

Quickline Flat Rope and Reel

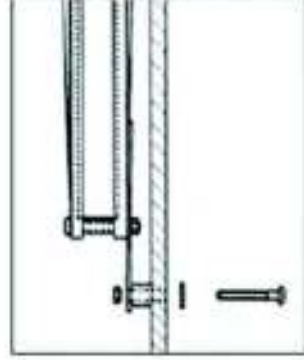

The Quickline Flat Rope & Reel is the answer to storing anchor, mooring, or any extra line onboard your boat. Quickline flat rope won't tangle because it's mounted on a self-storing, high quality 316L stainless steel reel that dispenses line as needed. Simply let the line pay out and crank it in - no fouling of the line. It's that easy!

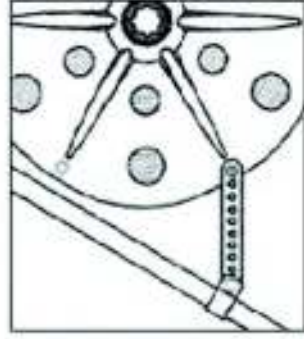

Durable Delrin® reel bearings and Teflon® fairleads ensure smooth lasting operation. Quickline Flat Rope & Reel is easily mounted to railing hardware or flat surfaces. The reel comes in three sizes complete with a mounting kit and an ingenious reel handle. The handle uses a standard winch handle connection, and includes a shackle buster, three deck fitting keys and can be used as a bottle opener as well as a spare winch handle.

Typical Mounting

Mounted on Flat Surface

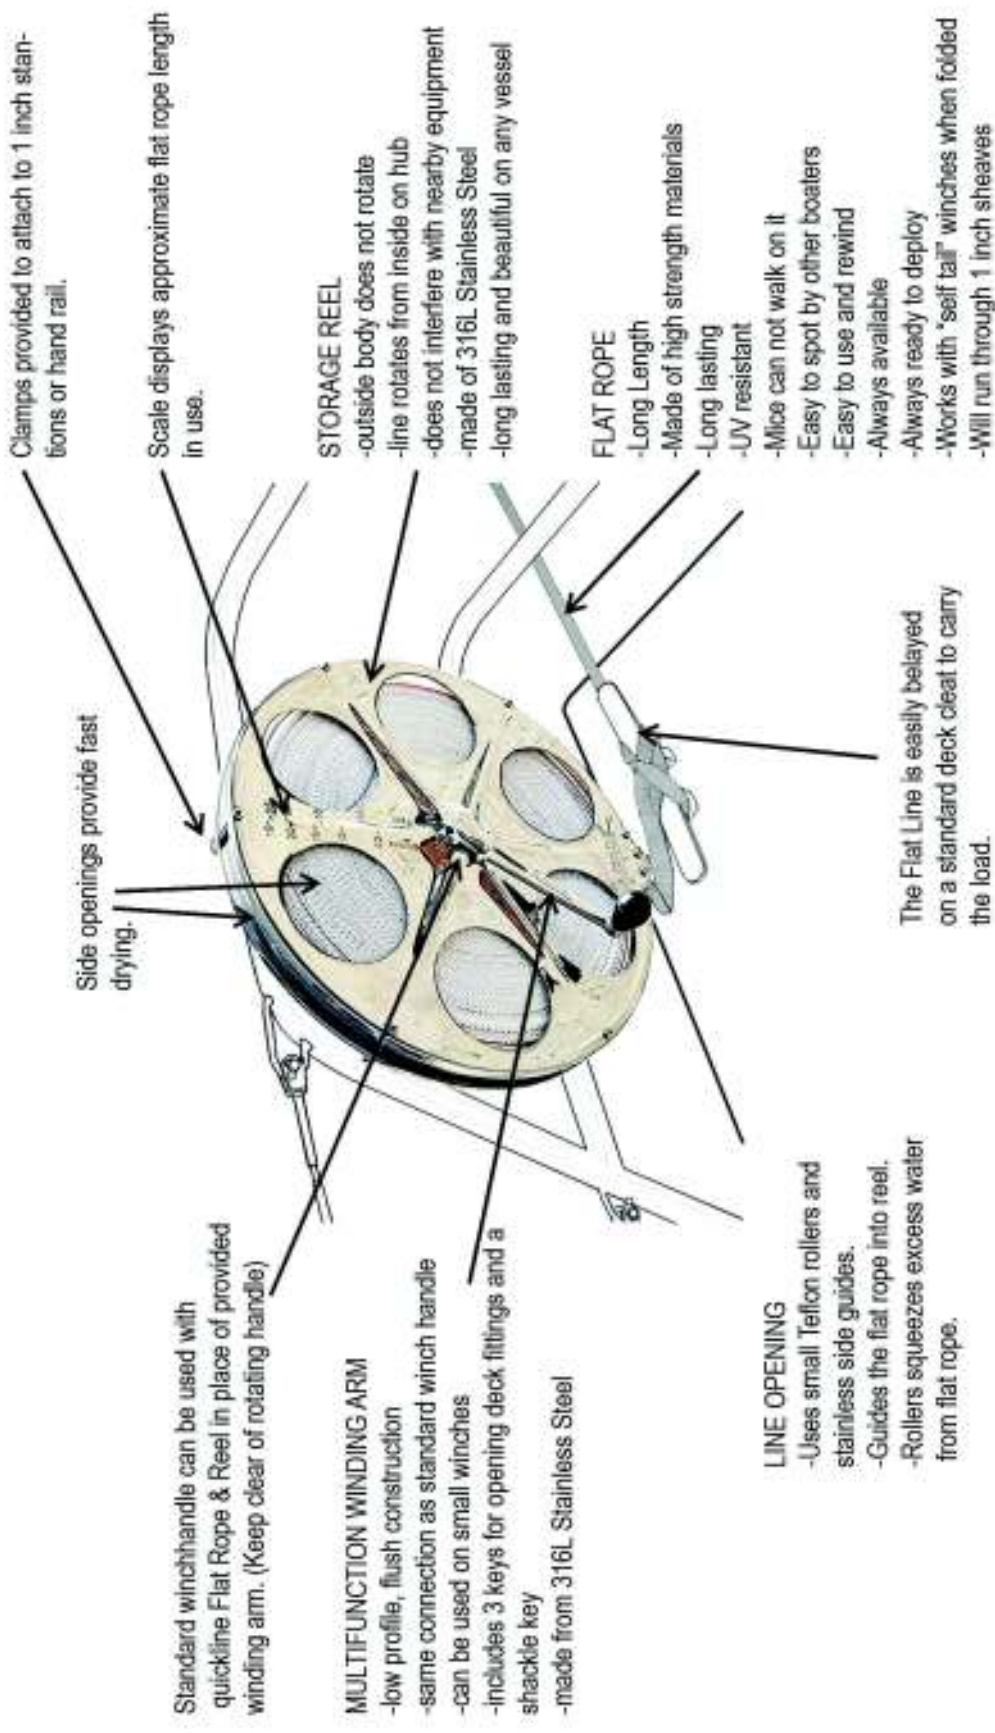

Mounted with Holed Bracket

8700 Warner Avenue, #110
Fountain Valley, CA 92708
