

PERCONTA SORTOFAX Coin Sorter

Refurbished – Systeme
gebrauchte Geldzählmaschinen

Was verstehen wir unter Refurbished?

Refurbished-Systeme sind Geldzähler, die wir sachkundig und **mit Originalersatzteilen generalüberholt, gereinigt und geprüft** haben. Dabei handelt es sich zu einem großen Teil um Geldzählmaschinen, die aus dem Business Einsatz bzw. Filialeinsatz von Banken stammen. Systeme, die bis zum Schluss noch im Einsatz waren und daher für ein "2. Leben" geeignet sind. **Für Details scannen Sie bitte den QR-Code**

Customer satisfaction with accurate sorting of up to eight denominations

The PERCONTA SORTOFAX coin sorter is developed to speed up your coin processing without in any way sacrificing the level of accuracy. It sorts up to 2,500 coins per minute in up to eight denominations.

Accuracy in action

Apart from being a fast worker, the SORTOFAX is renowned for having the highest possible accuracy in counting, sorting and batching. It is also exceptionally accurate for off-sorting counterfeit, foreign and damaged coins.

PERCONTA Quickrail®

Like any other PERCONTA coin sorter, the SORTOFAX is equipped with PERCONTA Quickrail® – a fast-change sorting track. It can be changed in next to no time and minimum maintenance is required.

Extra door for using coin tubes

Up to eight denominations at high speed

Clear and user-friendly display

Accepts both bags and tubes

Three SORTOFAX models

The PERCONTA SORTOFAX comes in three models, the SORTOFAX S 9, the SORTOFAX MS 7 and the SORTOFAX MS 9. S 9 stands for single-stop, which means that one denomination of the sorted coins can be directly packed into bags or tubes, followed by another one. MS means that the sorters are multi-stop versions, i.e. several denominations can be packed into bags or tubes in one step. Both features eliminate unnecessary stops for packing after the coins are sorted. The amount of each batch can be pre-programmed and defined to meet the needs of all users.

Flexible choices

The PERCONTA SORTOFAX is recommended for volumes less than 20,000 coins per day. If you need a greater capacity, please contact us and we will help you find a solution that suits your needs.

Easy operation

The coin sorter is easily operated from a logical and clear display – designed to perfectly suit the needs of the operator. It has a large coin tray with high capacity.

Desktop efficiency

The SORTOFAX is designed for desktop use. There is no need for space-consuming stands or special furniture. Just place it where it suits you best and from day one the SORTOFAX is a convenient working partner.

TECHNICAL SPECIFICATION (PERCONTA SORTOFAX S 9)

WIDTH	844 mm/33.2"
DEPTH	335 mm/13.2"
HEIGHT	276 mm/10.9"
WEIGHT	36 kg/79.3 lbs
VOLTAGE	230 V/50 Hz, 115 V/60 Hz
POWER CONSUMPTION	approx. 200 VA
SPEED	Up to 2.500 coins/min.
DIAMETER RANGE	15.5-31 mm (standard) Special diameters on request
THICKNESS RANGE	1-3.2 mm

Founded in 1966, SCAN COIN is one of today's leading suppliers of cash processing equipment, system solutions and services. Our worldwide customer base is served through a network of SCAN COIN companies and distribution partners covering some 120 countries. SCAN COIN develops, manufactures and markets equipment and integrated solutions for handling banknotes and coins, and has become a world leader in the automatic cash processing market. In 2004, SCAN COIN acquired the well-known German PERCONTA range of money counting and sorting systems.
