# Experience easy. No setup. No adjustments. No waste.

## BradyPrinter i5300 Industrial Label Printer

Set up, switch out and print faster than you ever imagined with the BradyPrinter i5300 Industrial Label Printer. It's intuitive, auto-calibrating and precise, printing barcodes and small fonts on labels as small as 5.08 mm. With a solid, metal frame construction, it can handle both high-volume and high-mix labelling applications: electronics and product ID, wire and panel ID, lab ID and safety and facility ID.

Get fast and efficient precision printing for high-mix/high-volume labelling. Printer features quick label set up and no-waste material changeovers.

- 300 dpi; prints small fonts with precision
- Requires no calibration and no heat and speed setting adjustments
- 20-second material changeovers, 5.08 mm – 101.6 mm label widths
- Pauses, resumes and stores print jobs on printer in an adjustable queue with overwrite protection
- 178 mm colour touchscreen and built-in auto cutter
- Solid construction with an all-metal frame
- Intuitive and easy to operate

Easy - inside and out.

When it comes to the BradyPrinter i5300 Industrial Label Printer, everything's easy. Taking just seconds to set up and load, it offers a faster, easier start-to-print process. That's because it's designed for efficiency - no setup, no adjustments and no waste. Zero. Enjoy time-saving features like a print queue and interrupt function. Plus, get precision printing on 75 material types and over 1300 parts, with custom parts available. All this so you can reach your high-mix, high-volume printing goals. Ready? We told you it was easy.

Rugged design
Solid construction with metal framing and gearing for higher throughput and workhorse durability

Easy loading with 20-second changeovers
Labels and ribbons drop in with no thread-through, orientation checks or wasted materials

Media guides with integrated sensors
Sensors automatically align precisely when guides squeeze together, which means there's no adjustments, and no alignment trial and error

5.08 mm to 105.66 mm label widths
Prints small labels for electronics and laboratories, and also larger labels up to 105.66 mm wide

Built-in auto cutter
Cuts off material after a job, after a label, or not at all

Double-side wire sleeve printing
External feed slot and print app enable 2-pass printing for double-side heat-shrink sleeves

Print queue
Print immediately or store jobs to the printer with write-over protection

Smart media rolls
PrintSmart technology pre-optimises speed, heat, size and ribbon/materials settings for all B30/B33 series media

Big 17.78 cm color touchscreen
Communicates installed part numbers, remaining supply, status, in-job navigation and label preview

* General volume levels for directional model comparison purposes only. Assumes basic text on 25mm x 50mm vinyl labels. Actual results vary depending on combination of material, burn and speed settings, label content, ambient temperature and length of print run.

** User should test to the application. Print performance on small parts or parts smaller than a printer's minimum label dimension spec is dependent on multiple factors including print speed, quantity in print run, heat setting, and the size/layout of the printed elements.
