### *The Giust Gallery*

---

**T**he Giust Gallery label is synonymous with the highest quality hand made reproductions available. Our long tradition of craftsmanship was originated over one hundred years ago by Pietro Caproni who was considered the greatest mold maker of his time. For more than a century the Caproni and Giust Gallery have been considered the leading studio for the most beautiful museum reproductions in the world.

This fine collection of wall plaques is being offered for distribution to only the most exclusive gift shops and art dealers. Each reproduction is hand cast and finished at our historic studio. They are crafted in hydrocal and finished with an elegant antique white patina. These uniquely crafted reproductions will add a touch of classic beauty to any room.
