(2) Double Locking Tube (300mm/Red) is the part used to fix the bottom of slide, the nuts on the tube are fixed in a definite angle. If the tube is misplaced, the tube screws can't fasten the tube to the bottom of slide in a proper condition. Please do place Double Locking Tube correctly as Fig. 7-1 shows while assembly.

1. The Double Locking Tube must be placed so that the arrow mark on the label would face upward when it is looked from inside of the model. Please refer to the Fig. 7-2.
