PURPOSE-BUILT TIMING INSTRUMENTS

Jeep® × 

A JEEP® 4X4 ISN'T MEANT FOR YOUR DRIVEWAY.  
A MARATHON ISN'T MEANT FOR YOUR DISPLAY CASE.

Since 1941, the JEEP brand and Marathon have been manufacturing some of the most reliable tools on the market. With deep military roots, both brands have focused on presenting consumers with an affordable product that's built to last. Introducing the inaugural models of the new JEEP x Marathon Series, each representing a commitment to quality materials, local production, and a no-nonsense all-utility approach.

*A partnership over 80 years in the making is finally here.*

# OUR STORY

## BEST IN THE LONG RUN

Family owned and operated since its inception in 1939, Marathon Watch Company is a leading supplier of precision timepieces around the globe. In 1941, Marathon found its calling as the company began officially supplying the Allied Forces, offering a wide range of timing instruments with a focus on utilitarian design. Throughout its history, Marathon has combined military durability with Swiss engineering and craftsmanship to ensure the highest level of quality and precision.

Today, the fourth generation of the Wein family continues the tradition. Marathon is headquartered in Vaughan, Canada with the brand's wristwatch assembly based in its own factory in the heart of Swiss watchmaking country, the historical city of La Chaux-de-Fonds. Marathon has continued its purpose-built legacy for over 80 years, still actively developing and supplying timepieces and other equipment under contract to the Government of Canada, the United States Government, and other Allied forces.

## SEARCH AND RESCUE DIVE SERIES

---

Marathon Search and Rescue (SAR) watches are developed to Canadian Government requirements for use in professional SAR operations. First introduced in the early 1990s, the SAR Series continues to be an essential kit element for elite members of both the Canadian and U.S. militaries.

Submersible up to 30ATM and available in 46mm, 41mm, and 36mm iterations, these tool watches are fitted with knurled, screw-down crowns; iconic unidirectional, fully hashed bezels with 60-minute scales; highly legible dials outfitted with tritium tubes and MaraGlo luminescent material; and solid 316L stainless steel cases to provide ultimate endurance above or below sea-level.

SAR SERIES: STANDARD-ISSUE

# 3-PIECE RUBBER STRAP KIT

**Strap Material:** FKM Rubber

**Features:** Grip Pattern on Reverse · Locking Primary Keeper · Additional Extra-Length Head-Piece Included

**Keepers:** Quantity 2

**Hardware:** 316L Stainless Steel Buckle

**Available Finishes:** Brushed · Anthracite<sup>1</sup> · Parkerized<sup>1</sup>

**Lug Widths:** 22mm · 20mm · 18mm

SAR SERIES: UPGRADE

# STEEL DIVE BRACELET

**Strap Material:** 316L Stainless Steel

**Features:** Double-Screw Link System · Solid End-Links · Hidden Diver's Extension · Micro-Adjustments

**Hardware:** 316L Stainless Steel Stamped Clasp

**Available Clasp Markings:** Standard-Issue · Special Collections<sup>2</sup>

**Lug Widths:** 22mm · 20mm · 18mm

<sup>1</sup>Only available in 20mm  
<sup>2</sup>Only available in Stainless Steel

# NAV

## NAVIGATOR PILOT SERIES

Marathon Navigator (NAV) watches were originally developed in partnership with Kelly Air Force Base in 1986. The NAV Series consists of timepieces engineered to stand up to the rigours of high-altitude flight — and even possible ejection from a fighter aircraft.

Featuring an iconic asymmetrical case design available in both 316L stainless steel and high-impact composite fibreshell for ultra-light durability, each watch is equipped with a sapphire crystal tolerant of rapid changes in air pressure; a continuously glowing dial; and a bi-directional bezel with the ability to track a second time zone.

# GP

## GENERAL PURPOSE FIELD SERIES

---

Marathon General Purpose (GP) watches harken back to the original field watches developed by Marathon and issued to Allied forces in 1941. Built to U.S Military Standard MIL-PRF-46374 G with direct lineage to the legendary GG-W-113 Spec of the 1960s. These straightforward timepieces are designed for officers and infantry, purposefully engineered to handle the demands of ground operations.

Available in both 316L stainless steel and high-impact composite fibreshell for ultra-light durability, these watches offer hand-wind, mechanical and quartz iterations, full nighttime visibility, and an overall uncomplicated build.

# TECHNOLOGIES

## ILLUMINATION (TRITIUM & MARAGLO)

Providing constant legibility in dark environments, Marathon equips many watches with self-illuminating encapsulated tritium gas tubes, providing 24/7 illumination for up to 20 years. The lineup also features MaraGlo, a photo-luminescent paint charged via external light sources throughout the day to deliver up to 3-5 hours of high-performance glow.

## SWISS-MADE

Proudly assembled at the Marathon factory in La Chaux-de-Fonds, each watch is hand-crafted by expert Swiss watchmakers and is built from the finest Swiss-made parts.

## INCABLOC® SHOCK ABSORBERS

For over 80 years Marathon has used Incabloc® shock absorbers to protect Marathon's engines. This system employs a spring-loaded, lyre-shaped mounting mechanism with jeweled bearings around the delicate balance wheel. When exposed to a shock, these bearings shift to absorb the impact.

## PREMIUM MATERIALS

Marathon's commitment to long-lasting timepieces begins with sourcing high-quality materials, employing 316L stainless steel for corrosion resistance and tensile strength, high-impact fibreshell for lightweight durability, and sapphire crystal for scratch resistance.

STANDARD LIMITED WARRANTY

# 2 YEAR WARRANTY

Marathon's timepieces are manufactured to the highest degree of quality. Each watch comes with an International Warranty covering the timepiece for any manufacturing defects within the first two-years of its life. By registering your watch online at [MarathonWatch.com](http://MarathonWatch.com), you will automatically receive an additional third year of warranty coverage to help keep your Marathon in premium condition.

PROUDLY CANADIAN

# AUTHENTIC MILITARY HERITAGE WITH MODERN MILITARY DESIGN

The company that was to become Marathon Watch was founded in 1904 as Weinstrum Watch, later to be named Wein Brothers. In 1939, Morris Wein founded Marathon Watch, supplying fine precision timepieces throughout North America.

Since 1941, Marathon has been manufacturing timing instruments for the Allied Forces. Today, the fourth generation of the family continues the tradition with a wide range of instruments measuring time, temperature and distance. Marathon watches combine military durability with Swiss engineering and craftsmanship to ensure the highest level of quality and precision.

Marathon products are manufactured with the utmost care and go through various quality control measures. This attention to quality is supported by a commitment to excellent customer support to ensure the best possible product experience.

This family photo was taken in 1892. Hirsch Wein is seated and on his lap is Morris Wein at approximately one year old.
