

When Work From Home is ~~optional~~ ^{a necessity}

Multiple Voltages
Multiple Capacities (hours of backup)
Multiple Current ratings

With the Energy Intelligence Patent Pending devices you get:

- Uninterrupted internet assured for all routers during power cuts (Also works uninterrupted for Jio 2-2.5A / Syrotech / Netlink / BSNL / Alphon / Nokia-2425 routers)
- One device can run router and modem together with any voltage configuration (12/9/5/19V). No other devices cater to this variability with local ISP hardware in smaller towns
- Models available with backup from 2 to 11 hrs
- Best in class 3 years repair/replacement warranty (including battery)
- Easy DIY installation
- Phone and Whatsapp support for product selection, installation, and diagnostics
- Compatible high capacity adapter / charger included in all models above 4 hrs backup duration
- High current models available for ASUS 19 V, Netgear Orbi , TP-link Archer, Netgear Nighthawk WiFi 6 Hi power routers
