Technical Specifications for Tach-It Model #6100-SS Semi-Automatic Electric Definite Length Tape Dispenser

Description and Use of Product:
The Tach-It Model #6100-SS is a semi-automatic definite length tape dispenser that can cut most types of standard packaging tapes including filament and reinforced tapes. Containing an LED showing the length of tape to be fed and push button controls, the 6100-SS can be used in either a manual or semi-automatic mode. In manual mode, the operator presses a feed button until the desired length of tape is fed from the machine. At that point the operator than presses a cut button to cleanly cut the tape. In semi-automatic mode, the operator uses the push buttons on the top to set a desired length in millimeters. By pressing the mode button on the top of the unit to semi-automatic, the Model #6100-SS feeds the desired length of tape and automatically cuts it. When this tape is removed the next piece is fed and cut to the same length as indicated in the LED. The Model #6100-SS can accept 1 roll of tape up to 2" wide or 2 rolls of tape up to 1" wide each.

Materials:
Manufactured with all steel and hi-impact plastic components.

Advantages:
Easy to read LED display for tape length
Push button controls
Works in either manual or semi-automatic mode
Clean guillotine cut
Adjustment screw for various thicknesses of tape
Safety shield for operator protection
Heavy duty construction
Small bench top design
Split mandrel allows for use of 1 roll of tape up to 2" wide or 2 rolls of tape up to 1" wide each.
Infra-red sensors detect the presence of the tape in automatic mode
Optional stand is available for large and machine length rolls of tape

Dimensions and Specifications (without tape):
Length:	8 Inches
Width:	5 Inches
Height:	5 1/2 Inches
Weight:	7 Lbs.
Power:	110 Volts 60 mHz
Core Size:	3 Inches
Max. Width of Tape:	2 Inches
Max. Diameter of Tape:	6 Inches (large roll unwind stand available)
Maximum Length of Tape:	39.3 inches (999mm)
Minimum Length of Tape	5/8" (15mm)

Packaging:
Pieces per Case:	4 per case
Weight per Case	29 Lbs. per case
Case Cube:	1.823

Country of Origin:
Made in South Korea
