Specialty Flat Cable Extension Cord

with mini male and female ends

CORDXX14/3FLMINIENDS

Specialty flat extension cord made with mini male and female ends to fit through 29mm holes in extrusions used in the trade show industry.

- Cord has been designed and priced to be used for daily general use or for the specialty application to fit through a 29mm hole.
- Rather than female end accepting plugs from the end, this cord is designed for cords to be plugged into the top of the female end.
- Male end will be blue and female end is clear with an LED indicator light inside. When power is on, LED lights up.
- 14/3 SPT-3 flat black cable, (approved for trade show use)
- Available in 15', 25', 50', 75' and 100' long cords.
- Product designed and developed by DS&L.
