18	Outerware	1

BEFORE USE

- Carefully remove all packaging. Avoid using any knives or other sharp instruments as this may damage the product.
- Check the product for any visible damage. If you see any damage or suspect a fault, do not use your product, but contact your supplier for support.
- Please read these operating instructions carefully before you operate the lock or try to change the combination of numbers.

NB. The Key Safe is delivered without a code – you need to save your chosen code the first time you use it.

HOW TO OPEN THE KEY SAFE FOR THE FIRST TIME

- Push the CLEAR button down
- Push the OPEN button down
- You can now open the cover

HOW TO SAVE A NEW CODE

- Choose your code (minimum 3 digits). We recommend using a 4 digit, non-concurrent code with no repeated numbers, e.g. 4827 rather than 4485 or 8787.
- Remove the back panel (#14) of the cover by removing the screw (#15) with a screwdriver.
- Set your chosen code by turning the corresponding plastic screw (#7) behind the number by 180o so that the arrow on the screw (#7) points down. Repeat for each digit in your chosen code.
- You have now saved the code and the back panel can be replaced onto the cover.

HOW TO OPEN OR CLOSE THE SAFE

- Push the CLEAR button down
- Type the code in
- Push the OPEN button down
- You can now open/remove the cover or replace it to close the Safe

CARE & MAINTENANCE

Please make a check of the product at regular intervals or if you have any concerns.
