

Commitment on engagement activities in line with the goals of the Paris Agreement

ALEXANDRIA, Va., August 17th, 2022

Lansinoh recognizes climate change as one of the major issues humanity faces. With great pride, we shared our commitment to become Climate Neutral by 2030. In support of this larger goal, Lansinoh set emission reduction targets validated by the Science Based Targets Initiative.

We are strictly following this science and fact-based approach supporting the goals of the Paris Agreement. This includes reviewing conformity of our engagement activities especially memberships of trade associations, funding, and any direct or indirect influence on policy, law, or regulation with regards to climate change in line with the Paris Agreement goals. Non-conform activities will be terminated.

A handwritten signature in black ink, appearing to read "Kevin Vyse-Peacock". The signature is fluid and cursive, with a long horizontal stroke at the end.

Kevin Vyse-Peacock
Chief Executive Officer

ABOUT LANSINOH
