1 YOUR AIR PURIFIER

Please read this user manual carefully before use, and keep it in a safe place for future reference. Refer to cautions section for important information.

STANDARD PARTS

One air purifier

One instruction manual

TECHNICAL DATA

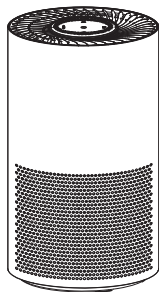

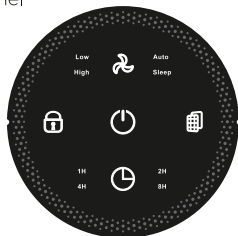

Rated voltage	AC120V
Rated power	50W
Filtering efficiency	99.97%
Unit dimensions	238×238×410mm
Unit weight	3.5 KG

CAUTIONS

- a) Do not shake the appliance or use it in unstable locations where the purifier can easily fall over, as it may cause the electric shocks, fire, or other damage.
- b) The unit is intended for indoor use only.
- c) Do not use the appliance in wet surroundings or surroundings with high ambient temperatures.
- d) Do not block the air inlet and outlet.
- e) Ensure that foreign objects do not fall into the appliance through the air outlet.
- f) Please switch off and unplug the appliance when it is not in use for a long time.
- g) The purifier disassembly should be performed by a qualified technician only.

USER INTERFACE

Control Panel

Air quality light

3 USER INTERFACE

USER INTERFACE

1		Power on/off
2		Press "Speed" to set the speed "AUTO" → "Sleep" → "Low" → "High"
3		Press "Timer" to set the timing "1 Hour" → "2 Hours" → "4 Hours" → "8 Hours" → "off"
4		Child Lock
5		Filter reset

1. Standby

Connect the power cord. The buzzing sound indicates the appliance is connected to the power source. All the indicators light up. Standby mode is set in 3 seconds, an air purifier is ready to operate.

2. Turn ON/OFF

Press the Power  button to turn on the purifier. Press the Power  button again to turn the purifier off.

3. Set the fan speed

There are several fan speeds available. You can choose the Auto/Sleep/Low/High speed mode by pressing the Speed  button.

Automatic

Set the fan speed to Auto. The air purifier sets the fan speed by itself according to the ambient air quality in the operating area. The air quality sensor measures the air quality and selects the indicator light color automatically.

a) If the air quality in the operating area is bad, the indicator turns red color and a purifier sets the High fan speed.

5 HOW TO USE

- b) If the air quality in the operating area is good, the indicator turns yellow color and a purifier sets the Low fan speed.
- c) If the air quality in the operating area is very high, the indicator turns green color and a purifier sets the Sleep mode.

4. Child lock

Press and hold the Child Lock  button for 5 seconds to turn the child lock on. Short "beep" sound indicates that the function has been activated. When the child lock is on, all the other buttons are not active. Press and hold the Child Lock  button for 5 seconds to deactivate the child lock.

5. Timer

Set the required number of hours you need the appliance to operate. Press the Timer  button repeatedly to set 1/2/4/8/Off.

6. Filter Reset

Once the purifier counts 2000 hours, Filter Reset  button starts to flash. Replace the filter and press the Filter Reset  button to reset the filter lifetime counter.

Note: do not forget to cleanse your hands after the filter replacement.

7. Sleep mode

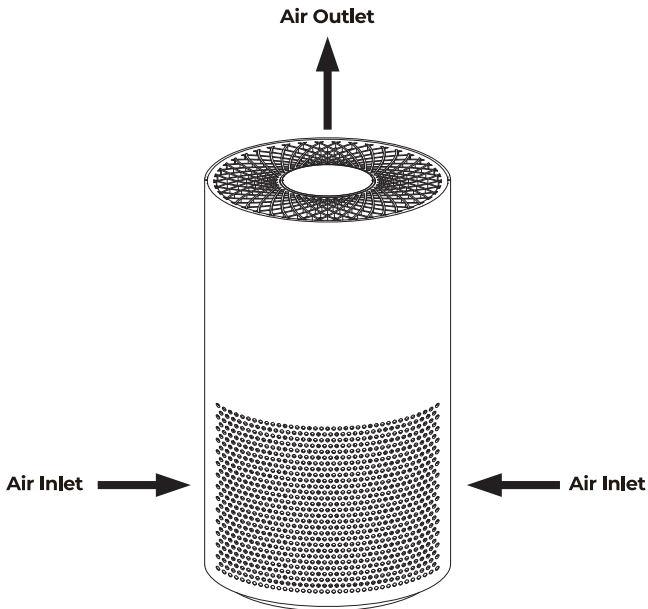

Set the Sleep mode by pressing the Speed  button. Power  and Speed  buttons will be dimmed, all other lights are off. Press any button to quit the Sleep mode.

PRODUCT FEATURES

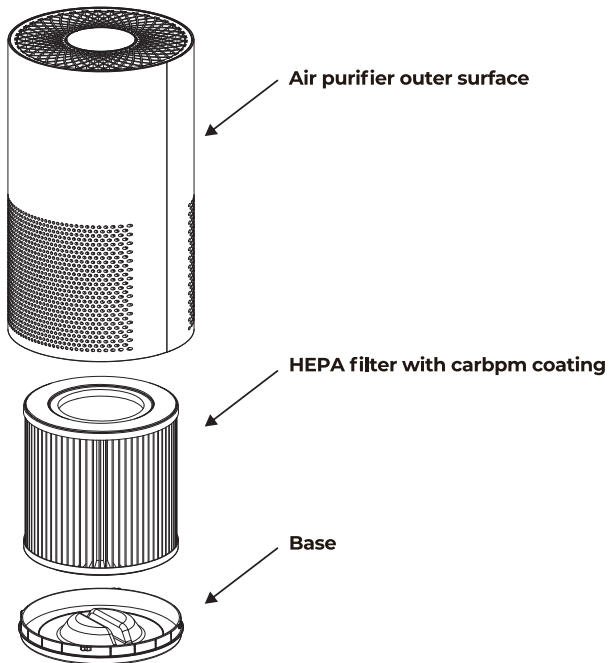

1. Pre-filter, HEPA filter with carbon coating
2. Particle sensor
3. Three color air quality indicator
4. Four timer presets
5. Adjustable fan speed, Sleep mode
6. Filter change reminder
