

## **Technical Specifications for Tach-It Y620 Transfer Tape Dispenser:**

### **Description and Use of Product:**

The Tach-It Y620 Transfer Tape Dispenser is a hand-held device which is used in conjunction with separately purchased ATG (Transfer Tape) and assists in the dispensing and application of ATG tape on cards, samples, swatches and a multitude of other uses. To use, the operator touches the extended nose of the dispenser to the product which is to have tape applied, depresses the trigger and moves the dispenser over the surface allowing the tape to be dispensed. When the operator has completed the application he releases the trigger, the adhesive is ripped and the unit is ready for the next application. The Model Y620 has a rewind system for the tape backing paper.

### **Materials:**

Manufactured mainly of hi-impact Plastic.

### **Advantages:**

- Easy to use
- Large Roll Capacity
- Heavy duty construction
- Lightweight
- Extended nose for easy application
