Mini Power Grommet

MINIPWRGROMMET-X

Mini Power Grommet designed for use in 29mm holes in extruded systems or any solid surface where a power outlet is needed.

- Can be mounted in any position desired with heavy duty securing ring.
- Male 3 wire plug fits through 29mm holes.
- 14/3 SJT cable is 10' long.
- Threaded barrel is 3-1/8" long and fits through 29mm hole.
- Lip on outlet is 1-1/2" diameter
- Suggested hole size is approximately 1-1/8" diameter.
- Threaded ring (1/2" wide) is slotted to allow for removal from cord and easy re-attachment to secure the barrel in place.
- Female outlet on face of barrel is 15 amp rated and fits flush over a 29mm hole.
- Available in Black or Gray.
- ETL listed.
