SIZING GUIDE RINGS

Whether you are looking for a gift for a loved one or you just want to know the size that fits you best, our guide should help you. We look forward to assisting you in determining the correct sizing for your Sana Al Maktoum Fine Jewellery ring. All our rings fit true to size with the exception of the Soulmate ring, which we suggest going down a ring size.

HOW TO MEASURE YOUR RING SIZE

To determine your size, we strongly advise that you measure the size of your finger rather than the size of your ring.

1. Using a length of string or ribbon, wrap it around the base of your finger. To ensure the ring fits comfortably, we suggest measuring your knuckle as well. We recommend selecting a size that will slide on and off your finger easily.
2. With a pen, mark the point on the string where the ends meet.
3. Measure the string in millimeters with a ruler.
4. Choose the closest measurement to the chart below to identify your ring size.

TIPS

- The string or ribbon must fit snugly to produce an accurate size.
- Finger size can change depending on the time of day and weather; for the most accurate measurement, measure your finger at different times of the day, and on different days to compare.
- Avoid measuring your fingers when they are cold or wet, as they will be at their smallest.

SIZING GUIDE - RINGS

YOU WANT TO GIFT A RING

If the ring is intended to be a gift, borrow one of the recipient's rings with a similar width as the ring you would like to purchase (but no wider than 3mm) and use the Sizing Guide below.

If your ring appears to be between two sizes, we recommend choosing the larger size. The average ring size is 52 to 53. Before printing this guide, be sure to follow the instructions below

To get the best results, you will need to go to the 'printing settings' before printing and ensure that the 'page scaling' option is set to 'none' in the print dialogue box. The Sana Al Maktoum Fine Jewellery Ring Size Chart must be printed on a full letter "**A4 (8½ x11 inches)**" size page. To check that the Ring Size Chart has been printed properly, take a ruler and measure the sample below. It should measure exactly **0.7 inches**.
