# Introducing the
# iJetColor1175

Introducing the iJetColor 1175 an innovative compact designed envelope press that incorporates HP's PageWide full color thermal inkjet technology into the industry's most elegant envelope feeding system designed by Printware. The HP FI-1000 printhead generates full color images using pigment-based durable ink that is fade, scratch, and water resistant. Coupled with proven economics that delivers the industry's lowest variable cost inkjet for unmatched profitability. Printware's easy to use feeding system designed from the ground up to consistently and accurate feed envelopes for reliable short and long run trouble free operation. The iJetColor 1175 is a versatile and ideal solution for high-volume print and direct mailing operations that need to produce short-run, full-bleed variable data jobs fast, reliably and profitably. The iJetColor 1175 system provides everything you need to print and personalize up to 6,210 #10 envelopes per hour.

The iJetColor 1175 (2023 production class) incorporates the industries only **iJetColor Ink-Only**<sup>sm</sup> purchase plan that incorporates a comprehensive affordable 5 year service program.

## Features:

- HP Thermal Inkjet Technology
- Pigmented Based HP Ink = Water Safe
- Low Variable Costs of Ownership
  **iJetColor Ink-Only**<sup>sm</sup> supply plan
- 5 Year/5 million Print Head Guarantee
- MFG Direct Support with iJetAdvantage
- Full-bleed Printing and PMS Color Matching Technology
