

FLUID TIME

HYT
#HYTWATCHES

A close-up, high-angle shot of a clear glass hourglass. The hourglass is partially filled with a vibrant green liquid. The liquid is captured in a dynamic state, with a large splash at the top of the upper bulb and a single drop falling from the narrow neck into the lower bulb. The background is a soft, out-of-focus gradient of light gray and white.

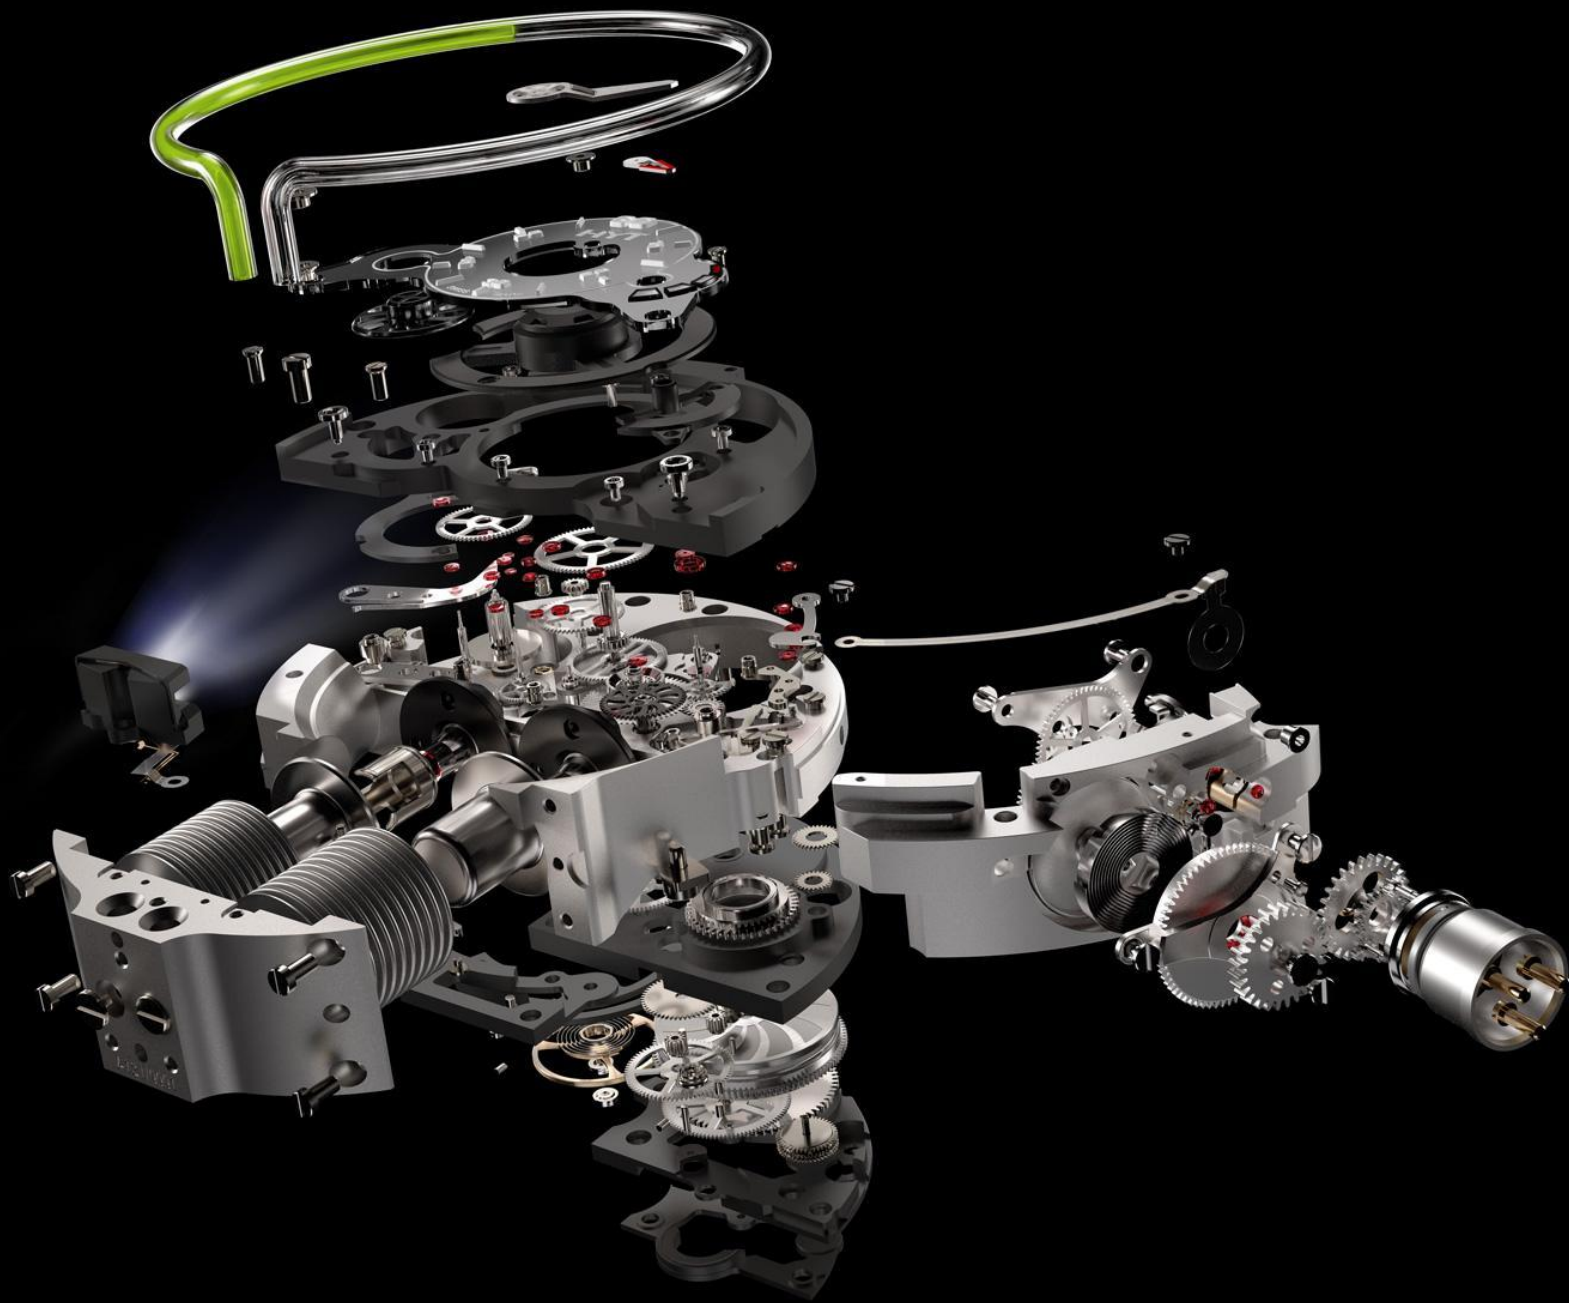

TIME
NEVER
STANDS
STILL
