VARIETY

ORDERED A3YS

DESCRIPTION

CLIANTHUS

A striking garden shrub, with clusters of showy large red flowers along the branches in winter and spring. Great for birds. Will grow in most well-drained soils. Tolerates dry conditions once established. Frost tender.

ALBA WHITE			Magnificent evergreen native. Large glossy green foliage, deep red blooms. Attractive to birds. Frost tender, part shade, full sun. Height: 4m.
MAXIMUM RED			Magnificent evergreen native. Large glossy green foliage, deep red blooms. Attractive to birds. Frost tender, part shade, full sun. Height: 4m.
ROSEA PINK			Evergreen. Fast growing NZ native with long arching branches with green fern-like foliage. Lovely white flowers look like parrots beak in clusters in spring & summer. Prefers sun/part shade. Grows approx: 2m.

COROKIA

Corokias are reasonably frost hardy and can tolerate wind and coastal situations. They are sun lovers and are partial to well-drained, fertile soil. They respond well to pruning as this helps to maintain both the shape of the shrub as well as the density of the leaf growth. Leaves are small and leathery in most cases.

BABY PRINCE			Small twiggy NZ native, small brown leaves. In spring has masses of small yellow flowers, followed by red berries which birds love. Full sun, hardy, coastal tolerant. Height: 1.2m x 1m.
BUDDLEOIDES			Slender shrub. Clusters bright yellow starry flowers. Dark red berries ideal for birds. Grows approx: 3m.
CHEESMANII			Many branched slender shrub. Starry yellow spring flowers. Evergreen, frost hardy. Any soil/situation, ideal coastal. Height: 2.5m.
EMERALD JADE			Hardy native shrub with bushy habit & attractive coloured foliage. Small starry, yellow flowers are mildly fragrant followed by small yellow berries. Plant in full sun or part shade. Grows approx: to 3m H x 2m W.
FROSTED CHOCOLATE			Bronze to rich brown leaves. Colour intensifies in cold weather. Berries for the birds. Easy to grow in most situations. Frost hardy, evergreen. Grows approx: 1.2m.
GEENTY'S GHOST			Shining silver/grey foliage & compact habit. Grows approx: 2m.

VARIETY	ORDERED	A3YS	DESCRIPTION
GEENTY'S GIANT			Slender growing shrub. Green foliage turns bronze in winter. Starry yellow flowers in early summer followed by dark red berries. Ideal hedge, easy to grow. Grows approx: 2m H x 1m W.
GEENTY'S GREEN			Silvery-green medium to large leaves. Berries in summer. Ideal for birds in most soils & situations. Frost hardy, evergreen. Grows approx: 1.5m.
LITTLE PRINCE			Small yellow flowers & red berries. Slow growing. Hardy, prefers full sun. Grows approx: 1m x 1m.
PIP SQUEAK			A hardy native shrub with bushy habit & attractive coloured foliage. Small starry, yellow flowers are mildly fragrant followed by small yellow berries. Grows approx: 1m H.
RED WONDER			Fast growing erect shrub. Oblong deep green leaves, white beneath. Masses deep red berries in Autumn. Drought & cold hardy. Grows approx: 3m.
SILVER PRINCE			Ideal hedging plant. Leaves are small with a silver-grey tinge & dense foliage. Low maintenance. Very hardy, evergreen. Grows approx: 1.2m H x 75cm W.
<h2 style="margin: 0;">COPROSMA</h2> <p>MIRROR BUSH. There is a Coprosma for every landscape purpose, from groundcovers to specimen shrubs, hedging and shelter. They are a very tolerant group of plants, adaptable and hardy, will grow in sun or shade and don't mind much about their soil conditions. They are low maintenance, quick growing, hardy and will benefit from a pruning in winter.</p>			
CAPPUCHINO			Small twiggy NZ native, small brown leaves. In spring has masses of small yellow flowers, followed by red berries which birds love. Full sun, hardy, coastal tolerant. Height: 1.2m x 1m.
EVENING GLOW			Golden summer foliage changes to rich orange & deep red shades in Autumn & Winter. Protect from harsh frost. Grows approx: 1.5 x 1.5m.
GOLDEN GLOW			Golden tones with splashes of lime green & orange which intensify in winter. Excellent for general garden planting, small hedges, group plantings & pots. Plant in sun or part shade, likes well drained soil, sever frost – tender. Grows approx: 1m x 1m.
HAWERA			Hardy native groundcover. Small narrow green leaves. Forms tight mat close to ground. Plant in full sun, very hardy. Grows approx: 30cm x 1m.
HOT CHOCOLATE			Small growing shrub. Strongly coloured chocolate brown leaves. Fast growing, forms rounded shrub. Grows approx: 2m H x 1.5m W.
IGNITE			Foliage is lime green edged in red, as weather cools the colours change to brilliant pinks & deep red. Excellent for general garden planting, hedges, and group plantings. Plant in sun or part shade. Grows approx: 1.5 x 1.5m.

VARIETY	ORDERED	A3YS	DESCRIPTION
INFERNO			Foliage is lime green edged in red, as weather cools the colours change to brilliant pinks & deep red. Excellent for general garden planting, hedges, and group plantings. Plant in sun or part shade. Grows approx: 1.5 x 1.5m.
KARO RED			Outstanding new coprosma. Compact habit. Black/red foliage. Ideal specimen for patios. Easy to grow & reliable. Grows approx: .5 H x 1.2m W.
LEMON 'N LIME			Lime green & bright yellow summer tones intensify in the winter to deeper yellows with touches of orange. Excellent for general garden planting small edges and group plantings. Ideal container plant. Easy to grow and suitable for coastal. Frost tender, Grows approx: 1.5m x 1m.
MARBLE QUEEN			Striking evergreen shrub. Shiny green leaves marbled with splashes of creamy white. Grows approx: 1.5m W x 2m W.
MINI MAC			Native. Bushy small coprosma. Deep green, luxurious foliage. Great in pots or for hedging. Grows approx: 50cm.
PACIFIC SUNSET			Striking evergreen shrub. Vivid red foliage with burgundy/chocolate brown markings. Excellent contrast plant, Upright mounding habit. Grows approx: 1m H
PROSTRATA			Vigorous groundcover. Small green leaves, tiny white flowers in Spring. Forms dense spreading mound. Suits most soils. Ideal coastal, tolerates dry & wind. Spreads up to 1.5m.
RED ROCKS			Evergreen, hardy, small rounded, semi-erect growing landscape plant. Handsome reddish-brown glossy leaves which deepen in winter. Quick and easy to grow. Useful groundcover. Frost hardy, coastal & trimmable. Grows approx: 1m x 1.5m W.
TAIKO			Tiny green glossy leaves. Spreading, rounded growth habit & easily grown. Plant in hot dry sunny position. Frost hardy, evergreen. Grows approx: 1m.
<h2>DODONEA</h2> <p>AKE AKE. Small hardy trees that are useful for shelter or erosion control. Quick growth & excellent on coast. Common in coastal and lowland districts. Tolerate dry, clay, salty or sandy soils; wind and sun.</p>			
VISCOSA GREEN			Deep green foliage, reddish flowers. Ideal for single & multiple plantings. Easy to grow in most soil/situations. Ideal hedge. Frost hardy, evergreen. Grows approx: 3m H X 3m W.
VISCOSA PURPUREA			Purplish foliage. Reddish flowers. Ideal for single & multiple plantings. Easy to grow in most soil/situation. Frost hardy, evergreen. Grows approx: 3m H X 2.5m W.

VARIETY ORDERED A3YS **DESCRIPTION**

GRISELINEA

Griselinia's do well in just about any conditions including wind, cold, sun or part shade. Extreme harsh frost and a permanently soggy, wet soil will probably cause them to sulk a little but even under those conditions, the plants are amazingly tolerant. A popular hedging plant being quick to establish, don't mind being trimmed regularly (though this is best done in summer) and stay looking tidy.

BROADWAY MINT			Deep green foliage, reddish flowers. Ideal for single & multiple plantings. Ideal hedge. Frost hardy, evergreen. Grows approx: 3m H X 3m W.
CANTERBURY			New griselinia with smaller leaves and red stems on the new growth. Easy to grow. Ideal for hedging, screening & coastal planting. Grows approx: 2.5m H x 1.5m W.
GECKO GREEN			Newer more compact with dense foliage, smaller leaves. Very tidy growth habit. Glossy rich green leaves, stems & shoots. Grows approx: 2m H X 1.5m W.
LUCIDA			Attractive large thick oval glossy green leaf. Fruit ripens to dark purple colour in Autumn. Plant in sun or semi shade, frost tender, tolerates dry & wind. Grows approx: 5m H x 2m W.
LITTORALIS			Evergreen. Tidy, well groomed & dense bush. Rich deep green leathery leaves. Simple elegant beauty for screens, backgrounds, avenue planting etc. Frost hardy, full sun, NZ native. Grows approx: Grows approx: 3m H X 2.5m W.
LITTORALIS VARIEGATA			Ideal for hedging, single & multiple planting. Any average soil or situation. Frost hardy evergreen. Grows approx: Grows approx: 2.5m H X 2.5 W.

HEBE

There are approx. 100 species of Hebe, most of which are native to NZ and range in habit from shrubby, tree-like, sprawling and compact. Flowers smother the shrub in spring or summer and some species repeat their flowering period during a single season. Best suited to temperate climates but most tolerate both sun or shade. They like moist but well-drained soil and the broad-leafed types respond well to a trim once they have finished flowering. They do tend to get a bit woody if left untrimmed and although they will continue to flower, they will develop a straggly appearance so cutting back is a good idea.

The bigger-leafed species are more susceptible to frost and need some protection, especially when young. Some small leaf varieties which have compressed, scale-like leaves resembling conifers don't tolerate intense heat and humidity so are better planted in the southern regions.

ALBICANS			Evergreen, hardy shrub. Flowers in summer. Grow in full sun-part shade. Grows approx: Grows approx: 50cm H x 50cm W.
-----------------	--	--	--

VARIETY	ORDERED	A3YS	DESCRIPTION
BOULDER LAKE			Easily grown. Stands wind & poor soil. Rounded bush 1m each way. Lavender flowers at branch tips spring/summer. Hardy.
CHAMPION			Textural foliage, compact shrub. Bright blue/purple flowers cover in summer. Hardy to cold & coastal condition. Easy care, PVR protected. Grows approx: 5m H x .5m W.
CUPRESSOIDES			Hardy, native shrub. Beautiful pale lilac flowers. Excellent for mass planting on banks, rockeries & alpine gardens. Grows approx: 1m H x 1 m W.
DECUMBENS			Low growing, open shrub. White flowers in dense bunches in early summer. Easy to grow, hardy, evergreen. Grows approx: 50cm H x 50cm W.
DIO MAUVE			Tidy & low growing. Pale lavender winter/spring flowers. Frost hardy evergreen. Grows approx: 1m x 1m.
DIO MINOR			Very attractive prostrate spreading bush. Pale lavender flowers at various times of year. Very hardy, trim after flowering. Prefers well drained soil. Height: 50cm H x 80cm W.
DIOSMIFOLIA			Tidy & low growing. Pale lavender winter/spring flowers. Frost hardy evergreen. Grows approx: 1m H x 1m W.
EMERALD GEM			Small compact hebe. Tiny bright green leaves, white flowers. Cold hardy. Great foliage shrub. Grows approx: : 40cm H X 40cm W.
ICING SUGAR			Compact evergreen bush. Leaves are mid-green spear-shaped red-edged. Flowers are pink fading to white in summer. Grows approx: 1m H x 1m W.
INSPIRATION			Hardy, ideal coastal. Glossy green foliage. Deep mauve flowers appear in summer. Full sun or light shade. Height: 75cm H x 75cm W.
LAVENDER SPRAY			Exceptionally attractive prostrate hebe. Stunning lavender flowers spring to summer. Fast growing spreading plant. Grows approx: only 20cm H.
MARY ANTOINETTE			Low growing spreading bushy shrub. Dark green leaves are spear-shaped. Long flowers are red-purple fading to white in late spring to summer. Grow in sun or semi-shade. Grows approx: 1 x 1m.
MARGARET			Very tidy and compact hardy evergreen. Small olive green foliage looks good all year. Masses mauve-blue flowers. Flowers through late spring and summer. Trim spent flowers to encourage more flowers. Grows approx: 60cm H X 60cm W.
ODORA			Hardy, rounded evergreen. Dark glossy green foliage above, paler beneath. White or pale pink flowers in spring & summer. Copes well in coastal climates & wet soil. Grows approx: 50cm - 1m.
PARVIFOLIA			Large growing rounded shrub with narrow leaves. Racemes of white to pale lilac flowers in profusion in summer. Grows approx: 2-4m H, trimmable.

VARIETY	ORDERED	A3YS	DESCRIPTION
PRETTY 'N PINK			New release. Rich green foliage with burgundy tips. Nice compact plant. Colours deepen in the winter. Pale pink flowers through the summer. Grows approx: 30cm x 80cm.
RED EDGE			Low mound forming spreading evergreen. Red margined leaves. Lilac blue spring/summer flowers. Frost hardy, any soil, sun or shade. Trim to shape. Height: 45cm H x 30cm W.
RIGIDULA			Forms an erect, low-growing, bushy, evergreen shrub. White flowers in summer. Grows approx: 40cm H.
SNOWFALL			Upright, evergreen bushy shrub. Masses of white flowers in summer. Easy to grow in most situations. Grows approx: 2m H x 1.5m W.
SUTHERLANDII			Neat, low-growing compact shrub. Small grey-blue leaves. Profuse white flowers. Tolerates dry conditions. Evergreen, frost hardy. Grows approx: 50cm H x 50cm W.
TOPIARIA			Excellent ball-shaped well-groomed shrub. Leaves blue grey 12mm long. Flowers white in Nov & Dec. Frost hardy evergreen. Ideal for rock gardens & groundcover. Grows approx: 90cm x 75cm.
TURKISH DELIGHT			New release. Deep purple/bronze foliage. Dainty mauve/blue flowers in spring and summer. Reliable small shrub, plant in sun or partial shade. Grows approx: 90cm H x 90cm W.
WAIRAU BEAUTY			Narrow fresh green foliage looks good all year. Dainty sprays of pale mauve to white flowers, Spring to Summer. Prefers sun, well-drained soil. Compact evergreen. Grows approx: 1m x 75cm.
WIRI CLOUD			Compact grower. Deep pink spring/summer flowers. Frost hardy evergreen. Grows approx: 1m H x 1m W.
WIRI GEM			Rose purple flowers make a fantastic display through cool months. Very neat, tidy shrub with symmetrical shape. Trim spent flowers to encourage repeat flowering through year. Height: 1m x 75cm.
WIRI MIST			Evergreen, compact spreading shrub. Spear-shaped green leaves. White flowers in summer. Grows approx: 50cm x 30cm W.
REGAL SERIES HEBES. The Regal Series has been bred in the Waikato and is a selection of low growing evergreens that flower over a long period of time.			
CHARLOTTE			Glossy green foliage. Pretty pink flowers in summer. Hardy NZ native. Compact upright. Grows approx: 75cm H x 75cm W.
ELIZABETH			Compact grower. Masses of deep magenta pink flowers in summer. Attracts bees and butterflies. Grows approx: 40cm H x 40cm W.
GEORGE			Glossy green foliage. Masses of royal blue flowers in summer. Compact upright growth. Grows approx: 75cm H x 75cm W.

VARIETY ORDERED A3YS **DESCRIPTION**

KUNZEA

KANUKA. *Leptospermum ericoides*, known as Kanuka. Grows into a small tree up to 12m or more. Kanuka has much smaller flowers compared to Manuka.

ERICOIDES			Evergreen, hardy shrub. Flowers in summer. Grow in full sun-part shade. Grows approx: 50cm H x 50cm W.
------------------	--	--	--

LEPTOSPERMUM

MANUKA/TEA TREE. Popular for many uses in landscaping – grouped for hedging, single for colour, pruned to shape for a standard and the foliage & flowers are great for vases. Light pruning from a young age and each year after flowering is recommended to retain their bushy habit. The nectar from the flowers is harvested by bees and makes a yummy and highly beneficial honey. Best suited to well-drained soil in full sun, but some will tolerate wet and shady conditions.

BLOSSOM			Double pink blooms in autumn & spring. Ideal for screens, hedges. Easy to grow. Height: 1.5m
BURGUNDY QUEEN			Masses double deep red flowers. Flowering winter/spring. Attractive reddish foliage. Grows approx: in most situations. Prefers full sun. Grows approx: 2m.
CORAL CANDY			Hardy colourful small bushy tree. Aromatic foliage on erect branches. Loved by the bees. Grows approx: 2m.
CRIMSON GLORY			Double rose-red flowers. Deep green needle-like foliage. Grows approx: 2.5m H.
DONNA			Masses single crimson winter & spring very showy flowers. Ideal screen. Neat and compact growth. Grows approx: 1.2m
ELECTRIC RED			Vibrant red flowers. Protect from harsh frost when young. Height: 2.5m x 1m.
JOAN			Masses rich red double flowers. Flowering winter/spring. Ideal screen, Grows approx: neat & compact. Grows approx: in most situations. Prefers full sun. Grows approx: 1.5m.
KEA			Hardy colourful low growing shrub. Aromatic foliage. Dark green leaves. Exquisite large single pale pink flowers in late winter & spring. Grows approx: 30 x 30cm.
KIWI			Single red flowers in spring – summer. Very compact grower. Good rockery plant. Grows approx: 45 x45 cm.
PRINCESS ANNE			Large double white winter & spring very showy flowers. Ideal screen, neat & compact. Ideal coastal. Grows approx: 1.5m.

VARIETY	ORDERED	A3YS	DESCRIPTION
RED FALLS			Stiffly branching prostrate form with weeping branches of reddish foliage. Large single red spring flowers. Grows approx: 1.5m W x 1m H.
SCOPIARUM			Fast growing tree with small, scented leaves & single white flowers. Attractive to bees being the nectar source for the highly valued anti-bacterial manuka honey. Avoid heavy frosts. Grows approx: 4m when mature.
SHELLY			Masses rich single pink flowers. Flowers in winter & spring. Grows approx: in most situations. Grows approx: 1.5m.
WHITE CASCADE			Native shrub with prostrate growth. Ideal for rock gardens or over walls. White flowers. Grows approx: 60cm H x 90cm W.
AUSTRALIA NATIVE LEPTOSPERMUM			
COPPERSHEEN			Deep bronze glossy green leaves. Single greenish-yellow flowers. Fast growing, ideal screen. Grows approx: in most situations. Grows approx: 1.5m+ H X 1.5m W.
MAGELLAN			Compact, bushy habit. Bronze new growth Grows approx: darker with maturity. Bright lolly pink flower petals with tinge of mauve, Grows approx: 1.5m.
MERINDA			Soft bronze-green foliage. Mass of large rich pink flowers in spring. Grows approx: 1m H x 2m W.
MESMER EYES			Medium sized shrub. Large flowers open white & change to pink as they age.
OUTRAGEOUS			Medium-tall with drooping branches. Abundant deep red flowers in spring. Fast growing suits most soil types. Attracts birds, ideal for screens. Grows approx: 2m x 1.5m.
PHOENIX			Large deep mauve flowers in mid to late spring. Nice compact shrub. Grows approx: 2m x 1.5m W.
MUEHLENBECKIA			
<p>These can be grown as a vine, shrub, clipped topiary or bouncy groundcover, creating interesting structure and texture in a garden. There are 24 species of muehlenbeckia - five which are endemic to New Zealand.</p>			
AXILLARIS			Creeping Pohuehue. Good groundcover. Forms a tight low-lying mat with small dark green leaves and has creamy-white flowers. A good option for banks as its stems & branches that form underneath the surface help to bind soil. Grows approx: 1m H X 1m W.
COMPLEXA			Hardy vigorous semi-deciduous twining native vine. Small round leaves and small cream flowers. Forms a dense mound up to 2m W. In the forest it Grows approx: up trees - climbing to around 5m. Forms a great nest/shelter for birds.

VARIETY	ORDERED	A3YS	DESCRIPTION
<h1>OLEARIA</h1>			
<p>TREE DAISY. Tolerates dry and windy conditions making them particularly useful for when shelter is needed in difficult situations. They have interesting tones of lighter greens, blue green, and silvery and become covered in masses of small daisy flowers throughout spring and summer. Olearias also have rough rustic looking bark, giving them a very tough and rugged look.</p>			
PANICULATA			<p>GOLDEN AKE AKE. Excellent shelter, screen or hedge with interesting colours and wavy leaves. Flowers in autumn are inconspicuous but fragrant. Very tolerant of coastal conditions. Hardy evergreen. Thick leathery oval 50-100mm leaves with wavy margins are lemon green. Grows approx: 3m H x 1.5m W but easy to trim.</p>
TRAVERSII			<p>CHATHAM ISLAND AKE AKE. Rapidly growing hardy tree. Suitable for shelter purposes. Tall narrow growth form. Grows approx: 4m x 2m.</p>
<h1>PITTOSPORUM</h1>			
<p>Pittosporums are useful in many landscape situations – feature plants, hedges, screens, windbreaks, shrubberies or topiary specimens. They are tolerant to trimming and always look tidy. Although hard to see they do have flowers and the perfume fills the air from September to December. They are very tolerant but prefer fertile, well-drained soil that does not completely dry out in summer. They are fast growers so establish quickly and benefit from a feed once a year in spring.</p>			
CRASSIFOLIUM			<p>Forms a large shrub or small tree. Dark green leathery leaves. Flowers are dark crimson to purple, in spring throughout mid-summer. Grows approx: 3m H x 2m W.</p>
EUGENOIDES			<p>One of the largest NZ native pittosporums. Glossy, pale green oblong leaves. Richly scented pale-yellow flowers occur from Oct to Dec. Highly desirable tree, very hardy, Grows in the poorest soils. Grows approx: 5m H x 3m W.</p>
FRANKIE'S FOLLY			<p>New selection. Compact rounded habit & attractive lime green leaves. Ideal for small gardens & topiary. Grows approx: 70 x 70cm.</p>
GOLD STAR			<p>Star like pattern on gold leaves. Evergreen with compact busy habit. Versatile, popular & hardy shrub. Ideal for hedges, screens, or tubs. Grows approx: 1.5m x 1.5m W.</p>
GOLDEN BALL			<p>Compact, bushy, rounded shrub. Black stems and glossy foliage. Grows approx: 1.2m x 1.2m.</p>
GREEN BALL			<p>Rounded compact, tidy shrub. Specimen planting, low hedge's, tub, patio. Full Sun - Part Shade. Grows approx: 1.3m x 1.3m.</p>
JADE			<p>Clear jade-green oval leaves which contrast well against the darker stems. Grows approx: 1.5m H X 1.5m W.</p>

VARIETY	ORDERED	A3YS	DESCRIPTION
LIGHTEN UP			Delightful fine confetti foliated matipo with gold centred deep green leaves. Grows approx: 1.5m H X 1.2m W.
LIMELIGHT			Bushy erect grower with a pyramidal form and red stems. Small glossy green leaves have lime-yellow centres. Bright purple flowers in spring that scent the air. Grows approx: 3m H x 2m W.
MOUNTAIN GREEN			Evergreen, upright, compact bushy habit. Popular, versatile & hardy shrub. Small rounded mid green leaves show off black stem. Grows approx: 3m H x 1.5m W.
MOUNTAIN JADE			NEW bushy small leaved pittosporum. Elegant mid green foliage with a soft lime green edge. Grow in well-drained soil in full sun to light shade, trimmable. Smart tight upright habit. Grows approx: 2m H X 2m W.
OLIVER TWIST			Fantastic variety of pittosporum. Attractive small glaucous foliage. Very compact and tidy grower. Grows approx: 2m H x 1m W.
SILVER BALL			Versatile little plant which forms a dense rounded ball of shimmering silver green foliage that seldom needs clipping. Looks fabulous group planted or makes a natural topiary specimen for court-yard containers. Grows approx: approx. 60cm H x 60cm W.
SILVER SHEEN			Upright loose habit. Tiny rounded pale green shimmering leaves on ebony-black stems. Grows approx: 3m H x 1.5m W.
STEPHEN'S ISLAND			Sturdy & bushy grower with fragrant small black flowers. Grows approx: 3m H x 2m W.
TANDARA GOLD			Erect, pyramidal form with black branches and stems. Small leaves are prominently splashed gold and purple spring flowers. Grows approx: 3m x 1.5m.
TASMAN RUFFLES			Small, rounded and wavy lime green foliage on dark stems. Grows approx: 3m x 2m.
TEN VARIEGATA			Extremely attractive variegated shrub with warm cream & white edged leaves. Young shoots & new leaves are felted. Flowers in spring & are a rich burgundy colour. Grows approx: 2m H X 2m W.
TENNIFOLIUM			Small evergreen tree. Wavy silvery green, glossy leaf. Flowers are scented at night. Attractive to bees & birds. Grows approx: to 10m H X 3m W.
WENDELL CHANNON			Attractive compact, rounded variety. Light grey-green with a creamy edge. Small chocolate purple honey scented flowers in spring & summer. Grows approx: 2m H x 1.5m W.
WRINKLE BLUE			Tall & colourful pyramidal shape. Fast growing, wavy blue-green leaves. Height: 5m H X 3m W.
