Ride Confident, Ride Secure, Ride EquiSafe

SIMULTANEOUSLY SAFE & STYLISH

High Performance Safety Equipment and Boutique Equestrian Apparel

About Us

Ride EquiSafe is not your standard tack store. We specialize in equestrian rider safety equipment and helping you look fashionable using it. We offer the broadest selection of safety products, paired with luxury equestrian apparel sourced from smaller European brands so that you stand out for the right reasons.

Whether you're hacking out on the trails, taking a lesson, or competing from the local level up to the international level, we believe that all riders should use equipment that ensures the safest possible experience, enabling you to be your best self in the saddle.

HELMETS

Charles Owen halo Mips Helmet -
Regular Brim

Charles Owen halo Luxe Mips Helmet -
Wide Brim

Next-generation performance riding helmet. Exquisite design. 360° ventilation. Unrivalled safety. Shell and metallic ring color combinations, plus optional wide peak and MIPS.

Comfort is prioritized with the unique 360° ventilation system under the halo ring and luxury padding. The unique Halo lattice harness has been designed to grip the occipital bone at the base of the skull, and self-adjusts to give a snug and secure fit for your ride.

ASTM F1163-15
PAS015:2011
VGI 01-040 2014-12

Charles Owen MyPS Mips Helmet - Regular Brim

With an outershell made of high impact ABS plastic, the My PS gives riders the elegant look of a Charles Owen helmet infused with modern style and a deep fit.

Ten ventilation slots, a removable headband and six-point leather look harness help to tick all the boxes of a truly modern, innovative riding helmet.

ASTM F1163-15 | SEI Certified

Tipperary Devon MIPS
Helmet - Regular Brim

Tipperary Devon MIPS
Helmet - Wide Brim

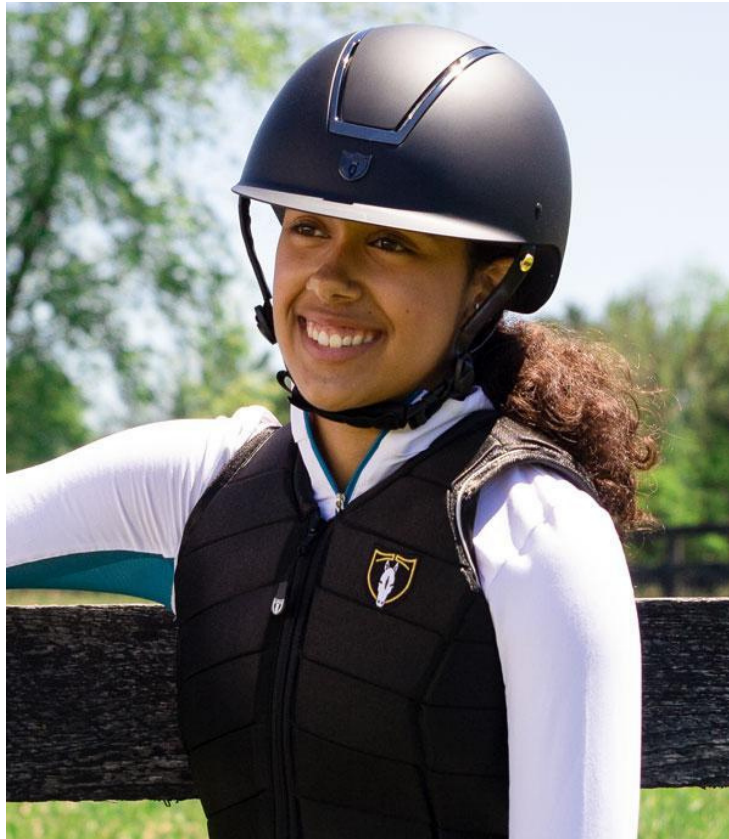

The Devon MIPS is an elegant helmet appropriate for the show ring. The outer shell provides full coverage, and the interior provides an unbelievably comfortable fit that can be locked in place with the Tipperary Retention System.

ASTM F1163-15 | SEI Certified

HELMETS

Tipperary Windsor Mips
Helmet - Regular Brim

Tipperary Windsor Mips
Helmet - Wide Brim

The Windsor with MIPS® is an elegant helmet appropriate for the show ring. The Windsor offers a full-coverage fit and a low profile design, featuring the Tipperary Retention System™ to ensure additional security and comfort.

ASTM F1163-15 | SEI Certified

Champion Revolve
X-Air Mips Helmet

Champion Revolve
Vent-Air MIPS Helmet

Traditional – Deeper fit on the head with a snug feel - there will be some suction when removing the helmet.

Low Profile – Shallower fit on the head, stabilizes on the harness, no suction.

Low profile lightweight fiberglass shell with new contoured shaped peak. Highly ventilated airflow system.

Champion Revolve Radiance Vent-Air MIPS Helmet

Low profile lightweight fiberglass shell with new contoured shaped peak. Highly ventilated airflow system. Synthetic leather finish with sparkle center panel and black vent.

Traditional – Deeper fit on the head with a snug feel - there will be some suction when removing the helmet.

Low Profile – Shallower fit on the head, stabilizes on the harness, no suction.
