EchoCheck
smart PROPANE TANK sensor

OVERVIEW

EchoCheck™

STAY CONNECTED*

Connect to the smart app
via Bluetooth signal

*Up to 164ft

MULTI SENSOR SET UP

Use multiple Bluetooth
Tank Sensors, all controlled
in one app.

READY TO USE

No calibration needed.

FAST INSTALLATION

Simply use built-in magnets
to secure sensor to the
bottom of the tank.

POWER: CR2032

Size of Unit: 3.5" x 2.0" x 0.3"

EXTERNAL MONITORING

No need to lift or even touch the
tank once the sensor is installed,
to check levels.

INSTANT & ACCURATE

Fuel levels displayed in liquid
propane height and percentage.

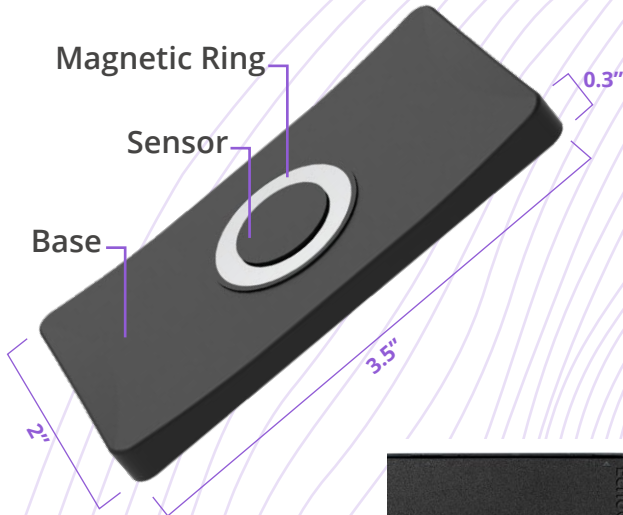

SMART ALERTS

Set custom alerts on the Smart
App when the tank is low and at
various levels.

MAINTENANCE FREE

Note: For use with clean and
rust-free steel gas cylinder.

PRODUCT SPECIFICATIONS

SYNC Button

Signal output

Bluetooth Power 1 x DC 3V (CR2032)

Battery Life

1-2 years

Measurement accuracy

+/- 5%

IP Rating

IPx5

Operating Temperature

-4°F (-20°C)/140°F (60°C)

Operating Altitudes

0 to 6,500 feet (0 to 2,000 meters)

Bluetooth Signal Range

Up to 164 feet (50 meters)

HOW IT WORKS

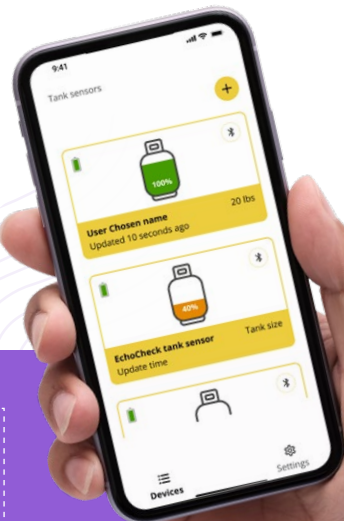

THE SENSOR plate is made of a naturally occurring quartz (ceramic).

INSTANTLY KNOW YOUR GAS LEVEL!

2 Ultrasound pulses through the tank to the propane surface and bounces an echo to the sensor

1 SENSOR ATTACHES to bottom of tank

3 THE SENSOR INSTANTLY sends information to display the propane gas level in the Tank Sensor by EchoCheck™ app.

THE APP

The Tank Sensor by EchoCheck App lives in the GHP CONNECT ecosystem, a carefully planned smart space for GHP Smart Products.

Propane Powered

- 1 GRILL
- 1 FIRE PIT
- 2 PATIO HEATERS

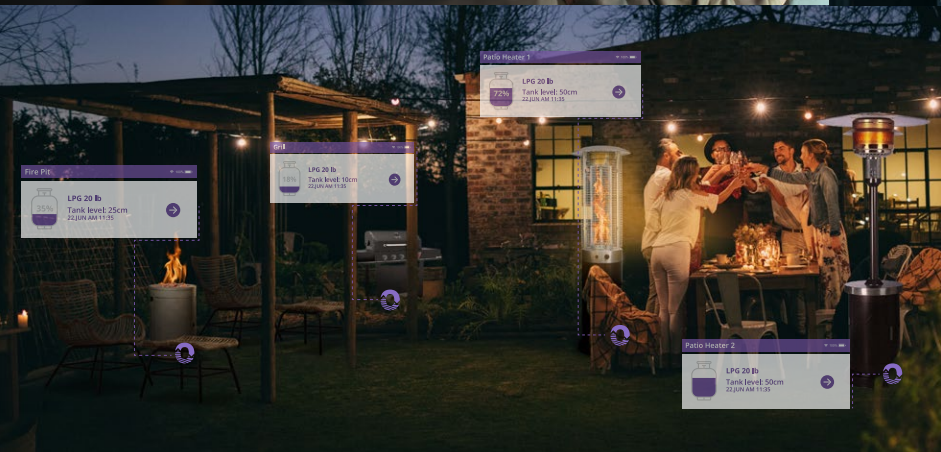

EchoCheck

- 4 Bluetooth Sensors
- + Wi-Fi Bridge

When planning get-togethers with friends or special events with her clients, Jen relies on having the details at her fingertips.

She saves time by quickly accessing her propane tank levels. She knows if she has enough fuel for her event, or if she should make a trip to refill her tanks.

She ensures her guests are comfortable all evening by setting alerts for low propane levels. She can time her tanks replacement to provide continuous heat.

BACKYARD ENJOYMENT

with **EchoCheck**

Planning a backyard get together with the family and want to know if you should add a refill of your propane tank to your shopping list?

A spontaneous evening is unfolding, do you have enough propane to take the fun to the backyard and stay warm?

Your guests are comfortably enjoying your backyard, is it time to switch out the propane tank in the patio heater to ensure uninterrupted warmth?

GRILLING

with **EchoCheck**

Meal planning for the week and want to know if you should add a refill of your propane tank to your shopping list?

A craving hits, you have that ground beef in the fridge. Do you have enough propane to grill a few burgers for dinner?

Grilling for an extended time at the family reunion, and need to know when to switch out your grill's propane tank?

RV & CAMP

with **EchoCheck**

Planning an adventure and want to know if you should add a refill of your propane tank to your shopping list?

You are relaxing in the tent while your partner is roasting marshmallows with the kids around the portable gas fire pit. Is it time to switch out the propane tank?

You have one more day at the campsite. Do you need to start conserving propane to last the rest of the trip?

CONSTRUCTION

with **EchoCheck**

Planning a job and want to know if you should add a refill of your propane tank to your shopping list?

Your team is working later than expected on a project. Do you have enough propane to start up the forced air heater?

It's a cold one today and your team is hard at work. Is it time to switch out the propane tank and keep your team productive?
