

Quickline Ultra Anchor

Ultra Anchor from Quickline is touted as the fastest-setting and highest-holding anchor on the market because of its unique design that features a low center of gravity and a pointed tip to ensure quick

setting. The innovative, dipper-style fluke body resists the tendency to pull loose, and its swivel-shackle attachment eye is reinforced for extra strength and positioned to place Ultra Anchor's weight on its curved tip.

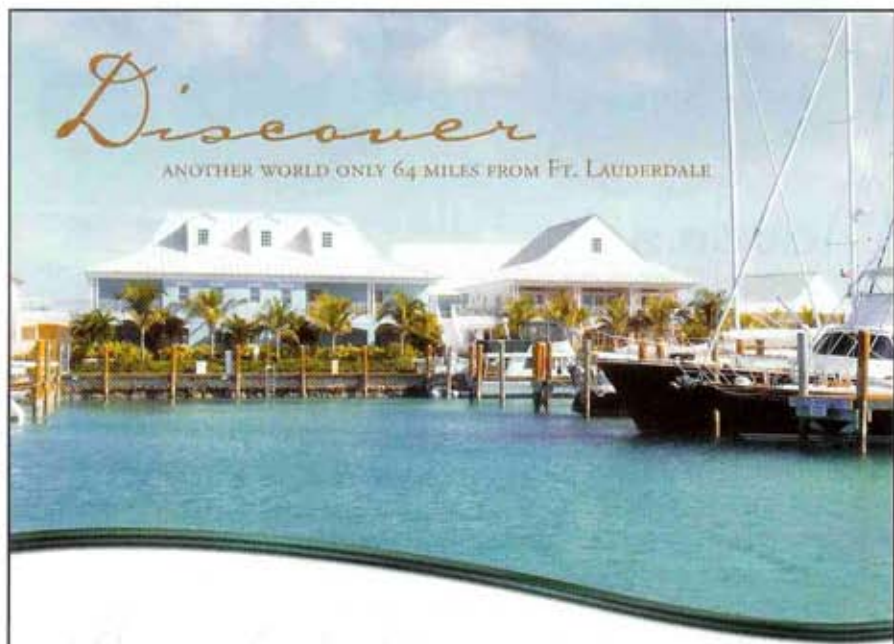

Fugawi Mobile Data Service

The world of PC-based navigation software such as Fugawi Marine ENC collides with mobile marine software in iNavX with the X-Traversal Mobile Data Service. X-Traversal provides seamless waypoint transfer between an iPhone or iPod Touch and a PC or Mac, and allows users to save, retrieve and move data without cabling between desktop and mobile devices. This opens the door for seamless integration between the two systems for greater speed and versatility in chart information.

Whale Twist Shower

The Whale Twist is a revolution in deck showers with its unique, integrated handset that incorporates both the showerhead and controls. The handset also features a Deck-Protect End Cap designed to protect gel coat if it's dropped. The handset is made from UV-resistant ASA materials and needs only a single hole to be drilled for installation.

Discover
