

Product Data Sheet

SPB-2W

Pluggable Base for EA55 Series Devices - WHITE

General

The SPB-2W is a WHITE, first fix plug in base for the EA55 series sounders.

First fix wiring option

The SPB-2 pluggable bases provide a basis for terminating EA series alarm device loop wiring at first fix stage. Forming an integral part of the overall unit assembly, the bases are provided with slots for screw fixing, either directly to the building structure, or a wide range of international conduit boxes. Bases feature large wiring terminals with captive clamping washers to ensure secure termination.

Robust manufacture

Bases are manufactured in moulded ABS and are also available in grey and red.

Standard Features

- First fix facility
- Ease of installation
- Large wiring terminals
