

Duct Detector Test Tool

- Ideal for maintenance of fire and security alarm systems
- Easy to use.
- Portable, battery operated device
- Meets NFPA 72 Chapter 10 (10.4.2.2 14 g (4))
- Accepted test device for annual testing of pressure and air sampling ability of duct detectors
- Includes hard case and sampling tube plugs

HIGHEST STANDARDS

"...Duct detectors shall be tested initially and semiannually..."

"...Air pressure differential must be measured between the two openings falls within the specified operating range of the detector..."

"...Air duct detectors shall be tested or inspected annually to ensure that the device will sample the airstream..."
NFPA 72 Chapter 10 (10.4.2.2 14 g (4))

"Each air duct type smoke detector shall be inspected and tested to confirm operability"
CAN/ULC - S536-04, 5.7.4.4.1

"The positive airflow and/or sampling tube differential pressure in air duct type smoke detectors shall be tested to confirm that it is within manufacturer's specified limits"
CAN/ULC - S536-04, 5.7.4.4.2

ALSO AVAILABLE FROM SDi

- Professional Smoke Detector Testers
with approved and listed dispensers
- Genuine Professional Heat Detector Testers
suitable for fixed temperature, rate of rise and combined detectors
- CO Detector Testers
with approved and listed dispenser
- Aerosol Dispensing Tools
as recommended by detector manufacturers
- Detector Removal Tools
suitable for all leading makes and model of detector
- Access Poles
to enable detector maintenance up to 30+ ft.
- Complete Maintenance and Service
providing complete solutions in economical and convenient kit formats
- Smoke Detector Sensitivity Instruments
to identify sensitivity drift and help ensure that smoke detector sensitivity is maintained within defined calibration parameters

ductchecker™ is the ideal device for annual testing to ensure that the duct detector will sample the airstream properly, as required by NFPA 72, and according to manufacturer's instructions.
