

Island lights™

• DOMESTIC CATALOG 2022-2023 •

A tropical outdoor pool deck at sunset. In the foreground, a tall, woven torch-style light fixture with a flame at the top stands on the left. The pool deck is made of wooden planks, and the water in the pool reflects the warm sunset sky. Palm trees and other tropical plants are visible in the background. A green semi-transparent banner is overlaid on the right side of the image, containing the text "AMBIENCE + PROTECTION".

AMBIENCE + PROTECTION

CITRONELLA

Citronella fuel is America's #1 torch fuel. Today, many consumers are looking for chemical-free, natural insect repellents because they are concerned about the possible health and ecological impact of pesticides. Natural products like Citronella oil or Cedar oil used outdoors help keep mosquitoes, black flies, horse flies, deer flies or any pheromone driven insect away without toxic effects. Our fuel is made in the U.S.A.

ILLUMINATION

Torches and candles can light your outdoor space in wonderful ways while instantly creating ambiance.

SIMPLICITY

Torches and candles are easy to light and last for hours without having to refuel. The torch canisters are easy to refill with Island Lights™ brand fuel. Torches can be placed anywhere by easily pushing poles into the ground, or by using our torch deck mounting bracket, Envirostone™ torch base, or metal torch stakes.
