

ZHG51251G Cooker Hood

The canopy hood that saves you space

You can keep the air in your kitchen clean without compromising on space, thanks to the canopy hood from Zanussi. It installs directly into your overhead cabinet, taking up hardly any room. And because of its subtle design, it doesn't interfere with the style in your home.

Set the speed quickly and easily

The mechanical push-button controls on this cooker hood let you quickly and easily get more or less extraction speed and power as needed.

Ensures your kitchen will always smell nice and fresh!

Three speed levels give you exactly the amount of air power you need, from high when frying, to low when you just want to refresh the kitchen air.

More Benefits :
