

## Heather Hunter Book artist

I make unique Artists' and Altered books, I write my own text, produce my own images by various different printing methods and construct my own bindings whose shape can be part of the story. These three-dimensional books constantly provide visual and tactile surprises. Nowadays the text in my books is often produced from found words. I am inspired by all things natural, this is helped by being resident artist in a small studio at Turn End Gardens, Haddenham.
