

Vega C100

Vega C100 è una lampada wireless a base circolare, caratterizzata da un proiettore LED regolabile su due assi (rotabile e direzionabile). Le diverse ottiche disponibili permettono di creare scenari luminosi con luci radenti e puntate.

Vega C100 is a circular wireless lamp, equipped with a LED spotlight adjustable in two axes (rotation and direction). The different available optics allow to create different lighting scenarios, with oblique and pointed lights.
