

Quick heating and even cooking

The Series 20 FanCook Oven circulates hot air heat with its fan and ring element. Air is continuously moved around in the oven cavity, to make sure that dishes can be cooked on different level at the same time

Product Benefits & Features

Double Oven—multitasking made easy

Cook two meals at once easily. With the Double Oven you have the choice of fan cooking, conventional cooking and grilling. So you can bake a cake or roast a chicken at the same time. Making your kitchen adventure a little more convenient.

- Top Oven Functions:
- Economy variable grill
- Top heat
- Bottom heat
- Main Oven Functions:
- Fan controlled defrosting
- Retractable oven controls with LED display
- Economy variable grill
- Oven features:
- Pizza cooking

Convection oven, for Even Cooking

The hot air generated inside the oven during cooking is moved around with a fan, so all your dishes receive the same amount of heat. This lets the oven heat up faster, which means you'll get the same results using 20% lower temperatures, saving time and using less energy.

Touch to time every meal / Perfectly timed meals with LED display / Time taken care of

Keep track of all your dishes with the LED timer display. Setting exact cooking times is straightforward with the touch-activated fields. Making it easier than ever to juggle a few different dishes at once.

Oven light, for a better view

A powerful, well-placed oven light lets you see what's going on inside the oven while your food is cooking. So you can monitor your dish's progress, without having to open the door.

Removable glass door for easy cleaning

The oven door's individual glass panels can be removed so you can easily remove crumbs or wipe away any accidental spillages. Simple solutions to common problems.

Product Specification

Self-Cleaning?	Clean enamel
Cavity coating	Black Enameled
Dimensions (mm) (HxWxD)	715x594x568
Dimensions	720x600x550
Total electricity loading, W	5300
Voltage	220-240
Required Fuse	30
Frequency	50
Temperature range	50°C - 275°C
Maximum Microwave output (W)	0
Cavity size	45
Largest Surface area	1175
Colour	Stainless steel with antifingerprint
Energy class	A
Energy consumption, conventional mode, kWh per cycle	0.94
Energy consumption per EU standard cycle	0.78
ProdPartCode	All Open
