OSIM Divine V2

Wellness for the New Generation

A way of life

Lead a holistic lifestyle by making mindful choices to take care of yourself – in terms of mind, body, and soul – while pursuing your passion and living life to its fullest.

Rejuvenate with innovative technology

As you embark on your life journey, you are bound to encounter stress and fatigue. OSIM uDivine V2 relaxes your mind and body to recharge your spirit and inspire you to take on more challenges to come.

Experience uDivine V2's invigorating 4-Hand™ Massage with V-Hand™ Technology that deliver the highest standards of a full-body massage, so you can feel rejuvenated and stay focused on your goals.

V-Hand™ with 720° Roller Ball PATENTED

Intelligent V-Hand™ Massage emulates the skillful techniques and flexibility of a masseuse's hand for a realistic grip that extracts your deep-seated knots.

The 720° roller balls rotate 360° in both directions, rolling along every contour of your body to ensure the smoothest and most pleasurable massage.

4-Hand™ Massage PATENTED

The revolutionary 4-Hand™ Massage technology features 4 sets of powerful massage rollers that work synchronously to massage your upper and lower body concurrently.

Massage programs for the new generation

Enhance your well-being with uDivine V2's precise massages that target your pain points accurately and alleviate stress and fatigue accumulated over the day.

With its curated suite of auto massage programs, uDivine V2 can cater to the diverse lifestyle needs of you and your family so there is a massage solution for everyone.

My years of experience in massage treatments provided me insights on users' needs, and the knowledge to design effective lifestyle massage programs that not only address those needs but are also indulgently enjoyable.
