## Pleasant Hearth Products

Pleasant Hearth products offer the finest in heating products, fireplaces and more. We craft each item with your personal needs in mind.

## For more than 35 years

Pleasant Hearth has been a high-quality name in the industry for fireplaces and indoor heating products for more than 35 years. Our products are built to last with attention-to-detail craftsmanship and innovation. We now offer the latest in modern plus traditional styling with our gas inserts, vent-free fireplaces, open hearths and glass doors/accessories.

We want to make your home a place where you and your family feel the warmth of life and love. We value our customers and are committed to creating a lasting relationship. As an industry leader, we will continue to provide products of exceptional quality

**Pleasant Hearth’s wide selection of fireplaces, stoves, and fireplace accessories, makes it easy to create the warm, comforting space you want.**

# WOOD STOVES

# WOOD STOVES

Wood stoves are great for those that may not have access to utilities and need a primary source of heat, those that are looking for a low-cost source of energy, or those looking for a cleaner, greener source of heat. They're also good for those looking for a supplementary heat source or who want to add the ambiance of a wood burning fireplace. Some wood stoves also work well to heat a small space like a mobile home.

Wood stoves are a convenient way to add a heat source to your home. They can be used as primary or supplemental heat sources and are highly efficient.

An ideal way to add efficient heat to the home without the added construction that comes with installing a fireplace or gas burning heat source.

A wood stove is almost ready for use out of the box, however, a stove pipe must be installed. Place the wood stove on a noncombustible surface, connect the stove pipe, and the wood stove is ready to use. Once connected, the wood stove is ready to heat your space immediately with no further construction necessary. This is a very easy way to add an efficient heat source to any space.

# FEATURES OF A WOOD STOVE

## All Pleasant Hearth wood stoves come with:

Heavy duty steel construction, painted in an all-black finish.

Automatic Airwash

EPA Certification

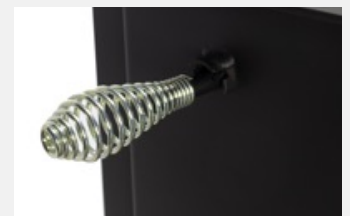

5 Year Warranty

Brick lined firebox protects the stove and maintains heat

Front-loading solid cast iron door with large ceramic glass window

Chrome handles

 Blower included  
 Item # HWS-2200  
 25.5" L x 27" W x 31.9" H

# **VENT-FREE GAS STOVES**

## VENT-FREE GAS STOVES

Great for replacing an existing gas stove or other gas heating unit, or for adding a gas stove to an existing space that does not need a traditional chimney to function. The gas stove is easy-to-install without having to do any significant construction. You only need a gas line.

Vent-free gas stoves are a convenient way to start a fire and add supplemental heat to your home. Get the ambiance of having a fire in your home that you do not get from a standard wall heater.

Upgrade an existing gas stove. Or if installing new, add ambiance and supplementary heat just by turning it on. Add the charm of a wood stove while avoiding venting issues, or the work of building a fire. Gas stoves take up less space than other gas heating options while still adding ambiance.

Once installed, a vent free gas stove provides a warm, beautiful fire at the press of a button. Thermostatic control means the heat level can be maintained. Enjoy the look and feel of a wood stove with little to no effort involved once installed.

### Advantages of Vent-Free Gas Stoves:

- Easy to install if a gas line already exists
- No chimney required
- No mess to clean up; no ash, etc
- No fire to tend; no need to reload logs or tend a fire
- Immediate gratification: Heat and ambiance from the minute the fire is lit
- Realistic logs always look beautiful in the fireplace
- Thermostatic control to maintain a chosen temperature

### What's needed to use Vent-Free Gas Stoves:

- A natural gas or propane gas line

## VENT-FREE GAS STOVE FEATURES

---

Dual fuel technology allows the unit to be operated with Propane or Natural Gas.

Dual burner system provides two rows of flames for a layered flame effect.

Thermostat control knob automatically maintains your ideal heat level.

Push button electronic ignition.

Hand painted ceramic logs inspired by nature.

## DUAL FUEL VENT FREE GAS STOVES

Warm up your interior with one of our black Pleasant Hearth vent-free gas stove. The thermostat control lets you set heat settings, then automatically maintains that temperature. Dual fuel technology enables operation with propane or natural gas, and the electronic spark ignition makes it easy to light. For safety, it features an oxygen depletion sensor that shuts down the unit if oxygen is depleted.

### 23.5" DUAL FUEL COMPACT VENT FREE GAS STOVE

**DETAILS**

Item # VFS2-PH20DT  
 20,000 BTUs heats up to 700 sq. ft.  
 23.5" L x 12.99" W x 25.47" H

### 32" DUAL FUEL INTERMEDIATE VENT FREE GAS STOVE

**DETAILS**

Item # VFS2-PH30DT  
 30,000 BTUs heats up to 1,000 sq. ft.  
 31.93" L x 14.37" W x 28.27" H

# VENT-FREE GAS FIREPLACES

## VENT FREE GAS FIREPLACES

Great for replacing an existing gas fireplace or other gas heating unit. Or for adding a gas fireplace to an existing space that does not need a traditional chimney to function. Easy installation if there's already a gas line.

Vent free gas fireplaces are a convenient way to start a fire, add ambiance, and add supplemental heat to your home.

Vent free fireplaces have the functionality of a gas wall heater with the ambiance provided by a wood burning fireplace. This gives you the best of both worlds. Add a new fireplace while avoiding any construction projects with a mantel unit.

Once installed, a vent free fireplace provides a warm, beautiful fire at the press of a button. Thermostatic control means the heat level can be maintained. Enjoy the look and feel of a wood burning fireplace with little to no effort involved once installed.

### Advantages of Vent-Free Fireplaces:

- Easy to install if a gas line already exists
- No chimney required
- No mess to clean up; no ash, etc
- No fire to tend; no need to reload logs or tend a fire
- Immediate gratification: Heat and ambiance from the minute the fire is lit
- Realistic logs always look beautiful in the fireplace
- Thermostatic control to maintain a chosen temperature

### What's needed to use Vent-Free Fireplaces:

- A natural gas or propane gas line

## CHOOSING THE CORRECT FUEL SOURCE

---

These vent free fireplace systems function on Natural Gas or Liquid Propane only. It's important to determine the fuel source so you can select the correct fireplace system. With Pleasant Hearth vent free fireplace systems, enjoying the warmth and beauty of a fire has never been easier. Time-tested vent free technology does not require a flue or chimney.

## CHOOSING THE CORRECT SIZE

---

Available in three sizes and three finishes, Pleasant Hearth vent free fireplace systems suit any decor. With a minimum clearance design with the option of a wall or corner installation, they are easy to install almost anywhere.

46" FULL SIZE

42" INTERMEDIATE

36" COMPACT

## FEATURES OF VENT FREE GAS FIREPLACES AND FIREPLACE INSERTS

---

Dual burner system provides two rows of flames for a layered flame effect.

Oxygen Depletion Sensor (ODS): Turns the unit off when low oxygen levels are detected.

Push button ignition and thermostat control knob to automatically maintain your ideal heat level.

99.9% Efficient: Reduces consumer energy cost by efficiently heating the space.

Ceramic logs inspired by nature.

# **VENTED AND VENT FREE GAS LOG SETS**

# VENTED AND VENT FREE GAS LOG SETS

Great for replacing gas logs in an existing fireplace, converting a wood burning fireplace into a gas burning fireplace (vented or vent free), or building a brand-new gas burning fireplace using a zero-clearance firebox and gas logs (vent free only).

Vented and vent free gas log sets are a convenient way to start a fire. They provide immediate heat, don't give off smoke or make a mess, and the impart look and feel of a realistic-looking fire.

Upgrade an existing log set with a better look or upgraded features. Or, if converting a wood burning fireplace or putting in a new zero clearance firebox, get the convenience of gas heat instead of the hassle of wood-burning.

Once installed, use the match lit or electric start ignition to light a fire whenever you want, getting immediate heat and beautiful ambiance.

## Advantages of Gas Logs vs Wood Burning Fireplaces:

- No mess to clean up; no ash, etc
- No fire to tend; no need to reload logs or tend a fire
- Immediate gratification: Heat and ambiance from the minute the fire is lit
- Realistic logs always look beautiful in the fireplace, whether when you first turn on the log set or are shutting them down for the night.

## What's needed to use Gas Logs:

- A converted wood burning fireplace with a natural gas or propane line
- An installed zero clearance firebox with a natural gas or propane line
- A previous fireplace that used gas logs that are just being replaced

## VENTED GAS LOG SET FEATURES

Lava rocks to radiate heat and additional décor and ambiance

Uses Natural Gas fuel (Convertible to LP using a safety pilot LP Conversion Kit - Sold Separately). No electricity required allows for reliable back-up heating in case of an emergency situation.

Match light; Just turn on the NG pilot and then light the gas

Dual burner system provides two rows of flames for a layered flame effect

Hand painted ceramic logs inspired by nature

Clamp to keep damper open for adequate ventilation

Conversion kit can provide an electric start ignition with or without remote control (sold separately)

## VENTED GAS LOG SETS

Decorative Vented Gas Logs simulate a natural wood burning fireplace without the hassle or mess of a real wood burning fireplace. There's minimal assembly required, and they are easy to install. Have a real fire in minutes. Just turn on the gas and light a match to start! These run on natural gas, but with a conversion kit (sold separately) they can be run on liquid propane. Included accessories include reflective vermiculite, glowing ember fibers and decorative lava rock to add to the ambiance.

## ARLINGTON ASH FINISH VENTED GAS LOG SETS

### 18" GAS LOG SET

Item # VL3-AA18D  
45,000 BTU's  
18" L x 14" W x 17" H

### 24" GAS LOG SET

Item # VL3-AA24D  
55,000 BTU's  
24" L x 13.25" W x 16.75" H

### 30" GAS LOG SET

Item # VL3-AA30D  
65,000 BTU's  
30" L x 14" W x 18" H

## VENT-FREE GAS LOG SET FEATURES

Lava rocks to radiate heat and additional décor and ambiance

Dual fuel technology allows the unit to be operated with Propane or Natural Gas. No electricity required allows for reliable back-up heating in case of an emergency situation. Oxygen Depletion Sensor automatically shuts off if there is not enough fresh air for safety.

Electronic push button ignition

Dual burner system provides two rows of flames for a layered flame effect

Hand painted ceramic logs inspired by nature

Thermostatic Heat control maintains a desired room temperature

Conversion kit can provide an electric start ignition with or without remote control (sold separately)

## VENT-FREE GAS LOG SETS

Decorative vent-free gas logs provide the look and appearance of a real fire without all the work! Time-tested vent-free technology means these can be installed in a fireplace with or without a flue or chimney. Powered by either natural gas or liquid propane, just turn them on with the touch of a button. With thermostatic control, you can keep the fire burning at your optimal temperature. Enjoying the warmth and beauty of a fire has never been easier.

## SOUTHERN OAK FINISH VENT-FREE GAS LOG SETS

# VENTED AND VENT FREE ACCESSORIES

## VENT-FREE GAS FIREPLACE BLOWER

Bring more warmth into your room with Pleasant Hearth's Vent Free Fireplace blower. Operate the blower on manual mode if you'd like your blower always ON. Operate on AUTO MODE if you'd like your blower to operate in conjunction with the heat coming from the fireplace. It will switch off when the fireplace cycles off according to the temperature setting. Designed and certified to operate only with Pleasant Hearth Vent Free Fireplace Systems.

### DETAILS

Improve whole room heating with this 2-in-1 mode fan. Includes power supply (6' Cord Length), and all necessary wiring. Item # GFB100

9.75" L x 3.75" W x 10" H

Compatible with VFF-PH20NG, VFF-PH20LP, VFF-PH20NG-C1, VFF-PH20LP-C2, VFF-PH20NG-2T1, VFF-PH20LP-2T2, VFF-PH26NG-2H1, VFF-PH26LP-2H2, VFF-PH26NG, VFF-PH26LP, VFF-PH26NG-T1, VFF-PH26LP-T2, VFF-PH32NG-H1, VFF-PH32LP-H2, VFF-PH32NG-2C1, VFF-PH32LP-2C2, VFF-PH32NG, VFF-PH32LP

## STOVE BLOWER

Improve heat distribution from your Pleasant Hearth Vent Free Stove or Wood Burning Stove with Pleasant Hearth's Stove blower. The variable speed operation allows adjustable heat distribution. This blower is not thermostatically controlled. Designed and certified to only operate with Pleasant Hearth vent free stoves or wood burning stoves.

### DETAILS

Improve whole room heating with this blower. Includes power supply (6' Cord Length), and all installation hardware.

Item # PBAR-2427

9.75" L x 3.5" W x 4" H

Compatible with GWS-1200, HWS-1200-B, GWS-1800-B, WSL-1800, WSL-2200-B, HWS-2200, VFS2-PH20DT, VFS2-PH30DT

## VERMICULITE, 4 OZ.

When it comes to getting the most out of your Vented Gas Fireplace set, Pleasant Hearth Vermiculite provides many features of a wood-burning fire that cannot be achieved from a gas log set alone. Vermiculite helps spread gas evenly throughout the entire burner pan for a more full flame pattern and well fueled fire. Pleasant Hearth Vermiculite doubles as an ash bed and has a reflective quality that adds ambiance when the fire is lit.

### DETAILS

Provides a realistic looking ash bed to your fireplace. For vented log sets only.

Item # VMC100

0.25 lb · 4 oz bag

## LAVA ROCK, 5 LB.

Formed by gas-rich eruptions, this naturally made lava rock stands out in any vented or vent-free log set application. Give new life and increase the ambient effect of your Gas Log Set with Pleasant Hearth Lava Rocks - each having their own unique shape and size. Pleasant Hearth lava rocks are perfect for hiding any mechanics, such as controls, valves, piping, etc.

### DETAILS

Creates a realistic rock bed and adds depth and realism to gas logs.

Can be used with vented or vent-free log sets.

Item # LVR100

5 lb · 80 oz bag

## GLOWING EMBER FIBER, 4 OZ.

Pleasant Hearth's Glowing Ember Fibers (Rock Wool) provide the same effect as a glowing bed of ashes in a wood-burning fire. For best results use as directed in your owner's manual. Pair with Lava Rock for an enhanced look.

### DETAILS

Creates the illusion of a realistic burning ash bed.

For use with vented or vent free ember burner log sets only.

Item # GEF100

0.25 lb · 4 oz bag

## LIQUID PROPANE CONVERSION SAFETY PILOT CONVERSION KIT

Pleasant Hearth's Liquid Propane Conversion Safety Pilot Kit allows the use of liquid propane as a fuel type for Pleasant Hearth Vented Gas Log Sets in areas where only LP is available.

For those who don't enjoy match lighting, after the easy installation of this accessory, users will be able to start their log set with a simpler piezo pilot ignition.

### DETAILS

Use with Pleasant Hearth Vented Gas Log Sets.

Item # SPK100

## NATURAL GAS PIEZO IGNITION KIT WITH LP GAS CONVERSION

Pleasant Hearth's Liquid Propane or Natural Gas Conversion Safety Pilot Kit lets you use either liquid propane or natural gas as a fuel type for Pleasant Hearth Vented Gas Log Sets in areas where only one fuel type is available. For those who don't enjoy match lighting, after the easy installation of this accessory, users will be able to start their log set with a simpler piezo pilot ignition.

### DETAILS

Use with Pleasant Hearth Vented Gas Log Sets.  
Item # SPK200

## NATURAL GAS PIEZO IGNITION AND REMOTE KIT WITH LP GAS CONVERSION

Whether you are buying this aftermarket kit to add a piezo ignition and remote control to your Vented log set, or to convert the fuel type from Natural Gas to Liquid propane, this little kit offers a significant benefit. The remote has a built in-temperature gauge and the electronic ignition adds safety.

### DETAILS

Use with Pleasant Hearth Vented Gas Log Sets.  
Item # SPK300

## VENT-FREE DUAL FUEL GAS HEATER REPLACEMENT THERMOCOUPLE

For use with all Pleasant Hearth and Dyna-Glo Vent Free Gas Heaters. Can be used for Vent Free Fireplace Systems, Gas Logs, Wall Heaters, Stoves for replacement parts use. Either for dual fuel or single fuel. 1-year warranty.

### DETAILS

Long life expectancy.  
For use with all Pleasant Hearth and Dyna-Glo gas heaters.  
Item # TMC100

## WOOD STOVE OUTSIDE AIR KIT

Five 12" Pipe Lengths, 90° Elbow, Horizontal Termination Cap, Wall Bracket/Support, Tee with Removable Clean Out & Pipe Connector included.

### DETAILS

Inner wall: 304 stainless steel.  
Outer wall: paintable galvanized steel.  
Joints lock together with a snap.  
Item # OAK-MH

# ZERO CLEARANCE FIREBOXES

# ZERO CLEARANCE FIREBOXES

Design your own fireplace from scratch by adding a gas fireplace to an existing space that does not need a traditional chimney to function.

Zero-clearance fireboxes are great for homes that already have a natural gas or propane gas line installed. Non-combustible materials are needed to frame around the firebox. If aesthetics are more important, choose a radiant zero clearance firebox; if heat is more important, choose a circulating zero clearance firebox. Pair your zero clearance firebox with a vent free gas log set.

A traditional fireplace is usually built as part of the construction of a home. Zero clearance fireboxes can be added later, even without a chimney in the home, adding heat or ambiance to a space.

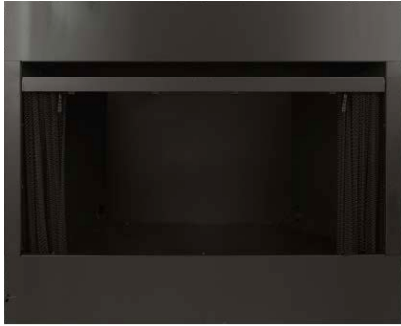

Because of the construction of a zero clearance firebox, they can be placed in close proximity to construction materials and walls in homes. This allows them to be placed in framed enclosures making them easy to add to any room. This results in being able to add a fireplace to a room that was not designed for one.

## TYPES OF ZERO-CLEARANCE FIREBOXES

### Radiant

Flush face: Non-combustible materials can be adhered to the flush face to make the unit look like a masonry fireplace.

Radiant firebox with flush face

Radiant firebox with tiles over flush face

### Circulating

Louvers allow air circulation with or without a blower

Brick background sold separately.

## RADIANT ZERO CLEARANCE UNIVERSAL FIREBOXES

Pleasant Hearth Vent-Free Firebox Inserts feature a wide opening with a flush face that allows unit to be finished with noncombustible materials (marble, granite, stone, brick, tile or slate). Compatible with any Vent-Free gas log set including all Pleasant Hearth brand Vent-Free Gas Logs. Decorative Brick Panels Sold Separately. Includes draw screen and hood.

**32 INCH**  
Item # PHZC32F  
35.88" L x 24.2" W x 34.1" H

**36 INCH**

### ZERO CLEARANCE UNIVERSAL FIREBOX OUTSIDE AIR KIT

The Outside Air Kit is used to supply outside combustion air to 1-side of the Pleasant Hearth Zero Clearance Universal Fireplace Inserts. Easy to install, includes screws, gasket, starting collar and air vent. Check local building codes for vent free installation requirements. Vent tube is not included.

**DETAILS**

Steel and White Finish  
Includes sheet metal screws, gasket, starting collar and air vent  
Item # OAK100  
8" L x 7" W x 7" H

### ZERO CLEARANCE FIREBOX CIRCULATING BLOWER

Improve heat distribution from your Pleasant Hearth Vent Free Fireplace System with Pleasant Hearth’s Vent Free Fireplace blower. Install at the same time as the zero clearance firebox. Or, if the firebox has been hardwired to include an outlet, this can be added later. To use, just plug in and it will blow the air from the fireplace, optimizing the heat when the fireplace is on. Designed and certified to only operate with Pleasant Hearth Vent Free Fireplace Systems.

**DETAILS**

Black Finish  
Includes power supply (6 ft. cord Length)  
Item # ZCB100  
9.75" L x 3.75" W x 10" H  
Compatible with PHZC32C, PHZC36C, PHZC42C, PHZCI28LP, PHZCI28NG, PHZCI32LP, PHZCI32NG

# MASONRY FIREPLACE GLASS DOORS

# MASONRY FIREPLACE GLASS DOORS

Stop air loss and save money with a masonry fireplace door. Each stylish design comes in 3 sizes that fit most fireplace doors. Don't wait for a custom door to fit your fireplace. Simply measure and find the size you need.

Fireplace doors add style to the front of the fireplace. Masonry fireplace glass doors also help keep children and pets away from the fireplace.

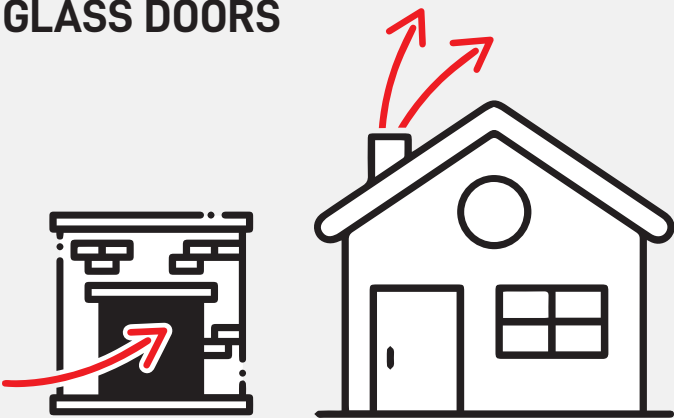

Installation is as easy as following the instruction manual or the installation video posted online. Once installed, keep the doors closed when the fireplace is not in use so that you can maximize the AC or heat. When the fireplace is in use, open the glass doors and enjoy the fire through the mesh doors that protect your home from sparks.

Reduces heat loss by as much as 90% and improve AC efficiency with fireplace doors.

## ELIMINATE HEAT OR AC LOSS THROUGH THE CHIMNEY BY ADDING FIREPLACE GLASS DOORS

# CHOOSING THE CORRECT SIZE GLASS DOORS

## BEFORE YOU BUY, GET THE RIGHT FIT

1. Measure the inside width (W) of your fireplace opening.
2. Measure the inside height (H) of your fireplace opening from the floor to the inside top of opening.
3. Check both measurements and be sure they are accurate to the nearest 1/8".

**WARNING: If the fireplace opening height and width DOES NOT fall within the size chart range, then these fireplace glass doors WILL NOT FIT.**

PLEASANT HEARTH FIREPLACE GLASS DOORS SIZE CHART			
Size	Fits Opening		Overall Dimensions
	Width	Height	
small	30" – 37"	22-1/2" – 29-1/2"	37-1/2" W – 30" H
medium	30" – 37"	25-1/2" – 32-1/2"	37-1/2" W – 33" H
large	36" – 43"	25-1/2" – 32-1/2"	43-1/2" W – 33" H

Note: The glass doors are designed to surface mount on the outside of a flat surface such as brick or marble. Use the Size Chart above to determine the correct size before you buy.

## FOR MASONRY FIREPLACES ONLY Not For Prefabricated Fireplaces

MASONRY

Indicators that you have a masonry fireplace:

1. Made completely of brick and mortar
2. Built into the home when the home was constructed; more common in older homes
3. The chimney is part of the home's original design

PREFABRICATED

Indicators that you have a prefabricated fireplace:

1. More common in newer homes
2. Inside of the fireplace is usually built from solid sheets of metal or refractory panels that look like bricks
3. The flue is metal

See our installation video here:

<https://www.youtube.com/watch?v=reR-LUv162g>

**FOR SAFE USE: Always keep mesh panels closed and the glass doors open when fire is burning in fireplace.**

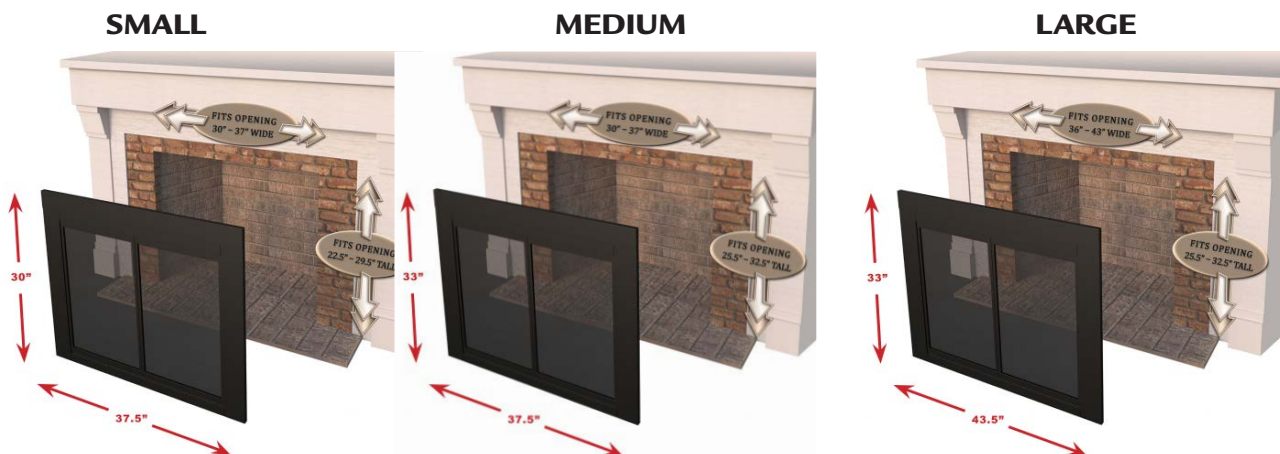

MADE IN USA

## FIREPLACE GLASS DOOR SIZING GUIDE

# SCREEN & TOOL SET COLLECTIONS

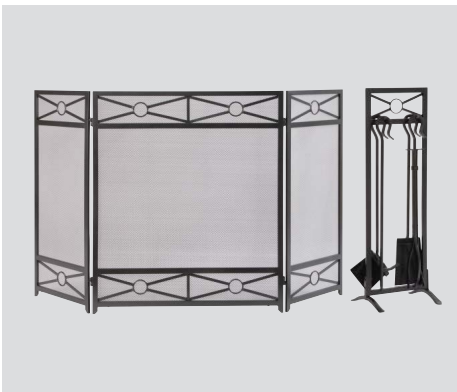

## SCREENS AND TOOL SETS

Just moved into a new house with a wood burning fireplace? Update the look and feel of your fireplace with a new decorative screen that protects your home from sparks and a toolset to help tend to the fire.

We've got single panel or tri-fold mesh screens and tool sets with a stand that can be positioned on the hearth in a decorative way.

Screens and toolsets are great for keeping children and pets out of the fireplace, protecting your home from flyaway sparks when the fireplace is in use, and being able to tend the fire with nearby tools.

Simply place the screen in front of the fireplace opening and place the toolset next to it for an easy set up.

## WAVERLY COLLECTION

Bring a sense of nature into your home with the Waverly Collection. The screen helps shield your home from sparks while the tool set assists in building a warm and comforting fire.

### DETAILS

Colonial Brown Finish

# LOG STORAGE

## LOG STORAGE

Great to store firewood in the backyard.

Our log storage options help keep the firewood off of the ground to prevent mildew, rot, insects and pests. Store your log rack in a covered outdoor location or use a log rack cover to season hardwood and keep out moisture.

We have a variety of sizes so you can buy a log rack that is the appropriate size for your needs.

Just assemble the log rack and fill it with firewood in a covered, outdoor location or in an open area with a log rack cover.

## CHOOSING THE RIGHT FIREWOOD

### SEASONED HARDWOOD

Always build a fire using seasoned hardwood. Seasoned hardwood is firewood that has less moisture content so it is easier to burn. You'll know it when you see it because it will be almost white on the inside and it will be brittle. It will NOT be green. Usually this wood has been stored for six to twelve months before it is ready to be burned. Dense hardwoods have more energy content than softwoods. That means they'll generate more heat when burned. These woods will burn for longer, so there's less refueling required in your fireplace. Softwoods can be used to help ignite a fire, but because it burns so fast and creates more smoke, it is not recommended to use as the main fuel for your fire.

### BEST WOODS

The best slow-burning and fragrant woods include pine, red oak, sycamore, white ash, white elm, white oak, yellow birch, and yew.

### WOODS TO AVOID

Never burn endangered species, oleander, Mexican elder, driftwood, or anything with "poison" in the name.

## LOG STORAGE

Pleasant Hearth log racks help protect your firewood from insects, rot, and excess moisture. Cure your firewood by sheltering it in a log rack. You'll find that it makes for less residue in your chimney and the wood burns better.

### 4-PC LOG RACK BRACKETS

Connect your 2x4's together to create your own log storage with our handy log rack brackets. Simply cut any 2x4 piece of lumber (not included) to your desired length and insert into bracket. This will help keep your firewood above ground level. Requires eight 2"x4" pieces, sold separately.

#### DETAILS

Black Finish  
Item # LS-B4  
3.9" L x 3.9" W x 5.8" H

### LOG HOOP

Designed to store a three-quarter cord of firewood. Elevates your wood off of the ground to prevent rot and insects while keeping it neatly organized in the stylish circular design of the log hoop.

Item # LS938-144  
141" L x 14" W x 48" H  
Holds ¾ cord of firewood  
25-year limited warranty

## FIREPLACE ACCESSORIES

Our accessories are great for wood-burning fireplaces or wood stoves. They tend your fire, add humidity to the air, or clean up ash.

Pokers, tongs, shovels, gloves, steamers, bellows, ash buckets.... We have it all to do the job of tending a fire or cleaning the hearth.

Have a roaring fire and a clean hearth.

We have accessories to help tend logs with the pokers; to move logs with the tongs or log grabber; to handle hot tools with the gloves; to blow airflow into the fireplace with the bellows; to humidify the room with a steamer placed on a hot wood stove; to clean out ash with the shovel, brush and ash bucket.

**FIREPLACE BELLOWS**

Increases air flow to help start or maintain your fire. Zinc-cast nozzle with rivet and leather details.

## LOG HOLDERS

Log holders are perfect for wood-burning fireplaces, stoves or even a wood-burning outdoor firepit. They help store logs near the hearth or carry logs from one place to another.

Set the stationary log holders on the hearth and fill them with firewood. Canvas carriers can also be used to transport the logs to the fireplace.

Have logs easily accessible near the fireplace, or an easy means to carry the logs to the fireplace.

## WROUGHT IRON LOG HOLDER WITH CANVAS TOTE

The transitional design of this wrought iron log holder with canvas log tote fits perfectly with any décor. The frame is constructed from 100% steel and is powdered coated with a black finish that adds both beauty and durability. The removable canvas tote will hold and transport wood as needed. This log holder comes 100% pre-assembled - just insert the tote.

### DETAILS

Black Finish / Black Canvas  
Item # 1085  
17" L x 14" W x 17.25" H

## LOG BIN

The Pleasant Hearth log bin holds and stores firewood. The convenient handles make it easy to transport wood to your fireplace. The stylish vintage iron finish makes it a perfect accessory to display on the hearth.

### DETAILS

Vintage Iron Finish  
Item # FA010L  
19" L x 17" W x 22" H

## CAST IRON GRATES

Cast iron grates are perfect for wood-burning fireplaces and help raise firewood off of the fireplace floor.

Add air circulation to your firewood so that you have a longer, more consistent fire. Also capture some burning embers to help keep logs ignited.

Just set the cast iron grate on the bottom of your fireplace, set the wood inside and light a fire.

We have a variety of sizes, so you can find a cast iron grate that is the proper size for your fireplace.

## CAST IRON GRATES

A cast iron grate raises the firewood off of the floor of the fireplace. The meticulously placed openings allow air to flow throughout the firebox and feed the fire for flames that burn hotter and last longer. Additionally, the solid, molded structure has enough cast-iron material to hold in embers which will help keep a fire going long into the night. The grate also creates a centralized ash pile for easier cleanup.

### 18" CAST IRON GRATE

The durable cast iron construction on this metal grate holds up to three average sized firewood logs 1.87-in above the fireplace floor.

**DETAILS**

Black Finish  
Item # CG18  
18" L x 12" W x 4.8" H

### 24" CAST IRON GRATE

The durable cast iron construction on this metal grate holds up to four average sized firewood logs 3.25-in above the fireplace floor.

**DETAILS**

Black Finish  
Item # CG24  
24" L x 15" W x 6" H

### 27" CAST IRON GRATE

The durable cast iron construction on this metal grate holds up to four average sized firewood logs 3.25-in above the fireplace floor.

**DETAILS**

Black Finish  
Item # CG27  
27" L x 14.6" W x 6" H

### 30" CAST IRON GRATE

The durable cast iron construction on this metal grate holds up to four average sized firewood logs 3.5-in above the fireplace floor.

**DETAILS**

Black Finish  
Item # CG30  
30" L x 15" W x 6.75" H

## LIFETIME 3/4" STEEL GRATES

3/4" steel grates are perfect for wood burning fireplaces and help raise firewood off of the fireplace floor.

Add air circulation to the firewood so that you have a longer, more consistent fire. These heavy-duty grates will last a long time for those that build a fire almost every day in winter.

Just set the 3/4" steel grate on the bottom of the fireplace, set the wood inside and light a fire.

We have a variety of sizes so you can find a 3/4" steel grate that is the proper size for your fireplace.

## LIFETIME 3/4" STEEL GRATES

We call them Lifetime Grates for a reason. They have a lifetime warranty because they are made to last that long. Heavy-duty steel grates elevate firewood from the fireplace floor, allowing better air circulation thus a more robust fire. Constructed out of 3/4-inch solid steel.

### 18" LIFETIME STEEL GRATE

Constructed out of 3/4-inch solid steel, the 18" grate elevates firewood from the fireplace floor allowing better air circulation.

**DETAILS**

Black Finish  
Item # BG7-185M  
18" L x 13.6" W x 7.7" H

### 21" LIFETIME STEEL GRATE

Constructed out of 3/4-inch solid steel, the 21" grate elevates firewood from the fireplace floor allowing better air circulation.

**DETAILS**

Black Finish  
Item # BG7-215M  
21" L x 13.6" W x 7.7" H

### 24" LIFETIME STEEL GRATE

Constructed out of 3/4-inch solid steel, the 24" grate elevates firewood from the fireplace floor allowing better air circulation.

**DETAILS**

Black Finish  
Item # BG7-246M  
24" L x 13.6" W x 7.7" H

### 27" LIFETIME STEEL GRATE

Constructed out of 3/4-inch solid steel, the 27" grate elevates firewood from the fireplace floor allowing better air circulation.

**DETAILS**

Black Finish  
 Item # BG7-277M  
 27" L x 13.6" W x 7.7" H

### 30" LIFETIME STEEL GRATE

Constructed out of 3/4-inch solid steel, the 30" grate elevates firewood from the fireplace floor allowing better air circulation.

**DETAILS**

Black Finish  
 Item # BG7-308M  
 30" L x 15.6" W x 7.7" H

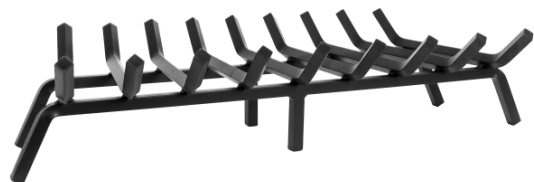

### 33" LIFETIME STEEL GRATE

Constructed out of 3/4-inch solid steel, the 33" grate elevates firewood from the fireplace floor allowing better air circulation.

**DETAILS**

Black Finish  
 Item # BG7-338M  
 33" L x 15.6" W x 7.7" H

### 36" LIFETIME STEEL GRATE

Constructed out of 3/4-inch solid steel, the 36" grate elevates firewood from the fireplace floor allowing better air circulation.

**DETAILS**
