CHARGit

# CHARGit Wireless Multi-Charger

CHARGit's fast multi-charger has been designed with flexibility in mind. Use as one unit and fast charge up to 3 devices at the same time. Or split into 2 individual chargers, for the times when you need to charge your phone away from your other devices.

Use the wireless charging stand to charge a smartphone in your kitchen or office, choose between landscape or portrait mode, great for that video call!

Use the other to charge your Apple iWatch®\* & AirPods®, next to your bed without that cable chaos!

We have already pre-fitted the lightning cable & included 2 USB-C cables, so you just need to plug in and start charging.

**Please read this user manual before using and keep it for future reference.**

## Includes

1. 2 Charging stations
2. 2 USB-C cables
3. Pre-fitted Lightning Cable

\*Does not include Apple iWatch® Charger or 3 pin USB plug.

# Wireless Charging Instructions

Place your wireless charging compatible device (qi) onto the charging stand, portrait or landscape mode will work. The LED at the front of the charging station will illuminate **GREEN** to show your device is charging.

The CHARGit qi charging base will automatically deliver the right amount of power to your smartphone, from 5 to 10 watts.

## Compatible Devices

Any qi  
Device

Apple  
Airpods\*\*\*

Apple  
iWatch\*\*\*

\*\*Phone, iWatch® and  
Airpods® not included

## Troubleshooting

qi device not charging	Re-align device onto charging station
	Make sure no magnet/metal is between device and charging station
	Remove device case
iWatch®, AirPods® not charging	Make sure USB is connected correctly

# How To Fit The iWatch® Charger

1. On the underside of the right base slide the access panel forward to reveal the pre-installed lightning cable.
2. Place the iWatch® charger (not included) into the hole, feeding the excess cable up into the base (see diagram below).
3. Firmly connect the USB into the spare socket.
4. Ensure all the cables are inside the housing, carefully slide back the cover.

Tuck all excess cables inside the base

# Flexible Wireless Charging

## Incorrect Use

Do not attach  
metal patches  
to your device  
or case

Do not attach  
buckles, clips or  
metal objects to  
your device

Do not place  
magnetic object  
such as bank  
cards on the  
wireless charger

If your device is  
misaligned or  
obstructed, your  
device will not  
charge

# Product Specification

	Wireless Holder	
Input	5V/2A 9V/2A	
Output	5W/7.5W/10W (Self-adjustable)	
Frequency	110-205 Khz	Conversion Rate $\geq 72\%$
