Dragons clash with Tai Sui in 2024. To rise above these passing clouds, it will become necessary for you to demonstrate diligence in your work life. In matters of romance, a holiday may help to rekindle the sparks with your loved ones. Potential health concerns might befall you, so it is best for you to exercise more! Consider taking a trek to give your vascular system a boost. This elevated trail not only presents stunning vistas but also provides an opportunity to soak up some Vitamin D for its revitalising benefits.

### Career: 1.5 Star

As you spread your wings professionally this year, you may encounter some turbulence along your path. Seek out your benefactors from among those born in the year of the Snake, Goat, and Pig, and focus on honing your skills to improve your standing at work. With strong competition in the market, business owners should strategise wisely and explore new horizons to reap greater profits. Updrafts in the real estate, finance, science, and technology sectors could significantly boost your fortunes.

### Wealth: 2 Stars

The negative influence of Tai Sui may cast a shadow over your financial prospects, but don't let fear paralyse your hunting abilities. Focus on developing your career, learning new skills to meet market demands, and sharpening your competitive edge. Engaging in charitable deeds can help to elevate your positive energy and enhance your prospects for wealth accumulation.

### Relationships: 2 Stars

Seize the opportunity to gently rekindle the flames of your relationships. Married Dragons should engage in fun activities such as singing or cooking with your spouse to spend more time together. Rather than sparking intense disagreements, nursing a gentle flame allows love to flourish in the early stages of courtship. Display pink flowers in the southwest sector of your living room to enhance romantic energies.

### Health: 4 Stars

Though health scares might throw you off balance, your lucky stars will turn these challenges into blessings. In 2024, pay attention to issues with the liver, gallstones, heart, bones, and teeth.

### Lucky Number

4670

### Lucky Colours

Gold, Silver, Beige, White, Bright Blue
