Über bar TOOLS™

Innovation in your hands.

It's probably worth starting by explaining our name, Über, is a German word. It made the jump into the English language capturing the concept of being "beyond expectation" and the "best of the best" in one neat package.

From a brand perspective – it's much more than a word. Über is our intent in everything we do and it's evident in the product we supply and the way we do business.

We're also rather fond of the little dots that garnish the u as well. Ü

All Über products share the same key characteristics. They all begin with a real-life problem and deliver an innovative solution that solves it. All are crafted from quality inputs and finished to exacting standards that come to life in feel, function, and use. We set out to deliver the best tool for the job, and we believe that from the first touch, and through sustained use, you will agree with us.

Hospitality is an industry that we at Über are fond of. Delivering great food and drink is an act that changes people on a molecular level. Folks who work in the industry are a special breed, driven by love of delivering an experience through both product and service that is the best they can fashion. We are happy to be the brand in their hands as they do this.

Über bar tools are designed to make the perfect drink. The quality of the design solution and finish on the products allows a bartender the best control in producing a drink that is memorable, balanced and profitably made to the last drop. The perfect drink is both memorable and remarkable; the exact attributes that drive word of mouth recommendation for a venue and brings footsteps to your door. The drink is also profitable, we like great bars to stay open and stay serving drinks. Über bar tools drives profitability and delivery return on investment early.

We're committed to long term partnerships. We'll work with our clients to deliver custom solutions from a product, branding or distribution perspective. We stand by the quality of what we provide, now and for its lifetime. This spirit of partnership is reflected in the relationship between Michael and Sam, the founding partnership that delivers Über to the world.

The great thing about having an Über intention as a brand; it's never achieved, we're constantly searching for new solutions to bring to our customers. Our innovations will always look beyond the expectations of what is available to deliver what is possible. Think of it as a dream turned into reality.

*Michael
Silvers*

ARRIVAL

Cocktail Chimney

Introducing the Uber Bar Tools™ Cocktail Chimney. Ultimate cocktail and dessert smoker, taking entertaining to the next level.

INTRODUCTION

New Era of Bartending.

Innovation without compromise on quality. The finish on our tools is second to none and with appropriate care they'll outlast any of our competitors' generic products. Should you own a bar, then experience how quality tools with inspired design is not a cost but a worthy investment in long life outcomes.

With excellence as our banner, we can proudly stand by "We're Out There" in the bars, pubs, hotels and restaurants supporting the people of hospitality.

Our passion and inspiration comes from the innovation seen behind bars around the globe.

A close-up photograph of a bartender's hands pouring a golden liquid from a jigger into a tall, clear glass shaker. The scene is lit with warm, low-key lighting, creating a moody atmosphere. In the foreground, a white, teardrop-shaped graphic contains text. To the right, a small glass bottle is visible on the bar counter.

Measuring

Taste, flavour and balance are the key elements when making a successful cocktail, never spilling, over-pouring or wasting a drop are equally as important.

THE INNOVATION

A close-up photograph of a bartender with a beard and glasses, wearing a dark blue shirt, pouring a golden liquid from a faceted glass pitcher through a metal strainer into a matching faceted glass. The background is softly blurred, showing a bar counter and another glass.

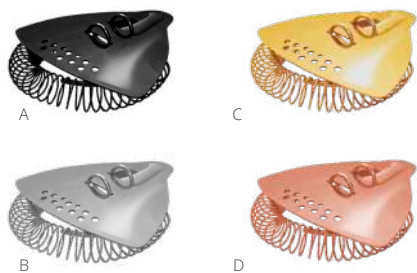

Straining

Strainers designed for precision and control.

Beautiful cocktails are enhanced when pips, peels, spices, and ice shards are kept out of the drink. Usually a single strain will suffice, however, sometimes a double strain is required.

A close-up photograph of a bartender's hand holding a silver cocktail shaker. The shaker is cylindrical with a textured surface and a lid. To the left, a green glass with a textured, leaf-like pattern is partially visible. The background is dark and out of focus.

Shaking

The shaker is at the heart of cocktail creation.

Shaking and agitating liquids allowing for aeration, dilution and rapid chill down requires a lot of force! The cocktail shaker is the vessel where the cocktail comes together in the hands of a bartender.

Stirring

There is an art to the stirred cocktail.

Stirring is the gentle technique of combining spirits and mixers into something greater. Integrating the ingredients by stirring the delicate flavours together is an essential element when making Martinis.

Antonio Lai

QUINARY

Swizzle Stick

There is an art to the stirred cocktail.

Antonio Lai: noted bartender, entrepreneur and innovator started his journey as a bar-back in the early 90's.

Antonio Lai

Propels mixed Drinks

A ASWIZZ™	46-ASWIZZ-G	1	12	48

SIZE	MATERIAL	WEIGHT
297 x 27 x 27 mm	STAINLESS STEEL	70 gm

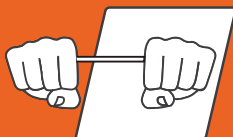

Fast forward to today where Antonio runs a bar empire whose jewel is the much loved and critically acclaimed Quinary (World's 50 Best Bars), famed for its Earl Grey Caviar Martini!

In the true spirit of collaboration Antonio and Überbartools™ have re-imagined the traditional swizzle stick, creating the A-Swizz™.

Featuring an inspired lotus leaf design reminiscent of an aeroplane propeller, the A-Swizz™ churns and mixes liquids with minimal effort and maximum joy.

Muddling

Extracting maximum flavour with minimum effort.

Fruits and vegetables contain hidden flavours and oils only released through the rigorous action of muddling, adding flavour and complexity to a cocktail.

EPISODE ONE WITH SARAH PROIETTI

Episode one kicks with a World's Top 50 Best Bars 2022, Maybe Sammy and venue manager Sarah Proietti.

Maybe Sammy is a cocktail bar that takes inspiration from the roaring fifties, the rebirth of cool, the era where fashion and fun prevailed; we head to the best bar in Australia.

When "The Rat Pack" and Hollywood glamour were revered and admired. Their signature drinks are named after some of the most favourite haunts on the Vegas strip and a local influence. Take a look through the Mini Martinis list, and you will instantly recognise the nod to the most iconic cocktails of all time. Each drink on this menu will take you through an eye-opening and different experience.

Sarah Proietti, the venue manager, joined the bartending scene in high school and, like many, stayed.

She says that "I felt working in the bar industry made me happy and excited me being surrounded by people. Being in the industry is not just about creating cocktails."

"It's the whole package that comes with that because every guest is different. In hospitality, it's essential to take care of our guests from the time they come through the door—the importance of creating a fantastic experience through the atmosphere, music, and even temperature."

Proietti praises her Maybe Sammy team for the opportunity and the passion they display to customers. She says "everyone has their amazing personality, and altogether we create a great synergy, and it's just very special."

Having the Maybe Sammy experience is a Sydney must. The cocktails are all of a calibre you'd expect from a bar on the World's 50 Best Bars, the service attentive, the interior – a palette of pastels and rich greens, but what makes this Art Deco venue unique is the cultivated energy of the team.

Sip your cocktails to the swinging sounds of the '50s, enjoy the bold presence of this venue, and most importantly, have fun.

for Bartenders. 2022

Straight Up Storytelling interviews Australia's best bartenders, restaurateurs, distilleries, breweries, industry leaders and change-makers.

Our goal is to share the secrets, inspirations, struggles and tools they use to make their business flow.

Go to www.straightupstorytelling.com to enjoy our web series, cocktail recipes, articles and purchase premium bar equipment.
