

ZMBN4SX Microwave

Even heating, with XL turntable

The Series 20 ReTurntable will start rotating as soon as the cooking process begins, meaning there's no need to manually turn food part way through. And removing your hot dish when it's done is easy, as the turntable always returns to its original starting position.

Simple solutions, with the microwave function

Effortless results are made easy with our microwave. Heat up from chilled, defrost from frozen, or reheat leftovers – all at the touch of a button.

EasyOpen, the touch-activated door

The microwave's touch-activated door opens instantly. As it is electronic, unlike the more common spring-loaded mechanism, it requires minimal effort to open the door.

More Benefits :

- Your preferred settings are always on hand, with the Favourites Function.
- Unfreeze your food quickly and efficiently with the Defrost Programme.

Features :

- Stainless steel interior
- 24-hour digital clock with auto timer
- Fast programming
- Fast, efficient microwave cooking
- Auto weight defrosting programmes
- 26 litre capacity
- Audible cooking end signal
- Finger print proof stainless steel

Technical Specs :
