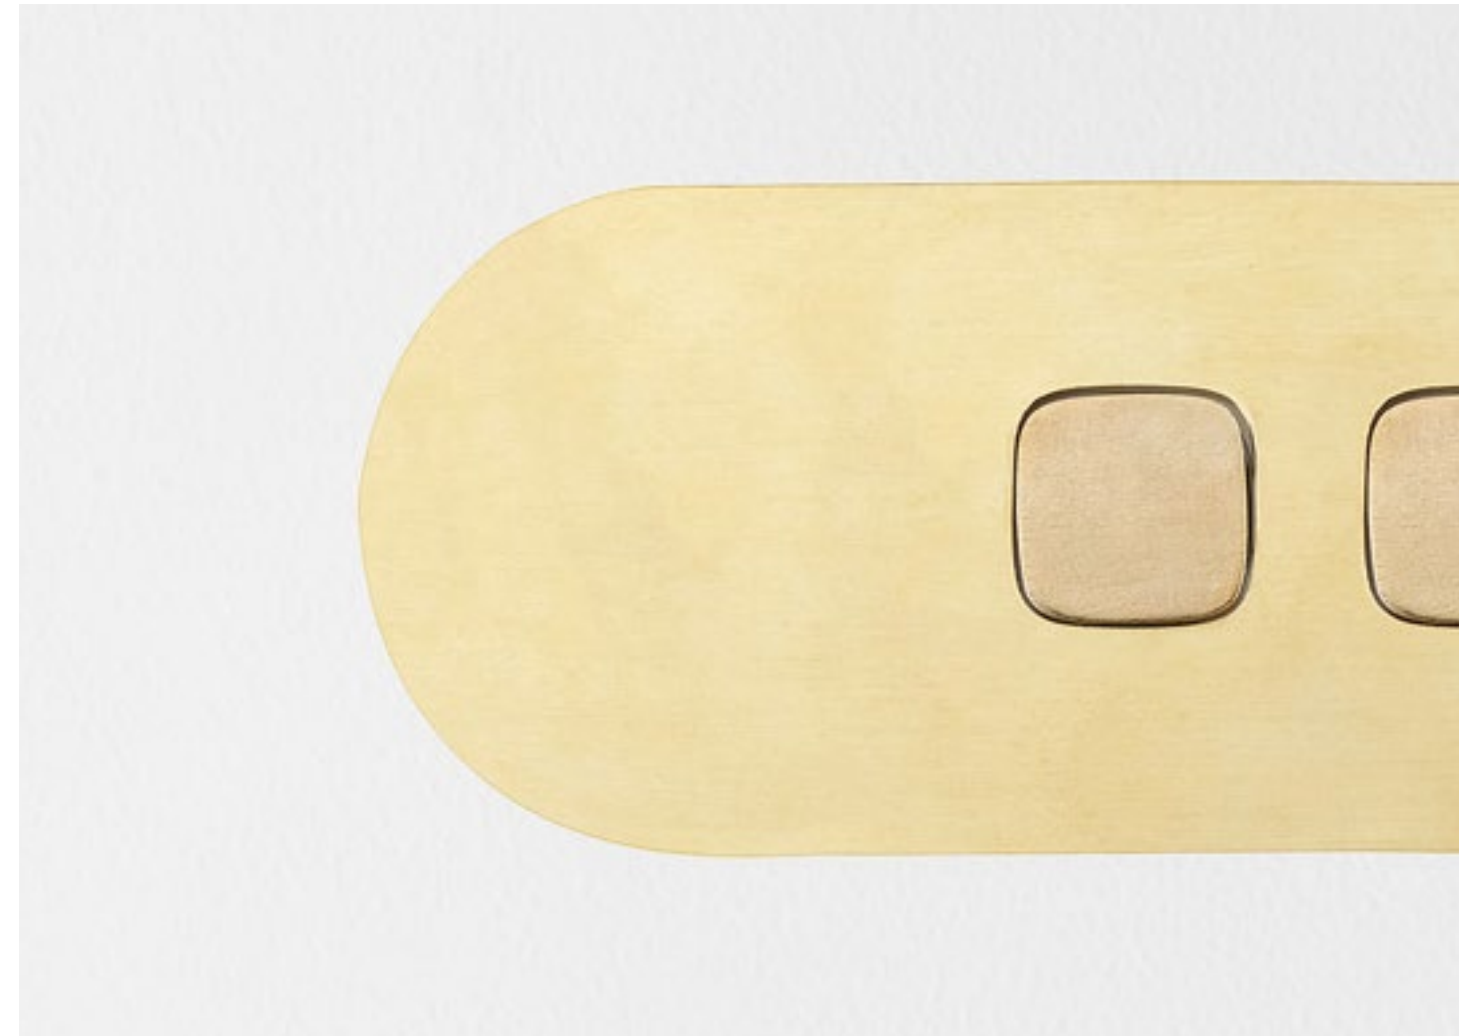

NATURAL BRASS

An honest brass with a fine-lined textured surface that is truly one of a kind and timeless. This natural finish will slowly patina, maturing with its surrounds.
