VARIETY                      ORDERED                      A3YS                      DESCRIPTION

## ACACIA

Wattles grow naturally in arid landscapes of Africa and Australia, making them popular plants for hot, low water climates. They are grown around the world for a lot of different reasons: their intense tannins which are used in leather work; their wood can be used for constructing guitars & surfboards; the seeds can be used to make green dye and the flowers yellow dye; the gum is used as a food additive, an adhesive and a cosmetic and the flowers have been used in perfume manufacture (especially the golden wattle species).

Acacias are hardy however they prefer well drained soil, do best in full sun and because they have deep roots they tolerate drought when established.

<b>BAILEYANA</b>	10THO		Fast growing, evergreen hardy tree. Graceful tree with beautiful fern-like foliage. Bright golden-yellow flower heads. Grows to 6m.
<b>BAILEYANA PURPUREA</b>			Well-known ornamental tree. Foliage colour varies from purple to blue. Abundant yellow flowers in winter. Loved by the bees. Grows 5m.
<b>FLORIBUNDA</b>			Normally large bushy shrub or small tree. Pale cream flowers in long rods or fingers in great abundance. Willow-like habit, graceful & compact. Evergreen, grows 4 x 3 m.
<b>LIMELIGHT</b>			Mass of fresh, lime coloured foliage forming a tidy bun-shaped shrub. An excellent patio plant. Plant in well-drained soil, in full sun. Grows 80 x 80cm.
<b>PRAVISSIMA</b>			Makes a shapely, large shrub or small tree. Flower buds form in mid- winter, feathery flowers open slowly turning bright yellow producing a stunning effect. Plant in warm, sheltered spot. Grows 3-8m high x 3-7m wide.

## AGATHIS

Australian Kauri

<b>ROBUSTA</b>			The Australian kauri grows faster than native kauri and yields a similar timber. Well adapted to clay soils and wind.
<b>ROBUSTA CUNNINGHAMII</b>			

## ALNUS

# 2024 Evergreen Tree List

**VARIETY**                      ORDERED                      A3YS                      **DESCRIPTION**

<p>Alders have a distinctive rich glossy green leaf that is veined and softly serrated. The Alder flowers (catkins) arrive in the spring before the plants leaf up, and although a deciduous tree, the leaves of most of this species, remain on the tree for a long time.</p> <p>Alders will tolerate most conditions, including sea air and swampy conditions, and with their fast-growing habit they're a perfect tree for wind breaks, privacy and shelter.</p>			
<p><b>JORULLENSIS</b></p> <p>Mexican Alder</p>	<p>20SS</p>	<p>A3YS</p>	<p>Mexican Alder is a quick growing semi evergreen (in cold climates) tree with attractive serrated green leaves, grey bark and catkins. Perfect for wind-breaks, privacy or shelter. Easy to grow, trims well, timber can be used for fire-wood. Prefers sun and adequate moisture.</p>
<h2>EUCALYPUS</h2> <p>These trees have a pleasant smelling, antiseptic, highly flammable rich oil. The bark is a blue-grey colour and peels off in strips to reveal yellow patches, sometimes with a red resin – hence the name the gum tree. The fluffy flowers are enticing to bees and other pollinating insects. They prefer to grow in a spot with lots of sun and well drained soil. Some varieties can be grown in pots.</p>			
<p><b>BABY BLUE</b></p> <p>Florist Silver Dollar</p>	<p></p>	<p></p>	<p>Small evergreen tree with open spreading habit. Blue-gray rounded leaves. Grows 9m high x 6m wide.</p>
<p><b>BOTRYOIDES</b></p> <p>Bangalay Gum</p>	<p></p>	<p></p>	<p>Tall tree with solitary erect trunk found in damp coastal areas. Fast growing red timber. Needs moist soil. Small white flowers from Dec-Jan. Evergreen. Moderately frost tolerant. Grows to 20m high.</p>
<p><b>CINEREA</b></p> <p>Silver Dollar</p>	<p></p>	<p></p>	<p>Fast growing tree with silver leaves. Small white flowers in winter. Good nectar for birds &amp; bees. Will tolerate wet or dry, salt winds and frost. Ideal screen or windbreak, evergreen. Grows 10m x 6m wide.</p>
<p><b>FICFOLIA</b></p>	<p></p>	<p></p>	<p>A fast-growing specimen tree. Frost tender in first year. Spectacular orange-red masses of flowers in summer-autumn. Sunny well drained position. Grows 8-9m.</p>
<p><b>GUNNII</b></p>	<p></p>	<p></p>	<p>Large evergreen tree with peeling cream &amp; brown bark. Juvenile foliage bright glaucous blue &amp; rounded. Adult leaves elliptic or sickle shaped grey-green. Flowers white in small clusters. Grows 12m+.</p>

# 2024 Evergreen Tree List

VARIETY	ORDERED	A3YS	DESCRIPTION
<b>LEUCOXYLON ROSEA</b>			Medium sized spreading tree. Attracts tuis, bellbirds & bees. Hard durable timber. Drought tolerant, moderate frost. Pink to red flowers from May-Sep. Grows 15+ m
<b>LEUCOXYLON</b>			Popular evergreen Australian native. Small upright to spreading tree with smooth creamy-white new bark. Long grey-green leaves. Flower colour varies from cream to pale or deep pink or scarlet. Fluffy blooms from late Autumn/spring Grows 12m+ x 2-4m
<b>NICHOLII</b>			Quick growing shade tree. Ideal for single or multiple plantings. Does well in poor dry soils. Frost hardy, evergreen, 3m.
<b>NITENS</b>			Shelter & fuelwood tree. Very fast growing. Evergreen, frost hardy. Grows to 50m
<b>FRAXINUS</b>			
<b>GRIFFITHII</b> Evergreen Ash			Quick growing vigorous small tree. Evergreen except in cooler climates. The foliage is complemented by clusters of white flowers in spring. Grows well in most soils in sun-part-shaded position, drought & frost hardy. Ideal specimen for parks and large garden, useful street tree. Grows 7m x 3m.
<b>MAGNOLIA</b>			
There are both deciduous and evergreen magnolias – the evergreen types are a great way to add colour to a dull winter. There are new cultivars coming out every few years – developed for bigger blooms, beautiful foliage and superior hardiness. Do your research when selection what to grow because there are various sizes to choose from.			
<b>FAIRY BLUSH</b>	10THI		
<b>FAIRY CREAM</b>	5THI		
<b>FAIRY WHITE</b>	10THI		
<b>GRAND DD BLANCHARD</b>			Oversized glossy dark green leaves. Fragrant, enormous, white flowers at the end of spring. Grow in well-drained soil. Can grow to 15m.
<b>GRAND FERUGINEA</b>			Dense canopy of leaves, bright glossy green on top with coppery-brown undersides. Large snowy white scented flowers over the summer. Grows 6m high x 4m wide.

# 2024 Evergreen Tree List

VARIETY	ORDERED	A3YS	DESCRIPTION
<b>GRAND JADE EMPEROR</b>			A compact form of the evergreen Southern Magnolia. Glossy deep green foliage with a rich brown felt underside. Deliciously creamy flowers appear throughout the summer. Grows in most soils and situations. Hardy, grows 4m x 2m.
<b>GRAND KAY PARIS</b>			Beautiful dense tree. Small dark green glossy leaves with brow velvety underside. Creamy white fragrant flowers in May. Bright pink new growth. Grows 4 x 3m wide.
<b>GRAND RUSSET</b>			Fragrant white flowers throughout the year. Glossy green leaves with russet colour underneath. Great medium sized evergreen tree. Grows 5m in 10 years.
<b>GRAND TEDDY BEAR</b>			Compact & upright. Large creamy white flowers in spring through to summer are softly fragrant. Glossy dark green leaves with lovely bronze under-side. Evergreen, grows 4.5m x 3m.
<b>LITTLE GEM</b>			A compact form of the evergreen Southern Magnolia. Glossy deep green foliage with a rich brown felt underside. Deliciously creamy flowers appear throughout the summer. Grows in most soils and situations. Hardy, grows 4m x 2m.
<h2>MICHELIA</h2> <p>These 'cousins of the magnolia' are wonderful flowering trees however their flowers can be a bit shy, but their delightful fragrance, especially at night-time makes up for that. The glossy foliage is happy to be clipped into different shapes making them popular for topiary and hedges.</p> <p>Michelias prefer full sun to part shade, rich organic soil that is moist but free-draining. Responds well to being trimmed once flowering has finished.</p>			
<b>BUBBLES</b>			Forms a large shrub or small tree. Rounded bushy habit. Rich deep green foliage and fragrant cream shaded rosy purple flowers. Grows 4 x 4m.
<b>COCO</b>			A very attractive shrub with glossy green foliage and flowers that are larger than figo Port Wine. Highly scented, cream white in colour with burgundy edges to the petals that start to emerge in late Spring, early Summer. Plant individually as a feature or a background plant, as a specimen or may be used to form hedges and screens. Untrimmed it may grow to between 2.5m and 3m.

## 2024 Evergreen Tree List

VARIETY	ORDERED	A3YS	DESCRIPTION
<b>CHURCH MOUSE</b>	Dwf		'Church Mouse' is a lovely dwarf variety. While tidy and compact in foliage and growth habit, is profuse and abundant in its flowering. Deliciously fragrant white blooms smother the plant providing a show worth seeing and smelling. It reaches a height of 1m and a width of 70cm. This makes it ideal for a small garden space, patio area as well as container growing. For most of the year they are deep green and relatively dense in structure. Dropping it's foliage in winter.
<b>GRACIPES</b>	5THI		Evergreen, small compact, slightly arching shrubby bush. Glossy leathery rounded foliage. Lots of rich brown velvety flower buds open to highly scented creamy-white flowers in early spring. Upright tight growth habit.
<b>FIGO</b>			Evergreen rounded shrub or small tree. Glossy green, oval leaves. Richly fragrant brownish purple flowers are borne in spring and summer. Grows 2m.
<b>HONEY VELVET</b>	10THI		Beautiful cream flowers. Compact growth habit. Plant in full sun or part shade, protect from frost when young. Grows 2m high x 1.5m wide
<b>INSPIRATION</b>			Upright dense growth habit. Sweetly scented porcelain-like flowers bloom in spring. Grows 3m high x 1.5m wide.
<b>LEMON FRAGRANT</b>	10THI		Masses of creamy white, lemon scented blooms over long spring period. Smaller evergreen tree. Ideal for hedging, topiary or specimen. Hardy. Grows: 4m x 3m.
<b>LOVING MEMORY</b>			Small pillar shaped tree. Ivory-white blooms with light scent produced in profusion from mid-spring to early summer. Plant in fertile, well drained, acid soil preferred, sun or light shade. Grows 3m x 2m.
<b>MAUDIAE</b>			Large, pure white flowers. Lovely sweet scent in spring & autumn. Spectacular evergreen tree. Grows 4m in 10 years.
<b>MIXED UP MISS</b>			Highly scented evergreen shrub with glossy leaves and ivory cup-shaped flowers tipped with pink. Lovely tall hedging plant also as takes well to pruning. Grows 4m x 2.5m.
<b>PATON PINK</b>	10THI		Delightful evergreen with rich green foliage. Lovely tulip-shaped spring blossoms in shades of pink. Plant in sun or part shade & well drained soil. Grows 4m high x 3m wide.
<b>PRINCESS CINDERELLA</b>			Winter/spring flowering shrub & again in summer/autumn. Creamy white, lightly perfumed flowers. Grows 3m high x 2m wide
<b>PRINCESS CLEOPATRA</b>			Stunning rounded foliage. Bushy habit ideal for hedging or specimen. Masses of fragrant, creamy-white flowers in spring. Grows 3m high x 2m wide.

## 2024 Evergreen Tree List

VARIETY	ORDERED	A3YS	DESCRIPTION
