to satisfy the appetite of those seeking
to bring a refined and relaxed look
to their outdoor sanctuary.

OUTDOOR LIVING

# *Fina* OUTDOOR GAS HEATING

KEY PURCHASING FACTORS

While all of our gas heating products add warmth and light to your outdoor space, the correct placement ensures that expectations are met.

FIRE BOWLS
for umbrella holes

With simple assembly and installation, our tabletop umbrella hole fire bowls are a great enhancement for any outdoor patio table, with an umbrella hole.

Each umbrella hole fire bowl connection fits a standard umbrella hole, connecting to a propane tank beneath the table.
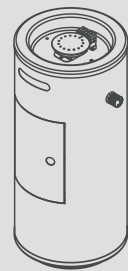

FIRE COLUMNS

Fire columns are a beautiful way to add structure to an outside entry way or pool area. Our fire columns come in a variety of styles to complement outdoor living spaces, paring well as a secondary heat and light source to a fire table or fire pit.
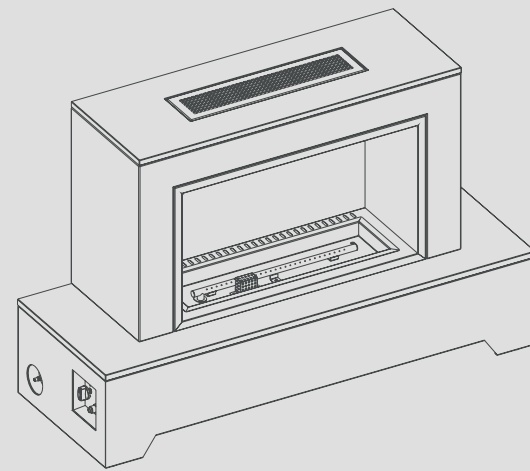

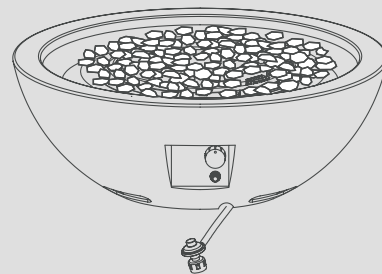

FIREPLACE

Create an outdoor living room by anchoring your seating area with a fireplace. Available in a variety of colors and finishes, our outdoor fireplaces can easily match any style.
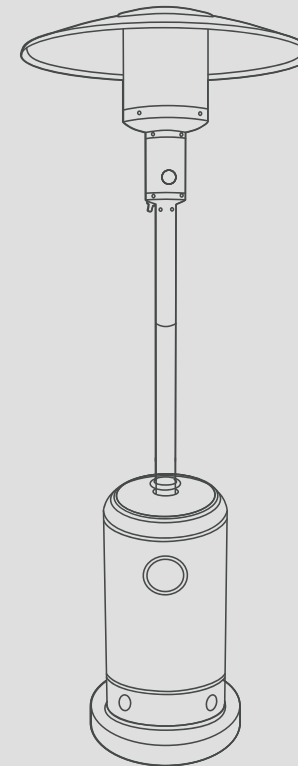

PATIO HEATER

Patio heaters are the go to for higher heat output, and an optimal heating source around outdoor dining tables.

FIRE PIT

Fire pits act as a warming centerpiece for outdoor seating areas. With low smoke and adjustable heat output, they can be enjoyed comfortably for hours.

BTU

BRITISH THERMAL UNITS
the energy needed to heat or cool one pound of water by 1°f
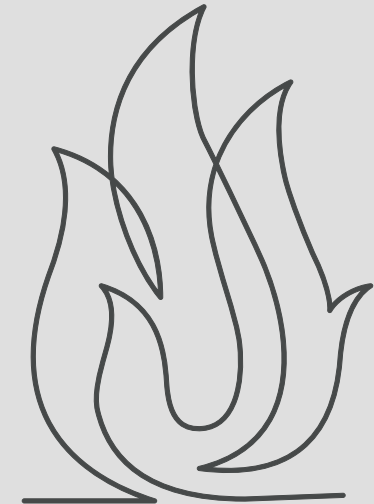

IN GAS HEATING
the higher BTU's the more heat and flame the fire pit will generate

GAS HEATING BTU

PITS & TABLES	HEAT	RADIUS
10k	2.0 ft	(13sq.ft)
15k	2.8 ft	(25sq.ft)
20k	3.8 ft	(45sq.ft)
30k	5.3 ft	(90sq.ft)
40k	6.67 ft	(140sq.ft)
50k	8.2 ft	(210sq. ft)
60k	9.0 ft	(260sq.ft)
65k	9.8 ft	(300sq.ft)
90k	12.6 ft	(500sq.ft)
RECTANGULAR FIRE TABLE		
50k	7.6ft	(180sq.ft)
INDUCTION & PATIO HEATER		
46k	9.8 ft	(300sq.ft)
FIREPLACES		
65k	11 ft	

BENEFITS

Guests might be considering these benefits when choosing gas heating

SMOKE FREE
No lingering smell and easier on the respiratory system.

FLAME CONTROL
Easily accessible knob puts you in control of the flame size and heat output

ENVIRONMENTALLY FRIENDLY
Gas flame produces up to 99% less emissions than wood burning.

NO ASH TO CLEAN UP
Enjoy beautiful LavaGlass® or FireStone™ filler instead of wood or coal, and the mess it leaves behind.
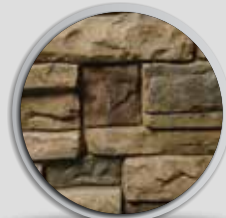

ENVIROSTONE®

ENHANCED WITH **PROCOAT**®

THE LIGHTWEIGHT WAY TO REALISTIC LOOKING **OUTDOOR LIVING** PRODUCTS

Marble

Stone Texture

Wood Grain

Slate

We have spent years of research, experimenting and real world testing and resulted in the very best composite mix for outdoor heating products.

Our mix consists of industrial grade glass reinforced concrete, supplemental fibermesh and a low percentage of magnesium oxide and polyresin.

FIRE PROOF
Envirostone® is fireproof and heat resistant. It can withstand extreme temperatures without discoloring or deformation.

AMAZING REALISM
Envirostone® cures a stone like hardness which allows for fine details in molding and sculpting. Natural elements look and feel real to the touch.

LIGHTWEIGHT
Envirostone® is light in weight making it easier to maneuver and lower in production costs.

LOW MAINTENANCE
Caring for an Envirostone® surface is much simpler than cleaning and protecting a natural wood or stone product.

NON CHALKING
Envirostone® surpasses all other fire-retardant materials such as MGO and Polyresin as they disintegrate over time under the harsh outdoor environments of UV radiation and high temperatures of an open flame.

HEAT & COLD

UV LIGHT »»

ENVIROSTONE®
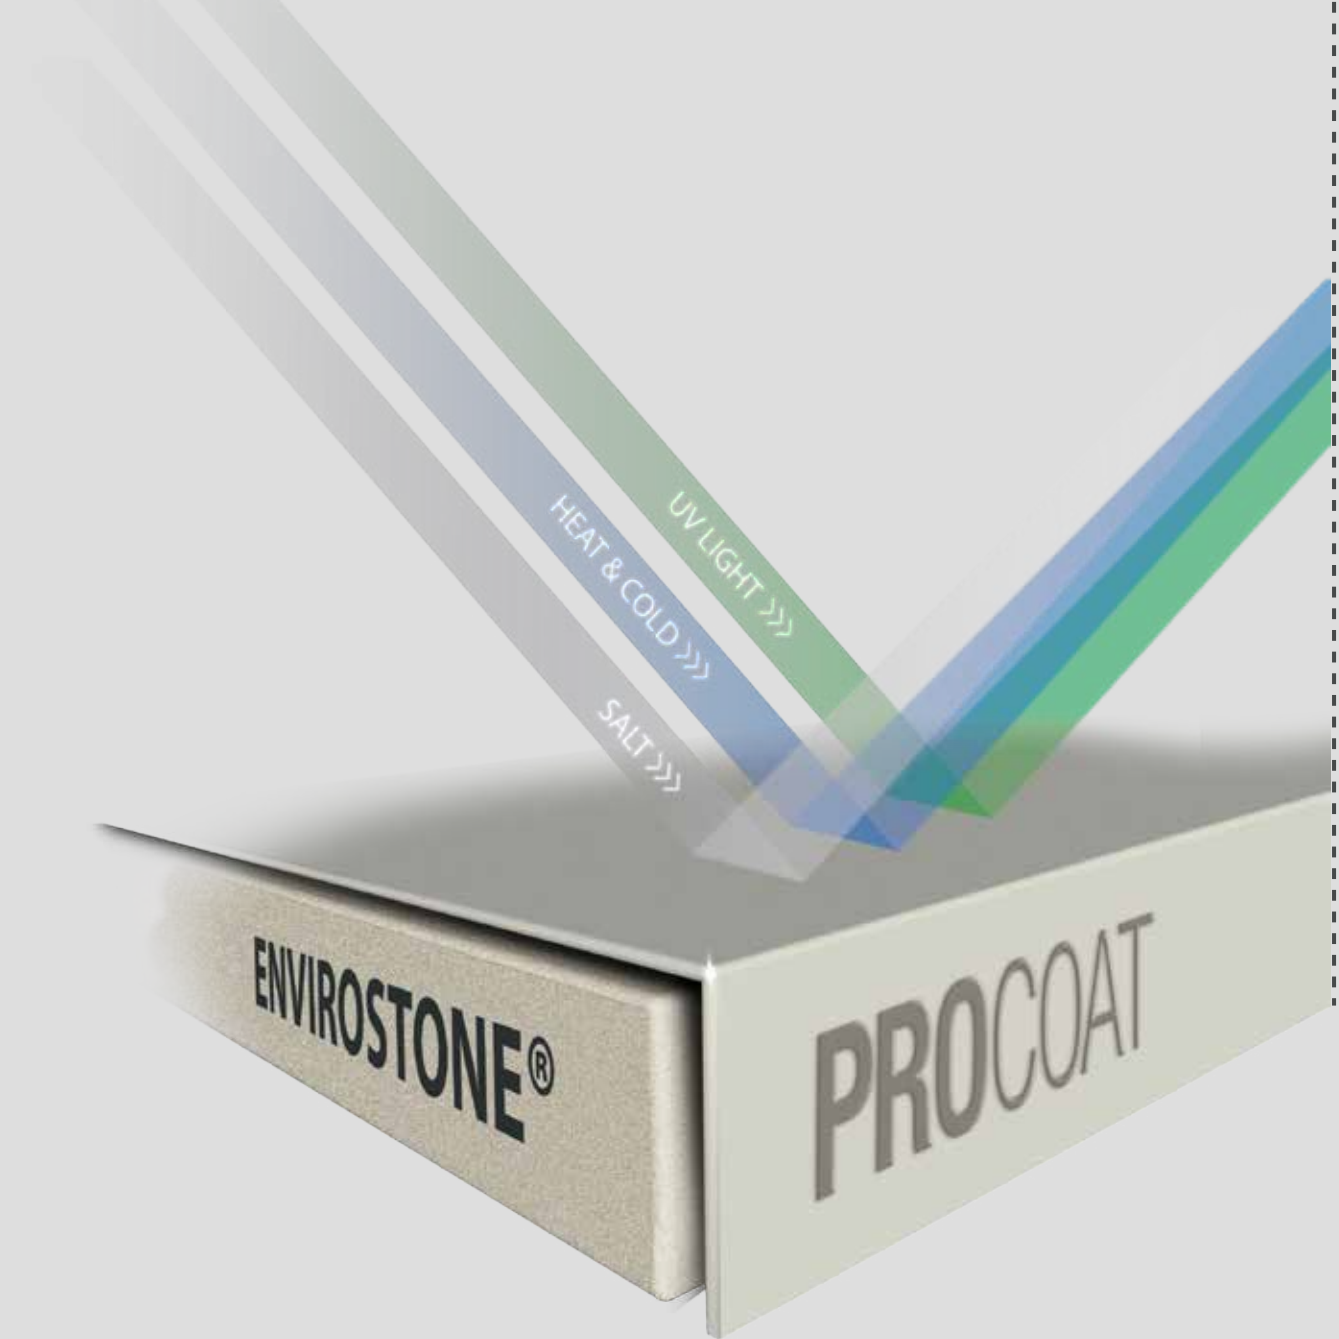

PROCOAT

PROCOAT

HEAVY-DUTY **PROTECTION** FROM THE ELEMENTS

GHP's trademarked coating system is a proprietary process co-developed with a industrial coating supplier.

The coating is specially formulated to create an extremely strong bond with the specially prepared magnesium oxide.

- **Exclusive** formula
- **No fading** after 1000 UV light hours
- **Lasts 10X longer** than our top competitor
- **Adhesion** to substrate surpasses ASTM D1006 international standards
- Conforms to international standards for **UV lightfastness, and salt exposure**

IVORY

Relax on a sofa or in dining seating that provides a soft, subtle richness to your guests' surroundings. Table top torches illuminate your entertainment and conversations, while a choice of gas fire pits and fireplace keep you warm under the stars.
